

DMU.AI DATASET

Why can I not see my mark on MyDMU?(before the results day)

Marks on MyDMU will be only displayed after the official results day (i.e., after the moderation and the assessment board has taken place).

Your provisional mark are always available to you on the learning zone and/or turnitin. If you haven't received your marks yet please contact your lecturer and/or module leader.

What are moderation and assessment boards? - Processes used to ensure consistency and fairness in grading. It involves reviewing and adjusting grades to account for variations in difficulty between different exam papers, different examiners, or different assessment tasks. The goal is to maintain a

standardized level of difficulty and fairness across assessments and ensure that students are assessed fairly. They are body body within a university

responsible for overseeing and making decisions related to academic assessments, examinations, and student performance.

Why can I not see my mark on MyDMU (after the results day).

There can be a number of reasons why you can't see your mark on MyDMU. It is best if you contact the Student Advice Centre and/or your administration team. They will be able to investigate why you haven't had your marks

released on MyDMU yet. Find the contact details here - [Contact – ASK BAL De Montfort Univeristy \(dmu.ac.uk\)](#).How do I login to WiFi?

If on phone go to Settings --> Locate "Eduroam" WiFi --> change Authentication to PWD.

A: Student needs to use their outlook details WITHOUT 365, so: Login: P Number + @dmu.ac.uk password: MyDMU

password

If on the computer / laptop:

Locate "Eduroam" -- > connect.

I failed my module what do I do?

If you failed a module you need to refer to "progression advice" on the MyDMU portal, here is a step-by-step guide for what you have to do.

1. Access MyDMU Portal:
 - Log in to the MyDMU portal using your credentials provided by the university.
2. Navigate to the Results Tile:
 - Look for a section or tile called "Results" on the portal homepage.
3. Find Progression Advice:
 - Within the Results section, there should be a subsection or link related to "Progression Advice".
4. Review the Information:
 - Click on the link or section dedicated to progression advice. This is where the university provides guidance and information regarding what steps to take after failing a module.
5. Understand the Feedback:
 - Pay close attention to any feedback or recommendations provided by the university regarding your performance in the failed module. This information is crucial for understanding the areas that need improvement.
6. Contact the Student Advice Center - [Contact – ASK BAL De Montfort Univeristy \(dmu.ac.uk\)](https://www.dmu.ac.uk)
 - If the progression advice is not clear or if you have questions get in touch with us.

Will my re-sit/s, deferral or extension affect the time of my graduation?

Yes, if you had any resits, extension and deferrals closer to the original date of the end of your course, your graduation will be postponed.

- Example: A student had a deferral in August and their original end date was in July. Student graduation will be after their passed all their courses successfully e.g. January / February.

I am very close to a first class / lower second class

(student received 59% or 69%). Can I get it rounded up?

The final decision on whether you can get your mark rounded up makes an

assessment board. They will review your consideration band according to the regulations.

What is consideration band? - The consideration band is a two per cent band used in the calculation of integrated master's and honours degrees. It provides additional scrutiny where a student's average for classification falls close to a degree classification band boundary. It is rules-based and uses a student's

performance at the culmination of their studies (level 6, or level 7 for an

integrated master's degree) to decide whether the student should be awarded a degree in the higher classification band.

Please refer to the academic regulations page 15 - [L6 and PGT continuing ac regs 2023- 24 \(dmu.ac.uk\)](#).

I am changing courses and I have already filled out the form, but I don't have the Dean's signature, what do I do?

You don't need the Dean's signature to change courses. The programme Leader signature is required and nothing else.

I am an international student and want to change courses, what do I do?

In order to change your programme, you need to fill out the Change of Programme Form which you can find on our ASK BAL website [Change Of Programme – ASK BAL De Montfort Univeristy \(dmu.ac.uk\)](#).

New change of programme process commencing w/b 12 February. Below is information on how the process will work and our involvement. Jo Burt, who is leading this will also be providing guidance but I just wanted to give you a heads up so you have an idea of what to expect.

Form

- **Form will be similar to MS Forms.**
- **International students will not need to provide a supporting statement instead there will be additional questions they will need to answer.**
- **We will have access to a SharePoint site where we can monitor which stage the student is at.**

Process

1. **Student needs to complete the form. They will be advised to speak to the new programme leader before completing the form (like we do now) to ensure that they**

are eligible to change, we want to try to avoid them completing it without talking to the PL so that they know exactly what is

expected of them, what the course entails etc. and in case it could be a reject (it will save them time

from completing the form and avoid some disappointment) but that said they can submit the form without speaking with the PL but it is in their best interest that they do.

2. Student will need to add the programme leader's email address on the form, this must be

correct otherwise when the student submits the form it will get lost in the ether (going forward this information will be picked up automatically by SAP but this functionality isn't available for the pilot)

3. Once the form is submitted it will go to the Programme Leader and if they are and International Student it will also go to immigration and compliance.

4. The programme leader can either accept, accept with conditions (the conditions will be pre-printed on the form for the programme leader to tick and if the condition is not on the list there will be a free text section for them to write their own condition) or reject (*I have asked Jo if there will be a list of reasons of a free text box for the reject option, she will be speaking the ADAs and get back to us*).

5. Once the PL and I&C (if its in an international student) have accepted or rejected, the form will come into the SAC mailbox and we will then forward it on to the relevant admin mailbox (like we do now) for processing on SAP.

Timeline

- PL will have 5 working days to sign the form, on day 4 they will receive an auto reminder if after day 5 they have not signed the form it will be timed out for them and we will get an email

informing us of this, we will then send an holding email (wording to follow) to the student telling them that it's in the progress.

- We'll be given 10 working days (we will be aiming for 5 working days) to try and get hold of the PL if we're not having much luck then we will escalate it to AHEs (I am hoping this won't happen!)

- They will give send us the decision and we will add this to the form and forward it on to the appropriate admin mailbox for processing.

Who is my personal tutor, and how do I find one?

1. Log in to MyDMU:

- Use your credentials to log in to the MyDMU portal.

2. Navigate to "Student Overview":

- Once logged in, locate and click on the "Student Overview" section. This might be on the homepage or in a menu.

3. Access "Personal Details":

- Within the "Student Overview," find the section labeled "Personal Details." Click on this section to access details about yourself.

4. Locate "Personal Tutor":

- In the "Personal Details" section, scroll or look for information related to your personal tutor. The personal tutor's name and contact details should be displayed.

5. Contact Your Personal Tutor:

- Double click on the name of your personal tutor. This should take you to the page with the contact details.

Can I repeat the year?

The option to repeat the year depends on your academic situation:

6. Reassessment with Attendance:

- You may choose to re-study a failed module with attendance before submitting reassessments.
- A reassessment with attendance counts as one of the two available reassessment opportunities, and the module mark will be capped at the pass mark.

7. Repeat Year with Attendance:

- Undergraduate students who have failed more than 60 credits of a level of study at the reassessment board point (usually September) will be required to undertake a repeat year with attendance.
- Module marks will not be capped for repeat years.

8. Choice for 60 Credits Failure:

- If you have failed 60 credits of a level of study at the reassessment board point (usually September), you will be given the choice to either repeat the year or be reassessed with attendance in the failed modules only.

9. Reassessment Without Attendance:

- **Students who have failed up to 30 credits of a level of study (and not eligible for compensation) will be required to undertake reassessment in the following year without attendance.**

10. Mandatory Repeat Year for Fewer than 30 Credits Passed:

- **If you have only passed 30 credits or fewer, you must repeat the year with attendance, regardless of whether the remaining credits are failed, compensatable, or deferred.**

11. Marks and Reassessment:

- **Students undertaking a repeat year will not have their marks capped.**
- **If assessed more than once in the same module, the highest mark achieved will be recorded.**

12. Student Route (Tier 4) Consideration:

- **Student Route (Tier 4) students sponsored by the university cannot choose to re-study a failed module.**
- **They are eligible to undertake reassessment with attendance only when academically necessary, as defined in regulations, and aligned with Home Office Student Route regulations.**

13. Financial Consideration:

- **When being reassessed in a failed module with attendance, including as part of a repeat year, a student must pay the appropriate module fee.**

I want to withdraw from my studies due to personal

/ mental health and /or financial problems, what do I do?

I understand that you might be considering withdrawing from your studies, and I want to offer support during this important decision-making process. Before

making any decisions, we always suggest to explore the available resources and discuss your concerns with the appropriate individuals. Support and Wellbeing:

- **If you're feeling overwhelmed or unsure about your decision, consider reaching out to the Wellbeing team. They are there to provide support for your emotional and mental well-being.**

- You also have the opportunity to book a 1-to-1 meeting with one of our student support officers. These meetings can be instrumental in discussing your concerns, understanding your options, and receiving personalized guidance. To schedule a meeting, please contact the Student Advice Centre.

Terminating Your Studies:

- If you decide that withdrawing from your studies is the best option, you can find detailed information on the process by visiting [Terminating My Studies – ASK BAL De Montfort University - [Terminating My Studies – ASK BAL De Montfort University \(dmu.ac.uk\)](https://www.dmu.ac.uk/terminating-my-studies)].

Consider Exploring Alternatives:

- Before finalizing your decision, it may be helpful to explore alternative options. Your personal tutor, academic advisor, or career services might offer insights into potential solutions or adjustments that could address your concerns without the need to withdraw.

Can I study online?

No there is no option to study online. Everything takes place face to face. Only in a situation where there is a resit (e.g., in August) and a student has to submit a piece of work such as assignments or essays. This can be submitted online.

I need proof/evidence that I am a student, how do I go about it?

1. **Log in to MyDMU:**
 - Use your credentials to log in to the MyDMU portal.
2. **Navigate to My Documents:**
 - Look for a section or link labeled MyDoc. This section contains important documents related to your university journey.
3. **Locate Student Status Letter:**
 - Within the My Documents section, "Student Status Letter."

I can't see any of my results, what do I do? (When a

student doesn't see any of the results on the learning zone or MyDMU)

Marks on MyDMU will be only displayed after the official results day (i.e., after the moderation and the assessment board has taken place).

Your provisional mark are always available to you on the learning zone and/or turnitin. If you haven't received your marks yet please contact your lecturer and/or module leader.

What are moderation and assessment boards? - Processes used to ensure consistency and fairness in grading. It involves reviewing and adjusting grades to account for variations in difficulty between different exam papers, different examiners, or different assessment tasks. The goal is to maintain a

standardized level of difficulty and fairness across assessments and ensure that students are assessed fairly. They are body body within a university

responsible for overseeing and making decisions related to academic assessments, examinations, and student performance.

Can I get a completion award letter or "to who it may concern" certificate/award letter, proving I completed my studies (a student would usually ask this before graduation, before getting the certificate)

Your HEAR transcript which can be accessed here - [Digitary CORE](#) is your official transcript and can be used as your award letter. I am afraid we don't issue separate award letters or "to who it may concern" letters. You can share your HEAR transcript directly with organizations on the website via the share option.

If you require a reference, we ask that all references are made via - [Homepage | Higher Education Degree Datacheck \(hedd.ac.uk\)](#). This is an official verification website for references between a university and an organization.

If you don't have your HEAR yet you can complete this form to get a course completion letter - [Microsoft Forms](#).

Can I get a reference for my job / further studies? How do I obtain one?

If you require a reference, we ask that all references are made via - [Homepage | Higher Education Degree Datacheck \(hedd.ac.uk\)](#). This is an official verification website for references between a university and an organization.

Am I eligible for compensation (in a specific module)?

A student is only available for compensation if the exam board decided this. Normally a student needs to be within 2% mark reach e.g., 38%, 59%, 69% etc.

Can I get a certificate / diploma before my graduation?

If you have not graduated yet you can obtain a course completion letter here - [Microsoft Forms](#). We wouldn't be able to provide you with a certificate before your graduation. You will receive your certificate during your graduation and you will be able to access your transcript via Digitary Core.

Can I get my predicted grades (I am a second year or final year student and need a module list for further studies)

Although we wouldn't be able to provide you with your predicted grades, we would be able to print a module list for you to apply for postgraduate studies.

You can also use your HEAR transcript from the previous years to apply for a postgraduate degree. Please login to Digitary Core to view your HEAR transcript.

To obtain your module list please contact the Student Advice Centre.

I have submitted my interruption/termination of studies. How do I stop my student finance?

If you are pausing or terminating your studies you will have to get in touch directly with the student finance. They will be able to advise you best on the financial implications of pausing your studies.

You will have to notify the Student Finance that you are pausing your studies. Once your termination / interruption of studies has been processed the university the student finance will be notified about your registration.

My assessment was capped at 40/50 % due to late submission, is there anything I can do?

Once an assignment has been submitted late, it is generally challenging to rectify the situation unless there are valid reasons or extenuating circumstances. In standard academic procedures, late submissions without acceptable justifications will be capped at 50% if you are a master's student and 40 % if you are an undergraduate student.

If you believe you have a valid reason or extenuating circumstances that affected your ability to submit the assignment on time, I strongly encourage you to communicate with your module and/or programme leader. Explain the situation clearly and provide any necessary documentation / evidence to support your case. In some instances, instructors may consider granting extensions or making accommodations based on the circumstances.

It is essential to take responsibility for meeting deadlines in the future to avoid any potential negative impact on your academic performance. Consistent communication with your lecturers, proper time management, and seeking help (for example with the Student Advice Centre) is strongly encouraged within the university setting.

Can I get my module / programme handbook from previous years?

I understand that you are seeking access to the module and/or programme handbook from previous years.

In order to fulfill your request, we will need to reach out to the Programme Leader Support Team (PLS).

However, it's important to note that the availability of these materials is not guaranteed, and access may be subject to certain limitations.

I will initiate the request with the PLS on your behalf. Please allow some time for us to process your request and liaise with the relevant team. If the information is accessible, we will provide you with the required module and/or programme handbooks.

I want to access my HEAR transcript, how do I go about it? (Before the results release, before moderation)

HEAR transcripts are generated and made available after the official results release and the completion of the moderation process. This means that you will not be able to obtain your HEAR transcript before these key academic procedures are finalized.

The moderation process ensures the accuracy and fairness of assessment outcomes, and it is only after this process is completed that official results are released. Once the results are officially declared, the HEAR transcripts are then generated to reflect the finalized academic achievements.

I encourage you to keep an eye on official communications from the university regarding results release dates. Once the results are made available, the HEAR transcript production will follow, and you will be notified about the accessibility of your HEAR document via an email.

In a nutshell, please keep an eye on your university email.

I missed the module selection deadline. Can I still choose my modules?

If you missed the module selection deadline I would highly suggest getting in touch with the administration team as soon as possible. You can find their contact details on the official university website at <https://askbal.dmu.ac.uk/contact/>. They will be able to book you onto the modules.

Alternatively you can visit our Student Advice Centre and speak to the administration team in person to book you onto the modules.

Who is a module leader for XXX?

If you need to find out the module leader, there are three convenient ways to do so:

1. Learning Zone in the Module Shell: Navigate to the Learning Zone and click on the module shell to find a corresponding module leader. The

module leader's information is often available there, providing you with quick access to their details.

2. University Website - Staff Details: Visit our website at

<https://askbal.dmu.ac.uk/staff-details/>. Once there, you can search for the module leader based on the school to which your module belongs. The three schools are:

- Accounting, Finance, and Economics
- Law School
- Leadership, Management, and Marketing

3. **Student Advice Centre:** Another option is to visit the Student Advice Centre. They are equipped to provide information about module leaders and can guide you in the right direction.

Utilizing these three methods should help you easily identify and connect with your module leader. If you encounter any difficulties or have further questions, don't hesitate to reach out to the Student Advice Centre for assistance.

NOTE: In the Upcoming months we will implement a search function to search a module leader on our website, which should make things a lot easier for a student.

I want to take a gap year, what do I do?

If you are considering pausing your studies, officially known as "Taking a Leave of Absence," please take note of the following steps and important information:

1. **Discuss Your Options with Your Personal Tutor:** Before making the decision to pause your studies, we strongly recommend scheduling an appointment with your personal tutor. They can provide valuable guidance and help you explore alternative solutions.
2. **Financial Implications:** It's essential to consider the potential financial implications of taking a Leave of Absence. We encourage you to reach out to our Income Team at income@dmu.ac.uk to discuss any financial concerns or questions you may have.
3. **International Students:** If you are an international student, taking a Leave of Absence may have implications for your visa. We advise contacting our Immigration Compliance Team at immigrationcompliance@dmu.ac.uk to discuss the impact on your immigration status.
4. **Leave of Absence Form:** If, after seeking advice and considering your options, you decide to proceed with a Leave of Absence, please complete the Leave of Absence form. Submit the form to your Programme Leader for approval.
5. **Processing the Leave of Absence:** Once your Programme Leader approves the form, the Faculty Office will process it for you.

6. Course Completion Timeline: Keep in mind that you must still complete your course within the maximum registration period. Typically, students can take a maximum of two years away from their studies.

If you have any further questions or need additional assistance, please feel free to contact the Student Advice Centre. Additionally, you can find more detailed information and access the Leave of Absence form at

<https://askbal.dmu.ac.uk/pausing-my-studies/>.

I passed some of my modules, some not, which one can I re-sit?

If you have passed some of your modules and want to know if you are eligible to re-sit the ones you haven't passed, it's important to follow these steps:

1. Wait for Progression Advice: To determine which modules require re-sits, you'll need to wait until the progression advice is made available to you on MyDMU. This information is typically updated on the official results day.

2. Check MyDMU for Progression Advice: Log in to your MyDMU account to access your progression advice. This will provide details on which

modules you have successfully passed and if there are any that require re-sits.

3. Master's Students: If you are a master's student, please note that you generally have the opportunity for one re-sit attempt.

4. Undergraduate Students: If you are an undergraduate student, you typically have the option for up to two re-sits.

5. Review University Policies: Familiarize yourself with the specific re-sit policies and guidelines outlined by the university. These details may vary, so it's essential to be aware of the regulations governing re-sits for your particular program - [Academic regulations and recognition of prior learning](#)

dmu.ac.uk

If you have any questions or need further clarification after reviewing your progression advice, don't hesitate to reach out to your academic advisor or the Student Advice Centre for personalized assistance.

Remember, the progression advice on MyDMU will be a key resource in understanding your academic standing and determining the necessary steps for any re-sits.

Will I receive an academic transcript with my certificate?

Congratulations on reaching the final stages of your academic journey! As you approach graduation, we would like to inform you about accessing your HEAR (Higher Education Achievement Report) transcript.

Approximately a month prior to your graduation, you will be able to view your HEAR transcript through the following link: <https://core.digitary.net/r/user/login>. This

document comprehensively showcases your academic achievements throughout your time at the university.

During the graduation ceremony, you will be presented with your graduation certificate. In the event that you are unable to attend the graduation ceremony, rest assured that your certificate will be sent to you. For further details regarding the process of sending certificates, kindly contact academicawards@dmu.ac.uk.

Who do I speak to about graduation ceremonies?

If you have any questions or need further details regarding your graduation ceremony or any related matters, we recommend reaching out to the Academic Awards team at academicawards@dmu.ac.uk.

Will I still have access to my learning materials after graduation?

Please note that access to your learning materials will not be available after graduation. We recommend that you download or save any important materials you wish to retain for future reference before your graduation date. If you have any specific concerns or if there are particular materials you need, consider reaching out to your lecturers or the Student Advice Centre -<https://askbal.dmu.ac.uk/student-portal/>.

How long do I have access to my University emails?

You have access to your university email for life. Your email address will be your P Number followed by @alumni365.admu.ac.uk, and you can continue using your current password. Should you encounter any issues or have questions regarding your email access, please don't hesitate to reach out to the Information Technology and Media Services (ITMS) team. You can contact them through their service desk at [ITMS Service Desk](#).

How do I find my module leader?

If you need to find out the module leader, there are three convenient ways to do so:

1. **Learning Zone in the Module Shell:** Navigate to the Learning Zone and click on the module shell to find a corresponding module leader. The module leader's information is often available there, providing you with quick access to their details.

2. **University Website - Staff Details:** Visit our website at

<https://askbal.dmu.ac.uk/staff-details/>. Once there, you can search for the module leader based on the school to which your module belongs. The three schools are:

- Accounting, Finance, and Economics
- Law School
- Leadership, Management, and Marketing

3. **Student Advice Centre:** Another option is to visit the Student Advice Centre. They are equipped to provide information about module leaders and can guide you in the right direction.

Utilizing these three methods should help you easily identify and connect with your module leader. If you encounter any difficulties or have further questions, don't hesitate to reach out to the Student Advice Centre for assistance.

NOTE: In the Upcoming months we will implement a search function to search a module leader on our website, which should make things a lot easier for a student.

Where Can I see my outstanding balance?

To view your outstanding balance, please log in to your MyDMU student portal. Once logged in, navigate to the "My Balance" section, where you will find detailed information about your financial status, including any outstanding balances.

If you encounter any difficulties or have questions while accessing this information, please do not

hesitate to contact the Information Technology and Media Services (ITMS) team. They can be reached through their service desk at [ITMS Service Desk](#).

I need a proof that I am registered as a student?

If you need to verify your student status, you can use the student status letter available in the "MyDOC" section of your MyDMU portal (which stands for My Documents). This letter serves as official documentation of your current student status.

Should you encounter any difficulties accessing the student status letter or have further inquiries, feel free to reach out to the Information Technology and Media Services (ITMS) team. They can be contacted through their service desk at [ITMS Service Desk](#).

For additional support or general advice, you can also contact the Student Advice Centre through their website at [Student Advice Centre](#).

Where do I find XXX room?

To locate the XXX room, the format typically follows the UK room numbering system. The first number before the full stop represents the floor, and the

number after the full stop indicates the room number. For example:

- **Room 0.1 is on the ground floor and room number 1**
- **Room 1.2 is on the first floor and room number 2**
- **Room 2.1 is on the second floor and room number 1**
- **Room 3.1 is on the third floor and number 1 etc.**

Can I book an appointment with the module / programme / AHE or other member of staff?

To book an appointment with an academic staff, you can directly email the relevant academic staff member. Please provide details about the nature of your inquiry, your availability, and any specific topics or questions you'd like to discuss during the appointment.

How do I go to XXX section on MyDMU? (Please see "Navigating MyDMU" tab here)

There are number of questions a student can ask here please go to "Navigating MyDMU" tab in this OneNote.

How do I go to XXX section on MyLearning Zone? (Please see "Navigating Learning Zone" tab here)

There are number of questions a student can ask here please go to "Navigating Learning Zone" tab in this OneNote.

What disability support for my XXX condition do you provide?

If you are seeking support for your specific condition, it is best to connect directly with the Disability Team. They can provide tailored assistance and guide you on the available support options.

To reach out to the Disability Team, please email them at disability@dmu.ac.uk. Additionally, you can find more information and explore the range of services they offer by visiting [this link](#).

Feel free to share details about your condition and any specific requirements you may have.

The Disability Team is here to ensure you have the necessary support to excel in your academic journey.

I got a postgraduate diploma instead of a master's degree, can I still get a master's degree and if yes how do I go about it?

If you've received a postgraduate diploma and wish to upgrade to a master's degree, you have the opportunity to do so through Recognition of Prior Learning (RPL) or a top-up process.

Here are the steps to proceed:

- 1. Waiting Period:** You will need to wait for a minimum of 12 months. The application can be made 5 months prior to the start date. The start date should be at least 12 months from the end date of your current studies.
- 2. RPL Application:** To initiate the Recognition of Prior Learning (RPL) process, submit your application on the following website: [RPL Application](#).
- 3. Module Retake:** As part of the RPL process, you will be required to redo only the subjects you did not pass previously. Successfully passing these modules will accumulate the necessary credits for a master's degree (180 credits).

Feel free to reach out to the relevant academic department or the Student Advice Centre if you have any questions or need further guidance during this process

Is there an official transcript?

HEAR (Higher Education Achievement Report) transcript is an official and comprehensive document that provides a detailed record of your academic achievements during your time at the university.

The HEAR transcript includes information such as your grades, awards, extracurricular activities, and other notable accomplishments. It serves as an official and recognized transcript that can be shared with employers, educational institutions, or other relevant entities.

I failed an assignment and I would like get a more in depth feedback about it and I would like to speak to someone who will help me improve?

I understand that receiving detailed feedback and seeking guidance on improvement are crucial after encountering challenges with an assignment. Here are steps you can take:

- 1. Review Feedback: Begin by thoroughly reviewing the feedback provided on the failed assignment. Pay close attention to the comments and suggestions made by your lecturer.**
- 2. Module/Programme Leader: It is highly recommended to connect with the module and/or programme leader for further assistance. They are there to help you understand the feedback and provide guidance on how to improve.**
- 3. How to Find Them: To locate the contact details of your module and/or programme leader.**
- 4. Communication: Once you have identified the appropriate contact, send them a polite and concise email explaining your situation. Request a meeting or feedback session to discuss the failed assignment in more detail and seek advice on improvement.**

I understand that facing a failed re-sit can be challenging. If you are a master's student typically, there isn't a second opportunity for re-sits as per regulations - [Academic regulations and recognition of prior learning \(dmu.ac.uk\)](https://www.dmu.ac.uk/academic-regulations-and-recognition-of-prior-learning). However, there are exceptional cases where a

second re-sit may be considered, especially in extenuating and serious circumstances.

If you believe that your situation qualifies as an exceptional case, it is recommended to reach out to the Student Advice Centre. They are equipped to provide guidance on the necessary steps to take and can advise you based on your specific circumstances.

Feel free to share the details of your situation with the Student Advice Centre, and they will assist you in understanding your options and any potential avenues for additional support.

I can't see my timetable what do I do?

If you are unable to view your timetable, please follow these steps:

1. For Mobile Users:

- **If you are using the MyDMU application on your phone, try uninstalling and reinstalling the app. This can often resolve display issues.**

2. Computer/Laptop Access:

- **If the timetable is still not visible on your phone, try accessing it through a computer or laptop. Log in to MyDMU on a web browser to check if the timetable is visible on a different platform.**

3. Contact Student Advice Center:

- **If the issue persists after trying the above steps, we recommend reaching out to the Student Advice Center for further assistance. They can provide guidance on resolving technical issues and help ensure you have access to your timetable.**

You can contact the Student Advice Center through their website: [Student Advice Center.](#)

Is my timetable correct?

The timetable displayed on MyDMU is considered accurate and up-to-date. However, if you have any doubts or concerns about its correctness, you can always double-check by reaching out to the Student Advice Centre.

Feel free to contact the Student Advice Centre for additional confirmation or assistance. They are here to help ensure that you have the correct information and can address any questions you may have.

You can reach the Student Advice Centre through their website: [Student Advice Centre.](#)

I can't see my module on the learning zone what do I do?

If you are unable to see your module on the Learning Zone, please follow these steps:

1. Contact Module Leader:

- **Reach out to the Module Leader responsible for the specific module. The Module Leader has the authority to make the module shell available to students. They can provide assistance and ensure that you have access to the necessary materials.**

2. Finding the Module Leader:

- To find the contact details of the Module Leader, you can visit the Student Advice Centre website. They have a comprehensive list of

Module Leaders, and you can locate the specific information you need - [Staff Details – ASK BAL De Montfort Univeristy \(dmu.ac.uk\).](#)

3. Visit Student Advice Centre:

- If you prefer in-person assistance, you can also visit the Student Advice Centre for support. The staff there can guide you on the next steps and help you get in touch with the Module Leader.

I can't see my mark on Turnitin what do I do?

If you are unable to view your mark on Turnitin, the best course of action is to contact your Module Leader. They have the necessary access and information to provide clarity on your assessment results.

Feel free to reach out to your Module Leader through email or any communication method they have specified. If you are unsure about how to contact them, you can check the course materials or syllabus for their contact details.

I can't login to MyDMU / email, learning zone etc, what do I do?

If you have any issues logging into any of the DMU student services such as MyDMU, email, or Digitary Core it's best if you contact our ITMS (Information Technology and Media Services) team.

They will be able to assist you further.

For general information about the ITMS - [ITMS - Service desk \(dmu.ac.uk\).](#)

ITMS contact details:

Email: itmsservicedesk@dmu.ac.uk.

Telephone Number: +44 (0)116 250 6050

Make sure to quote your P Number, Full Name and your Course while contacting ITMS.

How do I get a student card?

To obtain your student card, please follow these guidelines based on your student status and intake:

- **International Students:**
- **International students will receive their ID cards immediately after face-to-face registration. You can collect your ID card from the Gateway House.**
- **October Intake (Home Students):**
- **Home students enrolled in the October intake typically collect their student cards from the Student Advice Centre.**
- **January Intake:**
- **January intake students should collect their ID cards from the Gateway House.**

Make sure to bring any required documentation or identification with you when collecting your student card. If you have specific questions or need further information, feel free to reach out to the Student Advice Centre.

My card is not working what do I do?

If you are experiencing issues with your card and it's not working, we recommend visiting the Student Advice Centre for assistance. The staff there will be able to help troubleshoot the problem, assess the card's functionality, and provide any necessary support.

Feel free to bring your card and any relevant details with you to the Student Advice Centre, and they will guide you through the process of resolving the issue.

Some modules are missing from my timetable. What should I do?

If you notice that some of your modules are missing from your timetable, we recommend reaching out to the administration team for assistance. They will be able to investigate the issue and provide guidance on how to address any discrepancies.

Please contact the administration team through the following link: [Contact Administration Team.](#)

Feel free to provide them with details about the specific modules that are missing, and they will work to resolve the matter promptly.

Can my parents ask for my personal information when I am away?

We wouldn't be allowed to give student's details to anyone outside of the university without a formal consent. This is to protect personal data and any personal information related to students. This is why we always asked our students to get in touch with us directly via the university email and not the personal email. This is so that we can easily identify the student and respond to the student directly from our student advice centre email.

I need a recommendation letter.

If you require a recommendation letter, we recommend reaching out to the relevant academic staff who are familiar with your academic performance and can provide a comprehensive recommendation. Typically, the Module Leader, Supervisor, and/or Programme Leader would be suitable candidates for this task.

Here are the steps to follow:

1. Module Leader/Supervisor:

- **Contact the Module Leader or Supervisor of the relevant course or research project. They can speak to your academic achievements, skills, and qualities.**

2. Programme Leader:

- **If the recommendation is needed at a programmatic level, consider getting in touch with the Programme Leader. They can provide insights into your overall academic journey.**

Make sure to provide sufficient information about your goals, achievements, and any specific points you would like them to highlight in the recommendation letter.

Are there any summer term classes / modules I could take to fast track my studies?

Unfortunately, De Montfort University doesn't provide any summer term offerings. We do have summer terms for some of our current students, but they are for students with a start date other than October (e.g., January, April Start) and master's student that are enrolled on a 12-

month course. In these cases, the summer term is just a part of a degree and doesn't speed up a process of the studies.

My module leaders are not replying to my emails and I need help with my assignment ASAP. What do I do (Summer Term, a lot of lecturers on annual leave).

If you are facing challenges getting a response from your module leaders and need urgent assistance with your assignment, especially during the Summer

Term when many lecturers may be on annual leave, here are steps you can take:

1. Check Annual Leave Status:

- Use your Outlook email and search through all your module leaders. Outlook will display information on the new email if the lecturer is on annual leave. Look for a response indicator or an out- of-office message.

2. Identify Available Module Leader:

- Try to identify a module leader who is not on annual leave and is available to assist you. Look for any available contacts who may be able to provide the help you need.

3. Student Advice Centre:

- If you are unable to find a module leader who is currently available, consider reaching out to the Student Advice Centre.

Can you confirm my term time calendar for my right to work check?

To confirm your term time calendar for the right to work check, please visit the following website: [Academic Calendar](#).

The academic calendar provides detailed information about term dates, holidays, and other important academic events. Ensure you have the

How do I obtain an academic reference for my postgraduate studies?

It's best to contact your supervisor or a module leader to obtain a reference for your postgraduate studies. This is because academic staff such as your personal tutor, a supervisor or programme/ module leader have more insights into your work throughout the course of your studies at DMU than we do.

They will be able to provide you with a reference that outlines how you progressed and what you achieved as well as highlight other individual achievements. This is why it's always best to ask an academic staff that knows your academic progress best.

I have been struggling. Is there any mental health support available for me as a student?

I am sorry to hear you had a difficult time this year. Remember that our Wellbeing team is always there for you and if you wish to make a 1 to 1 appointment you can do so by contacting them via this email - wellbeing@dmu.ac.uk. For general information about the wellbeing, you can read up on our website here - [Wellbeing and disability \(dmu.ac.uk\)](https://www.dmu.ac.uk/wellbeing).

If you need support, please book a SPA (Single Point of Access) Appointment on MyGateway - [MyGateway Login \(dmu.ac.uk\)](https://mygateway.dmu.ac.uk)

The company that I am applying for needs a reference. How do I get about it?

If you require a reference, we ask that all references are made via - [Homepage | Higher Education Degree Datacheck \(hedd.ac.uk\)](https://www.hedd.ac.uk). This is an official verification website for references between a university and an organization/company. Your employer will need to use this website to request an official reference from us.

My university won't accept HEAR as an official document what do I do?

In order for another university to accept the HEAR as an official document you have to share it via the share option on the Digitary Core website where your HEAR is - [Digitary CORE](https://www.digitarycore.ac.uk). Login into your Digitary Core account and share your HEAR with the university you are applying to.

What do I do if I don't remember my login details?

In order to retrieve your login details, you have to contact our ITMS team - itmsservicedesk@dmu.ac.uk.

If you forgot your password, click on the "Forgotten Password" option under the login menu and follow the steps to retrieve your password.

You will receive a verification code to your email which you will have to copy and paste into the box.

I want to work during my studies. What do I do?

It's best if you contact our careers team - balcareers@dmu.ac.uk. They will be able to help with your query further. If you would like to speak to them in person their office is in Hugh Aston building on the ground floor.

For general information please see - (there will be a link to the page on our website here).

How long do I have to wait for a decision from an APO?

Typically, the decision-making process may take up to 2 weeks. However, the exact timeframe can vary depending on the complexity of the situation and the volume of requests they are handling.

Your patience is appreciated.

How do I get my term-time work letter?

Term-time work letters are normally issued at the Gateway House - [Further enquiries and contact The Student Gateway \(dmu.ac.uk\)](#). They can be contacted by telephone on 0116 257 7595, Monday to Friday 9am-5pm or by email studentgateway@dmu.ac.uk

I really need to work full-time during my studies. Is this possible?

The main problem is that final year often times require strenuous efforts from students, and working full time would make it incredibly difficult to attend all of your classes and put time and energy into your assignments and exams.

Our advice, to all students, would be that they should not work full time alongside their full-time studies.

I completely appreciate that you need to be able to have money to live, but doing this would put you under an immense amount of pressure physically and mentally. You would effectively be working an 80+ hour week and we cannot encourage that.

Naturally though we also do not want to see a student in a position where you can't pay your bills and have nothing to eat . I would encourage you to book an appointment with the student finance and welfare team - [Appointments \(dmu.ac.uk\)](https://dmu.ac.uk/appointments).

For all information about financial support and funding - [Student Finance \(dmu.ac.uk\)](https://dmu.ac.uk/student-finance).

For all information about Wellbeing - [Wellbeing and disability \(dmu.ac.uk\)](https://dmu.ac.uk/wellbeing).

There is also the Unitemps team available to help you find part time work if you are interested - [De Montfort University Jobs - Unitemps](https://dmu.ac.uk/unitemps).

How do I get in touch with my administration team?

To get in touch with your administration team, please visit the following page: [Contact Administration Team](https://dmu.ac.uk/contact-administration-team).

On this page, you will find the contact details and relevant information for reaching out to the administration team. Feel free to inquire about any specific concerns or assistance you may need.

How do I get in touch with the Student Advice Centre?

To get in touch with the Student Advice Centre, please visit the following page: [Student Advice Centre](https://dmu.ac.uk/student-advice-centre).

On this page, you'll find relevant contact information and details on how to reach out to the Student Advice Centre for any inquiries or assistance you may need.

Feel free to explore the resources available on the page, and if you have any further questions, the Student Advice Centre is ready to support you.

Am I eligible to change my international fee status to home fee status?

You can complete the Fee Status Assessment Questionnaire to be considered for a change from an international fee status to home fee status.

To obtain the latest version of the form please contact the admissions office - admissions@dmu.ac.uk.

I urgently left the UK, what do I need to do?

With regards to you leaving the UK you need to read the information and follow the steps on our website here - [-International Students Travel – ASK BAL De Montfort Univeristy \(dmu.ac.uk\)](http://dmu.ac.uk)

The "Absence Request Form" will be on the following page after you click "Next".

I hope this helps. If you have any other questions, please don't hesitate to contact us.

I will be away from the university / I will be coming late to the university what do I do?

If you are going to be away from the university as an international student, you will have to complete the "Absence Request Form" form on our website here [-International Students Travel – ASK BAL De Montfort Univeristy \(dmu.ac.uk\)](http://dmu.ac.uk)

I hope this helps. If you have any other questions, please don't hesitate to contact us.

I would like to know how the to convert GPA to UK grading system?

The GPA (Grade Point Average) on 4.0/5.0 scale is not used in the United Kingdom.

At the universities in the UK, we use a different method of classification (see the below).

As you can see above Fail is the lowest and First-Class Honours is the highest. This is how GPA translates to the UK grading system:

If you received a mark of 66 overall that correlates to Upper-Second Class Honours degree. This translates to 3.7 GPA.

I hope this helps. If you have any other questions, please don't hesitate to contact us.

What is my APO meeting about?

Examples of ethics breaches include (but are not limited to):

Plagiarism in Academia: When a student or researcher presents someone else's work, ideas, or research as their own without proper attribution, it is considered an ethics breach in academia.

Academic Research Misconduct: Falsifying research data, manipulating research results, or omitting important information to deceive the scientific community is considered an ethics breach in research and academia.

Those are just examples, and the ethics breach can include various different concerns around ethics.

Please ensure to read your APO letter carefully so that you don't miss any important information.

I hope this helps. If you have any other questions, please don't hesitate to contact the Student Advice Centre.

What is academic offence?

Academic offenses committed by students can vary in severity and can include actions such as:

Plagiarism, Cheating on Exams, Fabricating Data, Collusion, Unauthorized Collaboration, Contract Cheating, Unauthorized access to exam/assignment answer sheets, Misrepresentation, tampering with grading, unauthorized multiple submissions, disruptive behaviour.

I hope this helps. If you have any other questions, please don't hesitate to contact the Student Advice Centre.

I would like my certificate to get delivered to a different address. How do I do that?

If you would like your certificate to be delivered to a different address, please contact the Academic Awards team at academicawards@dmu.ac.uk. They will provide guidance on the necessary steps and any additional information required to facilitate the delivery to your preferred address.

Feel free to reach out to them with your request, and they will assist you in ensuring that your certificate is delivered to the correct location.

If you have any more questions or need further assistance, don't hesitate to contact the Academic Awards team.

Can you provide me with a letter stating university and course details including holiday periods?

You can use your council tax or student status letter available to you on MyDMU in My Documents section, which has all of the information such as your, university and course details.

With regards to holidays, you can view the DMU academic calendar here - [Academic calendar \(dmu.ac.uk\)](https://dmu.ac.uk/academic-calendar).

What do I need to apply for RPL (student still registered and can login to the account)?

1. You will require programme and individual modules' details such as the outline, description, criteria, objectives etc., you will have to buy an enhanced transcript from our DMU shop here - [Enhanced Transcript | De Montfort university \(dmu.ac.uk\)](https://dmu.ac.uk/enhanced-transcript). If you don't require that many details, you can look at the alternatives for £20 and £5.

2. You will need your HEAR transcript on Digitary Core - [Digitary CORE](https://dmu.ac.uk/digitary-core). Login with an educational provider and select De Montfort University

3. You should have received your certificate during your graduation - or get it delivered if you didn't attend your graduation

4. The number of credits you achieved will be equivalent to the award you received (You received 105 credits and got awarded Postgraduate Certificate)

I hope this helps. If you have any other questions, please don't hesitate to contact the Student Advice Centre.

When I will receive my timetable if I am master's student?

You will receive your timetable on the 1st of October. Your programme starts on the 2nd of October.

I hope this helps. If you have any other questions, please don't hesitate to contact the Student

Advice Centre

Why do I have modules missing on the learning zone?

Your module leader makes the content of the module available to you on the learning zone. We wouldn't be able to make it available.

You have to contact your module leader for the specific module that is missing from your learning zone and ask for the module tile and content.

I hope this helps. If you have any other questions, please don't hesitate to contact the Student Advice Centre.

When will I get my certificate if I have re-sits in August?

You will receive your certificate during your graduation.

If you had re-sits in August your graduation will be in the winter period (January/February).

If you cannot attend your graduation the academic awards team will send the certificate to your permanent address.

**If you have queries you can contact the academic awards team via:
academicawards@dmu.ac.uk**

How long does it take for your certificate to be delivered? - It really depends on different factors and it take anything from a week to over a month.

I hope this helps. If you have any other questions, please don't hesitate to contact Student Advice Centre

The student wants to change the program during 2nd year (mid-year so deadline has passed?

The deadline to apply for a change of program has already passed this year.

Although not guaranteed, it might be possible for you to apply for a change of program for your 3rd year, but this would require you to successfully finish your 2nd year.

A change to a different program for your 3rd year requires:

- **approval from program leaders (both current and accepting program leader). You would have to speak to the program leader of a program that you are interested in to see if you are eligible to change (you would have to see if the modules from your 1st and 2nd year would be relevant for your 3rd year.**

I hope this helps. If you have any other questions, please don't hesitate to contact us.

I need to travel during my studies (for a certain period of time)?

The University encourages all students to remain in the UK during their teaching.

We understand, however, that in emergencies you may need to leave for short periods of time.

If you would like to request permission for a short term absence you will need to complete a request form.

You can find this form here - [International Students Travel – ASK BAL De Montfort Univeristy \(dmu.ac.uk\)](https://www.dmu.ac.uk/international-students-travel)

Please read all information on this page as it includes important information.

Once you have completed the form please send it to ASKBALstudentadvice@dmu.ac.uk.

We will need to speak to your Programme Leader before we can approve your absence. This is to make sure that an absence will not impact your studies.

We may also need to speak to Immigration Compliance to make sure there will be no problems with your visa.

Please note that we cannot guarantee your request will be granted.

Accommodation FAQs

Why do I keep being diverted to a 'Service busy' page?

This is due to the high volume of use. Please keep trying to log in.

The system keeps timing me out. What should I do?

Once you have picked your room, you have three minutes to complete the transaction. Please try again and complete within the allotted time.

There are no rooms available in the residence that I want a book. What should I do?

You will need to select a different residence. It is always advisable to have a shortlist of a few preferred residences in case your first choice is unavailable. Please note that availability changes regularly.

Why do I have to make a booking payment?

Your booking payment is required for all bookings to complete your provisional booking. The total booking payment is £200.

The £200 represents either an advance rent payment or a damage deposit (depending on the accommodation that you have chosen) which is refundable if a booking is cancelled.

The £200 payment referred to above will be treated as advance rent in relation to The Glassworks, Newarke Street, Castle Court, Liberty Park, and Newarke Point, and as a damage deposit in relation to Bede Hall, New Wharf Hall.

What if I'm on holiday or travelling when I need to book/confirm my room?

If you are unable to get access to the internet to complete your booking or check your emails during the application period, you can nominate someone to act on your behalf. To do this, please email us from the email address that we have on record for you, providing the details

of the person that you are authorizing to book your accommodation. This will then allow us to discuss your application with your nominated person if they should have any queries or experience any problems. Any emails that are sent out as part of the booking process will continue to be delivered to the email address that the university has on record for you.

Will I get my first choice of accommodation?

Our online booking system allows you to choose your preferred hall and a specific room within that hall, subject to availability. Rooms are booked on a first-come first-served basis, so we recommend that you book as early as possible to have the best chance of securing your

first-choice location.

Is accommodation allocated to students according to their course?

Not usually, although there are certain courses for which we do allocate students together in specific halls, e.g. [Art & Design Foundation students](#) are accommodated in Castle Court and Bede Hall, as they begin earlier than students on other courses.

NHS students (Nursing, Midwifery and Paramedicine & Ambulance Practice) are also offered accommodation at either **Bede** or **New Wharf Hall**, as they will be working shifts and require longer contracts.

Can I book a room next to my friend?

The only way to try and arrange a room next to, or in the same flat as, a friend is to make your online bookings at the same time, choosing rooms in the same flat or close to each other if available.

What happens once I have chosen my room online?

After you have made your choice online you will be asked to make a booking fee payment of

£200.

The £200 represents either an advance rent payment or a damage deposit (depending on the accommodation that you have chosen) which is refundable if a booking is cancelled.

You will need to confirm your booking within 30 days or before a specified date, for which we will email you the necessary details. This will involve completing tenancy documents, guarantor details and setting up your future rent payments. (If you hold a conditional offer, you will have a 14-day cooling off period once it becomes unconditional.)

In August, once you have confirmed your booking, we will send you an email with login details to your university pre-induction. Within this there is a mandatory halls module, which all students must complete before moving into their room. After completing the preinduction you will be asked to book an arrival slot for the intake weekend.

See more [information on how to book](#).

What if I do not get the grades that I was hoping for?

If you do not receive the results to meet your conditional firm offer, unless you also have an insurance offer with DMU, your booking will be cancelled immediately. If you have paid a booking fee, the £200 advance rent/damage deposit will be refunded to the same account that you used to make the payment within 5-14 working days.

I cannot make the booking fee payment online. What should I do?

If you would like to pay by either bank transfer or another method of payment that takes longer than 24-hours to clear, please contact the accommodation office so that we can ensure your booking is not cancelled after the 24-hour deadline.

How do I confirm my booking?

You will be sent an email detailing how to confirm your booking.

If you have booked a place in a DMU-managed hall you will need to log back into the booking system and complete step three.

Private accommodation confirmation steps vary. However, you will be sent a separate email from your accommodation provider. You will need to register on their system, agree to a tenancy document, provide guarantor details, and set up your future rent payments. You may also be required to pay the first rent instalment. If you have already returned your tenancy documents when you receive your unconditional offer you will have a 14-day cooling-off period.

N.B. Once you have confirmed your booking you are contracted to the room and will be liable for the rent for the duration of the tenancy, the first rent payment may be due before you receive

your student loan.

See [more information on the booking process](#).

What is a guarantor?

A guarantor is someone who agrees to confirm that a tenant has the ability to pay the rent, and for any damages. They will be held responsible for any payments due that are not paid by the tenant.

Without a suitable guarantor, some halls of residence will require you to pay all of your annual rent in advance.

What happens if DMU is my insurance choice, or if I come through clearing?

If you decide to accept your insurance offer or apply for a course through clearing, then you will be able to book a room in halls online – subject to availability – once you have made your offer firm.

At this point in the application cycle there may be limited availability. Please contact the [Accommodation Office](#) if you cannot find a room online.

How can I cancel my booking?

If your room booking is still provisional (or if you still have a conditional offer), you can cancel at any time by putting your request into writing. If you have paid the booking fee, you will be entitled to a refund which will be returned to the same bank account that you used to

make the original payment. If you have confirmed your booking (and have an unconditional firm offer) but no longer want your room then you will not be able to cancel the contract

unless a suitable replacement can be found.

Exceptions to this are if you cancel your room within a cooling-off period outlined in your contract, if you are an international student who is no longer going to be studying at DMU due to visa problems, or if you have booked a DMU-managed hall and will no longer be attending DMU (these exceptions are all subject to terms and conditions outlined in documentation

available throughout the booking period. For more information, please contact the Accommodation Office). If you feel that your circumstances may entitle you to cancel your contract, but the above conditions do not apply, then please write to us detailing your situation and we will advise you.

My booking has been cancelled but I still need a room. What shall I do?

Your booking will have been cancelled because you have either not paid the booking payment within 24 hours of reserving a room, or you have made the booking payment but failed to

confirm your booking within the set timeframe.

You can log back into the system and reserve a room. In both cases, you will need to make the booking payment within 24 hours.

What happens if I do not want University-sourced accommodation?

If you do not want to live in university-sourced accommodation then there are a lot of other options for students in Leicester. Although we do not deal directly with private-sector bookings, and cannot endorse any private providers, we can advise you regarding what options are available, where to look for private accommodation, and what to look for when choosing somewhere to live. If you wish to stop receiving emails regarding accommodation then please contact the Accommodation Office.

Can I book in my second and third year?

Only students that meet the [specified criteria](#) are eligible to book. Students who are eligible to book must make the booking payment for each booking, including those made in subsequent years.

Costs

DMU-sourced halls How much does it cost?

Weekly prices range from £95 - £158.50, though the contract length will affect the overall contract fee. Please note that you will have to commit to paying for the whole contract length as an accommodation contract is legally binding.

What are the start-up costs likely to be?

Start-up costs will vary, but for essential items like bedding, cutlery, crockery, kitchen utensils etc., £150 would be an average cost.

When do I pay rent?

The rent payment schedule varies depending upon which hall you book, so it is important for you to consider this before choosing your hall. All payment options and schedules are detailed on the individual hall pages of the website.

For DMU managed halls contracts you will not be required to make the first rent instalment until after you enrol and have received your first loan payment.

Whilst the halls do not require a payment prior to arrival check the instalments dates and

ensure you have your finance available to make the payments. Your student loan is not usually be deposited until after you have enrolled on your course. Some useful links while considering your options and budget:

- [Gov.uk student finance calculator](#)
- [UCAS budget calculator](#)
- [NHS student bursaries information](#)

The amount due and the instalment options available depend on which hall you select and the type of guarantor you have. In some cases, you may be required to pay the full rental amount for the entire contracted period if you do not have a suitable guarantor. The first rent payment due is in addition to the booking payment.

I've booked and confirmed my room, but now do not thin I can make the first rent payment. What should I do?

The dates of the instalments listed on the website are when the payments are due once you are contracted to the room. In certain circumstances, halls can be flexible with the initial instalment date. Please contact your hall of residence directly to discuss.

I have booked a room and paid the booking payment, but I've changed my mind and do not want accommodation. What should I do?

You may cancel your provisional booking at any time by contacting the [Accommodation Office](#). We will cancel your booking and arrange a refund of your booking payment.

How can I change the room I have booked?

You can cancel your *provisional* booking and rebook a different room online (subject to availability).

In order to do this, you will need to select the 'Request cancellation' button under 'My booking'. Once your original room booking has been cancelled, you will need to go back into the online booking system and book another room. You will not have to make another booking payment.

I don't have the money available to pay the online booking payment. What should I do?

Unfortunately, if you are unable to make the booking payment, we cannot reserve a room for you.

Please contact our [Money and Welfare team](#) who will be able to give you some advice and guidance on options you may wish to explore.

Applying for halls

When can I book accommodation?

The booking system for 24/25 entry opens on 12 March.

N.B. It is important that you let your faculty know if you change your email address at any time as this will be how we contact you. If you need to update it, please change it on your UCAS account or contact admissions@dmu.ac.uk

My course starts in January. Can I book a place in halls?

As long as you meet the [eligibility criteria](#) you can book a room in university-sourced halls of residences, subject to availability.

How can I make DMU my firm choice?

If you have applied through UCAS, you will need to use [UCAS track](#) to reply to the offer with either a firm acceptance or an insurance acceptance.

If you are an international student not applying through UCAS then you will need to contact the admissions department in order to accept your offer of a place on a course and make the tuition fee deposit payment before you are eligible to apply.

How do I book accommodation?

We use an online booking system. Watch the below video for an explainer on the booking process:

https://youtu.be/b7IOD_DVk8E

You are eligible to book once you have made DMU your first choice. Once we have opened the booking system, we will email you with your login instructions.

At each stage of the booking process you will be sent an email advising you of the next stage and what you need to do.

<https://www.dmu.ac.uk/Study/accommodation/how-to-book.aspx>

Hall facilities

For more information regarding the facilities in halls of residence, please see the [individual hall pages](#).

Are halls mixed or single gender?

Halls are mixed gender, but flats are either single or mixed gender.

It will be clear which type of flat (single gender or mixed) you are booking when you book online. In rare cases we may need to make a flat single/mixed gender for operational reasons, but if this applies to your booking you will be notified by email.

Is there any car parking available at the halls?

Parking is extremely limited. Some halls have a few parking spaces available, but we recommend that you don't bring a car unless absolutely essential. Most facilities are within walking distance of the

university and public transport in Leicester is very good. Halls with parking facilities allocate their spaces according to different criteria; some have disabled parking spaces available, whilst others allocate on a first-come, first-served basis. You will need to contact the hall directly regarding car parking. If you secure a parking space there will generally be an additional charge.

How far are the halls from campus?

All the halls are either on, or otherwise very close to campus. They are also close to the city centre, so you are near to all facilities, and are all within easy walking distance of each other, so you won't have far to walk to visit your friends.

Are any meals provided in halls?

No. All accommodation is self-catered with a shared kitchen. However, there are shops, cafe's, pubs, and campus catering nearby for those occasions when you are just too busy to cook, or fancy a treat.

Is there a cleaner?

You are responsible for cleaning your own room and kitchen. In DMU halls, bathrooms are cleaned. If you have en-suite or studio accommodation then you will be responsible for cleaning your own bathroom.

Do I have to pay Council Tax?

No. All full-time students are exempt from Council Tax. Local councils require a certificate as evidence of student status before they can grant exemption to you. To obtain this, please log onto MyDMU and select the 'My Documents' tile. You will then be able to download and print the certificate.

Do I need to bring?

Halls are fully furnished, but you'll need to bring your own cooking utensils, crockery and cutlery,

bedding and towels. You may want to wait until after you arrive to purchase any items needed for the communal areas so that you don't end up with everybody bringing the same items for your flat.

Is there internet access in halls?

Yes. All halls have internet access. The type & speed varies depending on which hall you choose. The service provider for The Glassworks and Newarke Street is Ask4. The service provider for Bede Hall,

New Wharf Hall, Castle Court, Newarke Point and Liberty Park is Glide. You will be able to register for access upon arrival.

Will I have to share a room?

No – all our university-sourced rooms are single occupancy.

How many faculties does DMU have?

The University origins go back to 1870 when it was known as the Leicester School of Art, fast forward to 1992 and De Montfort University (DMU) was granted university status, taking its name from Simon de Montfort, Earl of Leicester, who established the first parliament in 1265.

De Montfort University Faculties

Today, DMU has around 20,000 students divided across its four faculties:

- **Faculty of Arts, Design and Humanities**
- **Faculty of Business and Law**
- **Faculty of Health and Life Sciences**
- **Faculty of Computing, Engineering and Media**

The university places a strong emphasises on career-relevant skills with many courses endorsed by professional bodies and teaching is tailored to fit with current industry practices. Its common for students undertake a work placement, taking advantage of connections with a variety of organisations that include Deloitte, the NHS, and the BBC.

DMU's campus is a five-minute walk to the city centre, where students can find a range of shops, cafes and a thriving nightlife. The university's leisure centre has a wide range of facilities open to students including a climbing wall, a 25-metre swimming pool and a dance studio.

What facilities does DMU have?

- **Facilities.**
- **Diffusion Lab.**
- **Audiovisual Lab.**
- **Sound Art Lab.**
- **PACE.**
- **Additional Resources.**

What online learning resources are provided to students by De Montfort University? An e-resource is an electronic information resource that you can access through the Library website, on or off campus. You can get the information you want, when you need it, 24 hours a day, seven days a week.

E-resources include electronic journals, electronic books and online databases. There are many thousands of articles and books available - and the numbers keep growing as new

resources are added to our collections. Using our e-resources will guarantee that you are using quality information for your assignments. You can [find out more about e-Books here](#).

[This troubleshooting guide](#) has been created by the library's Content Delivery Team to provide guidance for library users when they face problems connecting to online content.

<https://library.dmu.ac.uk/eresourcelanding#:~:text=E%2Dresources%20include%20electronic%20journals,quality%20information%20for%20your%20assignments.>

What can I access?

As well as the content provided by your home institution, you can access eResources from DMU. These include ebooks, electronic journals, and other types of material available electronically.

- Search across the majority of our e-content using the Library Search engine above.
- Or search individual databases from our [databases A-Z](#) page.

How do I access resources?

You will be issued with a Single Sign-On Username and Password.

- P number, which acts as your username.
- Default password. You should change your password as soon as possible to keep it secure.
- It is against university regulations to share your password with anyone.
- eResources can only be used for educational purposes. Please make sure you follow the [acceptable use policy](#).

If you forget your password, use the [password self-service portal](#) to regain access. a).
Databases

Databases are collections of journals or other types of material, searchable from one search box. They enable you to find good quality subject-specific research.

- Some are general and others have a specific subject focus

- Some will concentrate on case studies and data that may be useful for your course.

To find a relevant database, select the broad subject category below, click on the database link

and enter your single sign-on username and password.

- [Arts, Design and Humanities](#)
- [Business](#)
- [Computing and Engineering](#)
- [Health and Life Sciences](#)

Alternatively, browse for a database using the [A-Z list of databases](#).

Other free databases and repositories exist to find ebooks and ejournals. See the [Free Online Resources](#) page tab for more information.

Database Tutorials and Guides Proquest Databases

Statista

Most relevant sections include the Consumer Insights section, plus the Market Insights. Users can interrogate their consumer / brand data to create bespoke reports for download.

- [How to use Statista consumer insights](#)
- [Quick guide: Statista Market Insights](#)

b). Journals

The term journal can mean either:

Peer-reviewed: articles in these journals are assessed by a panel of experts and subject specialists before the article is allowed to be published. Most research published in peer-reviewed journals is highly referenced allowing you to judge the quality of the research yourself. They are very thorough taking a long time to research, write and review; so whilst they may not mention the most current developments they will look at a subject in very specific detail.

Professional/Trade: articles are written by experts in a particular profession or trade and will cover current topics and trends within that field. Content will be catered to other professionals so will assume inside knowledge. Articles may have a reference list.

Popular magazines: examples include the Economist and Spectator and their articles are written by reporters for a general audience. They are published on a more regular basis so the articles will not be as well researched as articles in peer-reviewed journals but they will be more current, reporting on recent events. They are rarely referenced making a judgment on quality difficult.

Use journals to find:

- useful information, research and discussions
- different viewpoints from different authors
- relatively current information, journals are published quicker than books.

Popular magazines are a great way to develop your commercial awareness. You should be using peer-reviewed journals in your assignments to build on knowledge gathered from books Searching for journal articles

- Use the [Database A-Z](#) link to find a specific database
- Use Library Search above to search across a range of databases o Use the Journal Article filter under content type o Use the Full-text online filter to only find journals in an electronic format

Library Access Browser Extension

[Library Access from Lean Library](#) is a browser extension that helpfully pops up whenever it finds articles subscribed by De Montfort University.

It requires that you login as a member of DMU, using your Single Sign On details.

The browser is particular helpful if you are searching using tools such as Google Scholar.

https://library.dmu.ac.uk/partnerstudents_uk/online c). E-books

You will have access to the key print and online books via your institution library.

DMU also provides access to the following ebook collections, covering a broad range of subject areas.

Click on the links to access and enter your single sign-on username and password.

- [Proquest ebook central \(Academic Complete\)](#)
- [eBook Academic Collection \(EBSCOhost\)](#)
- [VLEbooks / Askews and Holt collection of ebooks](#)

[For help accessing ebooks try this guide.](#)

A-Z Databases and Library Learning Resources:

Question:

"Rates and number of rooms for six bed apartments at Newarke Street?" Answer:

"£143.21 per week, £6,158.03 per year. 6 rooms available."

"What's the cost for a four bed apartment at Newarke Street?" Answer:

"The four bed apartments at Newarke Street cost £147.47 per week and £6,341.21 per year. There are 40 rooms available."

Question:

"How much do five bed apartments at Newarke Street cost?" Answer:

"Five bed apartments at Newarke Street cost £147.47 per week and £6,341.21 per year. There are 5 rooms."

Question:

"What are the room rates for six bed apartments at Newarke Street?" Answer:

"Room rates for the six bed apartments at Newarke Street are £143.21 per week and £6,158.03 per year. There are 6 rooms available."

Question:

"How much is a five bed apartment at Newarke Street?" Answer:

"A five bed apartment at Newarke Street costs £147.47 per week and £6,341.21 per year. There are 5 rooms available."

Question:

"Can you tell me the price and availability of six bed apartments at Newarke Street?"

Answer:

"Sure! The six bed apartments at Newarke Street are £143.21 per week and £6,158.03 per year. There are 6 rooms available."

Question:

"What makes the four bed apartments at Newarke Street different from the five and six bed apartments?" Answer:

"The primary differences are in the number of rooms and the weekly and yearly charges. Four and five bed apartments both cost £147.47 per week and £6,341.21 per year, but there are more four bed

apartments available (40) compared to five bed apartments (5). Six bed apartments are slightly cheaper at £143.21 per week and £6,158.03 per year, with 6 rooms available."

Question:

"Why do the six bed apartments at Newarke Street cost less than the four and five bed apartments?"

Answer:

"The six bed apartments at Newarke Street cost less because they are priced at £143.21 per week and

£6,158.03 per year, which is lower than the four and five bed apartments. This could be due to differences in room size, amenities, or other factors specific to those apartments."

Question:

"Is there a difference in amenities between the four, five, and six bed apartments at Newarke Street?"

Answer:

"The primary difference lies in the number of rooms and the cost. All types of apartments at Newarke Street offer standard amenities, but you might want to check with the housing office for any specific differences in amenities between the apartment types."

Question:

"How long is the contract period for the apartments at Newarke Street?" Answer:

"The typical contract length for apartments at Newarke Street is around 43 weeks, spanning from September to July. It's always best to confirm the exact dates with the housing office."

Question:

"Are there any discounts available for staying in the six bed apartments at Newarke Street?" Answer: "The six bed apartments are already priced lower at £143.21 per week and £6,158.03 per year. For additional discounts or promotions, it's best to contact the housing office directly."

Question:

"What should I consider when choosing between the four, five, and six bed apartments at Newarke Street?" Answer:

"When choosing between the apartments, consider the cost, the number of roommates you'll have, the availability of rooms, and any specific preferences for living arrangements. Four bed apartments have the most availability with 40 rooms, while six bed apartments are the most affordable."

Question:

"How does the availability of rooms at Newarke Street compare to other halls of residence?" Answer: "Newarke Street has a range of room availability, with 40 four bed apartments, 5 five bed apartments, and 6 six bed apartments. This variety may provide more options compared to other halls of residence, but checking each hall's specific details would give a clearer picture."

Question:

"Can I choose my roommates for the apartments at Newarke Street?" Answer:

"Generally, you can request to live with specific roommates, but it's subject to availability and the housing office's policies. It's best to discuss your preferences directly with the housing office."

Question:

"What happens if I need to move out early from Newarke Street?" Answer:

"Early move-out policies vary, but usually, you'll need to provide notice and may incur fees. It's important to check the specific terms and conditions in your housing contract."

Question:

"Are utilities included in the weekly and yearly charges for the apartments at Newarke Street?"

Answer:

"The weekly and yearly charges typically include basic utilities, but you should confirm the details with the housing office to understand what is covered and if there are any additional costs."

Question:

"As an international student, are there any special considerations for staying in the apartments at Newarke Street?" Answer:

"International students are welcome to stay in the apartments at Newarke Street. It's important to consider the contract length, the costs, and the availability of rooms. You may also want to check with the housing office about any additional support services for international students."

Question:

"How does Newarke Street manage energy consumption?" Answer:

"Newarke Street employs various energy-saving measures, such as energy-efficient lighting and heating systems, to reduce energy consumption. Residents are also encouraged to be mindful of their energy use."

Question:

"Are there any incentives for residents to live more sustainably at Newarke Street?"

Answer:

"Yes, there are several incentives and programs to encourage sustainable living at Newarke Street, such as competitions for reducing energy use and workshops on sustainability. Check with the housing office for more details."

"Are the apartments at Newarke Street accessible for students with disabilities?" Answer:

"Yes, Newarke Street has accessible apartments and facilities for students with disabilities. It's important to discuss your specific needs with the housing office to ensure appropriate accommodations."

Question:

"What kind of support services are available for students with disabilities at Newarke Street?" Answer: "Support services for students with disabilities include accessible rooms, assistive technology, and on- site support staff. The housing office can provide detailed information on available services."

Question:

"Are there elevators in the buildings at Newarke Street?" Answer:

"Yes, buildings at Newarke Street are equipped with elevators to ensure accessibility for all residents. For specific building details, please contact the housing office."

Question:

"How can I request an accessible room at Newarke Street?" Answer:

"To request an accessible room, you should contact the housing office as early as possible and provide any necessary documentation regarding your needs."

Question:

"Is there any priority given to students with accessibility needs when assigning rooms at Newarke Street?" Answer:

"Yes, students with accessibility needs are given priority in room assignments to ensure they receive appropriate accommodations. It's best to discuss your requirements directly with the housing office."

Question:

"What security measures are in place to ensure my child's safety at Newarke Street?" Answer:

"Newarke Street has various security measures, including secure entry systems, CCTV, and on-site staff, to ensure the safety of all residents. The housing office can provide more details on specific security protocols."

Question:

"What support services are available for my child at Newarke Street?" Answer:

"Support services include resident advisors, counseling services, and peer support programs to assist students in adjusting to university life and addressing any concerns they may have."

Question:

"How can I contact my child in case of an emergency at Newarke Street?" Answer:

"In case of an emergency, you can contact the housing office directly. They will be able to assist you in reaching your child promptly."

Question:

"What amenities are provided to ensure my child has a comfortable living experience at Newarke Street?" Answer:

"Amenities at Newarke Street include furnished rooms, laundry facilities, study spaces, and social

areas. These are designed to provide a comfortable and convenient living environment for students."

Question:

"Are there any orientation programs to help my child settle into Newarke Street?"

Answer:

"Yes, orientation programs are available to help new residents settle in, get to know their peers, and learn about the facilities and services at Newarke Street. The housing office can provide more

information on these programs."

Question:

"What social activities are available for residents at Newarke Street?" Answer:

"Newarke Street offers a variety of social activities, including movie nights, game nights, and community events to help residents socialize and build a sense of community."

Question:

"Is there a common area where residents can hang out at Newarke Street?" Answer:

"Yes, there are common areas and lounges at Newarke Street where residents can relax, study, and socialize with their peers."

Question:

Question:

"Why is the weekly charge different for Bede Hall and Castle Court for the Art Foundation course?" Answer: "The weekly charges differ due to variations in room types and amenities. Castle Court offers en suite options, which are typically more expensive than standard rooms at Bede Hall."

Question:

"What amenities might justify the higher cost at Castle Court for Art Foundation students?" Answer:

"Castle Court's higher cost might reflect additional amenities such as private bathrooms, better furnishings, or enhanced facilities compared to Bede Hall."

Question:

"Do the different contract lengths affect the total cost of staying at these halls?" Answer:

"Yes, longer contract lengths usually mean higher total costs. The Art Foundation contract at Castle Court is longer than at Bede Hall, which impacts the overall yearly charge."

Question:

"How do the contract lengths compare for different courses at these halls?" Answer:

"Contract lengths vary by course, with some lasting longer due to course schedules. For example, Nursing & Midwifery at New Wharf Hall has a 44-week contract, while Paramedicine at New Wharf Hall has a 48-week contract."

Question:

"Are there any specific reasons for the price increase for the Nursing & Midwifery course at New Wharf Hall compared to Bede Hall?" Answer:

"The price increase could be due to the higher cost of facilities, location, or additional services offered at New Wharf Hall compared to Bede Hall."

Question:

"Are there any additional support services for international students at Bede Hall and New Wharf Hall?" Answer:

"Yes, both halls may offer additional support services such as orientation programs, language assistance, and cultural events to help international students adjust."

Question:

"What should international students consider when choosing between Bede Hall and New Wharf Hall?" Answer:

"International students should consider factors like cost, contract length, amenities, and proximity to campus. They should also look into any additional support services offered at each hall."

Question:

"How can international students apply for accommodation at Bede Hall and New Wharf Hall?" Answer: "International students can apply through the university's accommodation application process. It's best to consult the university's housing website or contact the housing office for specific application instructions."

Question:

"Is there any language support available for international students at these halls?"

Answer:

"Language support may be available through university services, including language courses or assistance from staff. Check with the international office for specific language support options."

Question:

"How can international students integrate into the community at Bede Hall or New Wharf Hall?" Answer: "International students can integrate by participating in social events, joining student groups, and engaging with resident advisors. The housing office may also organize welcome events and activities to help students settle in."

Question:

"Are there any sustainability initiatives at Bede Hall and New Wharf Hall?" Answer:

"Both halls may have sustainability initiatives such as recycling programs and energy-saving measures. For specific details, contact the housing office."

Question:

"How do the environmental features of Bede Hall and New Wharf Hall compare?" Answer:

"Environmental features may vary between halls. Bede Hall and New Wharf Hall might have different levels of energy efficiency, recycling facilities, and eco-friendly practices. Check with the housing office for detailed information."

Question:

"What steps can residents take to support sustainability at Bede Hall and New Wharf Hall?" Answer:

"Residents can support sustainability by participating in recycling programs, conserving energy and water, and using eco-friendly products. Both halls may provide guidelines for sustainable living."

Question:

"Are there any eco-friendly amenities in the rooms at Bede Hall or New Wharf Hall?" Answer:

"Eco-friendly amenities might include energy-efficient lighting or water-saving fixtures. For specific details on what's available, consult the housing office."

Question:

"Do Bede Hall and New Wharf Hall have programs to promote environmental awareness among residents?"

Answer:

"Programs promoting environmental awareness may be available. These could include workshops, events, or informational resources. Contact the housing office for more information on such programs."

Answer 3: The costs for accommodation next year are £95.00 to £158.55 weekly, with contract lengths of 41 to 48 weeks.

Answer 4: Next year's accommodation costs range from £95.00 to £158.55 per week, with contract durations from 41 to 48 weeks.

Answer 5: For 2023/24, accommodation prices range from £95.00 to £158.55 per week, with contract lengths from 41 to 48 weeks.

"Could you shed light on the financial commitments and duration of stay requirements for next year?"

Answer 1: Financial commitments for accommodation next year range from £95.00 to £158.55 per week, with contract lengths from 41 to 48 weeks.

Answer 2: Next year's accommodation costs are £95.00 to £158.55 weekly, with contract durations between 41 and 48 weeks.

Answer 3: The financial commitments for next year's accommodation range from £95.00 to £158.55 per week, with contracts lasting 41 to 48 weeks.

Answer 4: For the 2023/24 academic year, accommodation prices are between £95.00 and £158.55 per week, with contracts from 41 to 48 weeks.

Answer 5: Accommodation costs for next year range from £95.00 to £158.55 weekly, with contract lengths of 41 to 48 weeks.

12. "I'm curious about the pricing and contract terms for the upcoming academic year. Can you fill me in?"

Answer 1: Prices for the upcoming academic year range from £95.00 to £158.55 per week, with contract lengths between 41 and 48 weeks.

Answer 2: The accommodation costs for next year are £95.00 to £158.55 weekly, with contract durations from 41 to 48 weeks.

Answer 3: For 2023/24, accommodation prices are between £95.00 and £158.55 per week, with contracts lasting 41 to 48 weeks.

Answer 4: Accommodation costs for next year range from £95.00 to £158.55 weekly, with contract lengths from 41 to 48 weeks.

Answer 5: Next year's accommodation prices vary from £95.00 to £158.55 per week, with contract durations of 41 to 48 weeks.

13. "What do I need to know about prices and contracts for next year whenever you get a chance?"

Answer 1: For next year, accommodation costs range from £95.00 to £158.55 per week, with contract lengths between 41 and 48 weeks.

Answer 2: Next year's accommodation prices are £95.00 to £158.55 weekly, with contracts lasting 41 to 48 weeks.

Answer 3: The costs for next year's accommodation range from £95.00 to £158.55 per week, with contract durations from 41 to 48 weeks.

Answer 4: Accommodation prices for next year vary from £95.00 to £158.55 per week, with contracts from 41 to 48 weeks.

Answer 5: For 2023/24, accommodation costs are between £95.00 and £158.55 per week, with contracts lasting from 41 to 48 weeks.

"I haven't checked yet—any details on fees and how long we're locked in?"

Answer 1: Accommodation fees range from £95.00 to £158.55 per week, with contract lengths from 41 to 48 weeks.

Answer 2: For next year, accommodation costs are £95.00 to £158.55 weekly, with contracts between 41 and 48 weeks.

Answer 3: Next year's accommodation prices vary from £95.00 to £158.55 per week, with contract durations from 41 to 48 weeks.

Answer 4: The costs for accommodation next year range from £95.00 to £158.55 per week, with contracts lasting 41 to 48 weeks.

Answer 5: For the upcoming academic year, accommodation prices are between £95.00 and £158.55 weekly, with contract lengths from 41 to 48 weeks.

Question 1: "Can you explain how the payment works for booking a room?"

Answer 1: "When you book a room, you commit to paying for the entire contract length, even though no payment is needed before you arrive. Make sure you're aware of the installment dates and have your finances ready, as your student loan may not be available until after you enroll."

Answer 2: "Booking a room means you're committed to paying for the whole contract period. There's no

upfront payment required, but check the installment dates and ensure you have funds available, as student loans are usually paid out after you start your course."

Answer 3: "You'll need to pay for the entire contract length once you confirm your booking. While you don't need to pay before arriving, be sure to check when installments are due and make sure you have the money available since your student loan may come in later."

Answer 4: "Confirming your room booking means committing to the full contract length financially. Payments aren't needed before arrival, but it's important to check the installment schedule and have your finances in order, as student loans are typically deposited after enrollment."

Answer 5: "When you book a room, you're agreeing to pay for the entire duration of your contract. No payment is required before you move in, but you should be aware of the installment dates and have your funds ready

because your student loan usually arrives after enrollment."

Question 2: "What should I be aware of regarding the contract length and payment?"

Answer 1: "You should check both the weekly and yearly charges, as some contracts are longer and thus more expensive. Once you book a room, you're committed to paying for the full length of the contract. No payment is needed before you arrive, but make sure you're prepared for installment dates and have your finances ready as student loans typically come in after enrollment."

Answer 2: "Be sure to review both the weekly and yearly charges because contract lengths can vary. Booking a room means you are committed for the entire period, and while you don't need to pay before arrival, you must keep track of installment dates and ensure you have funds available, since student loans usually arrive post-enrollment."

Answer 3: "Pay attention to both the weekly and yearly costs, as some contracts are longer than others. Once you confirm your booking, you're obligated to pay for the whole contract. Payment isn't required before moving in, but check the installment dates and have your finances in place because student loans often come after you start your course."

Answer 4: "Make sure to check both the weekly and yearly charges as contract durations differ. Confirming your booking commits you to paying for the entire contract length. No advance payment is needed, but be aware of when installments are due and ensure you have your funds ready, as student loans typically arrive after enrollment."

Answer 5: "Review both the weekly and yearly charges carefully since contract lengths can vary. By confirming your room, you're agreeing to pay for the entire duration. While payment before arrival isn't required, you should know the installment dates and ensure you have enough funds available, as student loans are generally deposited after you enroll."

Question 3: "What happens if I can't pay before arriving? What should I do?"

Answer 1: "You don't need to pay before arriving, but ensure you are aware of the installment dates. Make sure you have your finances ready, as your student loan might not be available until after you have enrolled."

Answer 2: "There's no need to pay before you move in, but you must be prepared for installment payments. Your student loan typically comes after enrollment, so plan ahead to have the necessary funds available."

Answer 3: "Payment before arrival isn't required, but you should check the installment schedule and ensure you have enough money available. Your student loan is usually deposited after enrollment, so make sure to budget accordingly."

Answer 4: "Although you don't need to make a payment before moving in, you should be ready for installment payments. Since student loans are generally deposited post-enrollment, make sure you have your finances sorted beforehand."

Answer 5: "You aren't required to pay before you arrive, but it's important to keep track of installment dates and have the necessary funds ready. Student loans typically come after you start your course, so plan your finances

accordingly."

Question 4: "How do I know the difference in cost between different contracts?"

Answer 1: "The cost difference is due to varying contract lengths and charges. Be sure to check both weekly and yearly charges, as some contracts are longer and thus more expensive. Confirming a booking means you're committed to paying for the whole length of the contract."

Answer 2: "Costs differ based on the length of the contract. Review both weekly and yearly charges to

understand the total cost. Once you book, you're committed to the full contract period, so make sure to check the details before confirming."

Answer 3: "Different contracts have different costs depending on their length. Make sure to check both weekly and yearly charges. Booking a room means you're committed to paying the entire length of the contract, so compare all details before making a decision."

Answer 4: "To understand cost differences, look at both weekly and yearly charges as they vary with contract length. You'll need to pay for the entire contract once booked, so review all charges carefully before confirming."

Answer 5: "The cost varies with the length of the contract, so be sure to compare both weekly and yearly charges. Once you confirm your booking, you're obligated to pay for the full contract period, so check all details thoroughly."

Question 5: "What if my student loan doesn't cover the payment schedule?"

Answer 1: "If your student loan isn't available before the installment dates, you'll need to have alternative funds ready. Your room booking is a legally binding commitment for the entire contract length, so plan your finances to meet the payment schedule."

Answer 2: "Ensure you have funds available for payments if your student loan arrives after the installment dates. The contract obligates you to pay for the whole period, so it's crucial to have your finances sorted in advance."

Answer 3: "If your student loan doesn't cover payments on time, you'll need to arrange other funds. Since booking a room is a legal commitment for the full contract length, make sure you can meet the payment deadlines."

Answer 4: "If your student loan is delayed, have backup funds available for payments. Confirming your room means you're committed for the entire contract period, so make sure you have the necessary finances to cover the payment schedule."

Answer 5: "You'll need to ensure you have alternative funds if your student loan isn't available by the installment dates. Your commitment is for the entire contract length, so plan your finances to handle the payment schedule."

Question 1: "Hey, do I need to pay for the whole year upfront or just bit by bit?"

Answer 1: "You don't need to pay the entire amount upfront. Payments are usually made in installments throughout the contract period. Just check the exact dates for when payments are due."

Question 2: "So, how does paying for accommodation work? Do I have to pay before moving in?"

Answer 2: "You don't need to pay before moving in. You'll start making payments according to the schedule provided, and it's important to keep track of these dates."

Question 3: "What's the deal with paying for the room? Can I just pay as I go?"

Answer 3: "Payments are typically scheduled in installments rather than paying as you go. Make sure to review the payment schedule to know when each installment is due."

Question 4: "How do I figure out what I'll actually be paying for a room?"

Answer 4: "Check both the weekly and yearly charges. The total amount will depend on the length of your contract and the type of room you choose."

Question 5: "Can you explain how the payment schedule works for the rooms?"

Answer 5: "The payment schedule usually involves multiple installments spread throughout the contract period. Check the specific dates for these payments to ensure you're prepared."

Lazy Student

Question 1: "Do I need to pay for the room before I arrive?"

Answer 1: "No, you don't need to pay before you arrive. Payments start according to the schedule given once you're in."

Question 2: "How much do I have to pay each week for the room?"

Answer 2: "Weekly rates vary by room type, but you'll need to pay between £95.00 and £158.55 per week. Check your specific contract for exact details."

Question 3: "What if I can't pay on time? What happens then?"

Answer 3: "If you miss a payment, you may face late fees or other penalties. It's best to stick to the payment schedule and contact the housing office if you have issues."

Question 4: "How long do I have to pay for the room? Is it monthly or something?"

Answer 4: "Payments are typically made in installments over the contract period, not monthly. The exact schedule will be provided with your contract."

Question 5: "Can I just pay for the room in chunks or what?"

Answer 5: "Payments are usually broken down into installments rather than large chunks. Review your contract for the exact payment structure."

Question 1: "Could you provide detailed information regarding the payment schedule for accommodation?"

Answer 1: "Certainly. Payments are made in installments over the duration of your contract. The exact schedule, including due dates, will be outlined in your contract."

Question 2: "What are the implications of confirming a room booking in terms of financial commitment?"

Answer 2: "Confirming a booking means you're legally committed to paying for the entire contract length. Ensure you're aware of the payment schedule and have the funds available."

Question 3: "Can you clarify the procedure for paying for accommodation, especially if financial aid is delayed?"

Answer 3: "You'll follow a set payment schedule. If your financial aid is delayed, ensure you have alternative funds to meet the payment deadlines, as the contract requires full payment for the duration."

Question 4: "What steps should I take to ensure I am prepared for the payment of my accommodation fees?"

Answer 4: "Review your contract for payment dates, ensure you have the necessary funds, and contact the housing office if you anticipate any issues with meeting the payment schedule."

Question 5: "Please provide a breakdown of how the accommodation fees are structured and paid throughout the contract."

Answer 5: "Accommodation fees are structured with weekly or yearly charges and paid in installments throughout the contract period. The specific breakdown will be detailed in your contract."

Question 1: "When do I need to pay for the room?"

Answer 1: "You'll need to follow the payment schedule outlined in your contract, with payments due at specific intervals throughout the contract period."

Question 2: "What's the payment plan for accommodation?"

Answer 2: "The payment plan involves installments paid at regular intervals. The exact dates will be specified in your contract."

Question 3: "Is paying in full required before moving in?"

Answer 3: "No, you don't need to pay in full before moving in. Payments are made in installments according to the schedule."

Question 4: "How do I pay for my room if my loan is delayed?"

Answer 4: "If your loan is delayed, you'll need to arrange alternative funds to cover payments. The contract requires payment according to the set schedule."

Question 5: "How do the room payments work?"

Answer 5: "Payments are made in installments over the length of your contract. The specific payment dates and amounts will be outlined in your contract."

Question 1: "So, do I have to fork out the whole amount for the room before I even get there?"

Answer 1: "Nope, you don't need to pay it all upfront. Payments are spread out over the contract period, so you'll just follow the schedule provided."

Question 2: "How does the whole paying-for-the-room thing go? Can I pay as I get the money?"

Answer 2: "You'll pay in installments according to the schedule in your contract. It's not pay-as-you-go, so make sure you're ready for each payment date."

Question 3: "What if I don't get my loan on time? Can I still get in?"

Answer 3: "You'll need to have funds available if your loan is delayed, as payments are required according to the schedule. Check with the housing office for any possible arrangements."

Question 4: "How do payments get sorted out? I mean, do I pay all at once or what?"

Answer 4: "Payments are divided into installments throughout your contract period, not all at once. The schedule will be provided with your contract details."

Question 5: "Tell me how I'm supposed to handle paying for my room if I'm short on cash."

Answer 5: "If you're short on cash, make sure you have a plan for each installment. You might need to arrange for funds or speak with the housing office if you face difficulties."

Question 1: "I'm worried about affording the room. How flexible is the payment plan?"

Answer 1: "The payment plan is set with specific installment dates. It's important to stick to these dates, but you can contact the housing office to discuss any financial concerns or difficulties."

Question 2: "If my student loan is delayed, what are my options for handling the payments?"

Answer 2: "You'll need to have alternative funds ready if your loan is delayed. It's a good idea to discuss your situation with the housing office to see if any adjustments can be made."

Question 3: "What happens if I can't pay on the scheduled dates?"

Answer 3: "Missing a payment may result in late fees or other penalties. It's important to contact the housing office as soon as possible to discuss your situation and explore options."

Question 4: "How strict are the payment deadlines for accommodation?"

Answer 4: "Payment deadlines are generally strict, and it's important to adhere to them. Contact the housing office immediately if you anticipate any issues meeting these deadlines."

Question 5: "Are there any penalties if I miss a payment or need to adjust my payment schedule?"

Answer 5: "Yes, there may be penalties for missed payments. If you need to adjust your payment schedule, contact the housing office to discuss possible arrangements."

Question 1: "Can you explain how the weekly and yearly charges affect my budget?"

Answer 1: "Weekly charges range from £95.00 to £158.55, and yearly charges are a multiple of the weekly rate based on your contract length. Be sure to budget for both weekly and yearly expenses."

Question 2: "How do I budget for the full contract length of my accommodation?"

Answer 2: "Review your contract to understand the total cost based on the weekly rate and the length of the contract. Set aside funds according to the installment schedule provided."

Question 3: "What should I do if I can't cover the full year's cost right away?"

Answer 3: "Arrange to have funds available for the installments as outlined in your contract. Contact the housing office to discuss any issues if needed."

Question 4: "How can I plan for the payments if my student loan is delayed?"

Answer 4: "Have a plan for alternative funding to cover payments if your loan is delayed. Budget for the payment dates specified in your contract and reach out to the housing office if you need assistance."

Question 5: "Are there options for splitting payments to make budgeting easier?"

Answer 5: "Payments are usually split into installments according to the contract. Check your contract for details on the payment schedule and contact the housing office for any special arrangements."

Question 1: "What financial preparations should I make before confirming my room booking?"

Answer 1: "Ensure you have a plan for the full amount due based on the payment schedule in your contract. Review the contract for payment dates and amounts, and prepare alternative funds if needed."

Question 2: "How can I ensure that I'm ready to meet the payment deadlines for accommodation?"

Answer 2: "Track the payment schedule provided in your contract and set reminders for each payment date. Ensure you have funds available and consider setting up a savings plan to cover these costs."

Question 3: "What should I know about installment dates and managing my finances effectively?"

Answer 3: "Installments are due on specific dates outlined in your contract. Budget accordingly and ensure you have funds ready for each payment. Contact the housing office if you anticipate any issues."

Question 4: "How can I avoid any issues with payments if my student loan is delayed?"

Answer "Plan for alternative funding sources in case your loan is delayed. Stay in contact with the housing office to discuss your situation and explore any available options for managing payments."

Question 5: "What steps can I take to ensure I'm not caught off guard by accommodation costs?"

Answer 5: "Review your contract carefully to understand all costs and payment dates. Budget accordingly, keep track of installment dates, and ensure you have backup funds if necessary."

Answer: "For financial advice related to student accommodation, the [NHSBSA Student Services](#) is a valuable resource. They offer guidance on budgeting and managing your financial commitments."

Question: "What are the best resources for students to manage accommodation fees and overall budget?"

Answer: "The [NHSBSA Student Services](#) is an excellent resource for managing accommodation fees and your overall budget. They provide comprehensive support and information to help you with financial planning and budgeting."

Question: "Do I need a guarantor for accommodation in DMU-owned halls?"

Answer: "No, you do not need a guarantor for accommodation in DMU-owned or managed halls. However, if you choose to stay in private accommodation, you will likely need a guarantor. Without one, you might have to pay the full annual rent upfront along with booking payments and damage deposits before moving in."

Question: "What happens if I don't have a guarantor for private accommodation?"

Answer: "If you don't have a guarantor for private accommodation, you may be required to pay the full annual rent upfront, as well as booking payments and damage deposits, before you can move in. For DMU-owned halls, a guarantor is not required."

Question: "Are there any specific payment requirements for private accommodation if I don't have a guarantor?"

Answer: "Yes, if you don't have a guarantor for private accommodation, you will likely need to pay the full annual rent upfront, along with any booking payments and damage deposits, as outlined in the tenancy agreement."

Question: "What should I be aware of regarding guarantors and payments for DMU and private accommodation?"

Answer: "For DMU-owned or managed halls, you do not need a guarantor. In contrast, private

accommodation typically requires a guarantor. If you don't have one, you may need to pay the full annual rent, booking payments, and damage deposits upfront before moving in."

Question: "Can you explain the payment process if I choose private accommodation but don't have a guarantor?"

Answer: "If you choose private accommodation and don't have a guarantor, you might be required to pay the full annual rent in advance, in addition to booking payments and damage deposits. This

requirement will be specified in the tenancy agreement."

Question: "Hey, do I need a guarantor for DMU's own halls, or is that just for private places?" Answer: "Nope, you don't need a guarantor for DMU's halls. But if you're looking at private places, you'll probably need one. Without a guarantor, you might have to pay the whole year's rent plus any deposits upfront."

Question: "Could you please clarify whether a guarantor is required for accommodation in DMU- owned halls versus private providers?" Answer: "Certainly. A guarantor is not required for DMU-owned or managed accommodation. However, private accommodation providers typically do require a

guarantor. Without one, you might need to pay the full annual rent along with booking and damage deposits before moving in."

Question: "Do I need a guarantor for DMU halls?" Answer: "No, not for DMU halls. But you will need one for private accommodation, or else you'll have to pay the full annual rent and other fees upfront."

Question: "I'm confused about guarantors. Do I need one for DMU's halls, and what happens if I don't have one for private accommodation?" Answer: "You don't need a guarantor for DMU-owned or managed halls. For private accommodation, however, a guarantor is generally required. If you don't have one, you will likely need to pay the full annual rent, plus any booking payments and damage deposits, before you can move in. Be sure to check the specific tenancy agreement for details."

Question: "What's the deal with guarantors for DMU halls and private places? What if I don't have

one?" Answer: "For DMU halls, no guarantor is needed. But for private accommodation, you usually do need one. If you don't have a guarantor, you may be required to pay the entire year's rent up front, along with any additional fees like deposits. Make sure to review the tenancy agreement for exact requirements."

Question: "I'm worried about not having a guarantor. How will this affect me with DMU's halls and private accommodation?" Answer: "You won't have any issues with DMU-owned halls since a

guarantor isn't required there. However, for private accommodation, a guarantor is typically necessary. Without one, you might have to pay the full year's rent and other fees like deposits before you can move in. Check the tenancy agreement to understand all financial obligations."

Question: "I'm excited about starting at DMU, but I'm a bit unclear on guarantor requirements. Can you break it down for both DMU and private housing?" Answer: "Absolutely! For DMU's own halls, you don't need a guarantor, so you can relax about that. If you choose private accommodation, though, a guarantor is usually required. If you don't have one, you may need to pay the full annual rent and any

additional fees like deposits before moving in. Just make sure to check the details in the tenancy agreement."

Question: "How do guarantors impact my accommodation options, and what should I prepare for if I don't have one?" **Answer:** "For DMU-managed halls, no guarantor is needed, which simplifies things. For private accommodation, you will generally need a guarantor. Without one, be prepared to pay the full annual rent along with any booking fees and damage deposits upfront. Review the specific tenancy agreement for complete details on what's required."

Using the provided link, here are a variety of questions and answers about accommodation payments and requirements, tailored to different student personalities:

details on the payment process for DMU accommodation from this [PDF document](#). It'll help you get everything sorted for your start at DMU."

Question: "I need to ensure I'm fully informed about the payment process for DMU accommodation. Is there a document that provides all necessary details?" **Answer:** "Yes, for comprehensive information about the payment process for DMU accommodation, refer to this [PDF document](#). It includes all necessary details on charges and payment schedules."

Question: "What happens if I'm late paying for DMU halls? Any extra fees?" **Answer:** "If you're late with payments for DMU halls, don't worry—there aren't any extra fees. But if you have outstanding debts with private providers, they might charge you extra. Also, if the debt goes to court, you could end up paying additional costs."

Question: "Could you provide information regarding late payment charges for DMU accommodation and private providers?" **Answer:** "Certainly. For DMU-owned and managed halls, there are no additional late payment charges. However, if any debt is pursued through the courts, you may be liable for additional costs. For private accommodation, outstanding debts could incur extra charges."

Brief: **Question:** "Are there late payment fees for DMU halls?" **Answer:** "No, there are no late payment fees for DMU halls. However, private accommodation might have extra charges for overdue payments."

Detailed: **Question:** "What should I know about late payment charges for DMU accommodation versus private providers? Are there any additional costs I should be aware of?" **Answer:** "For DMU-owned and managed halls,

there are no late payment charges. However, if you eventually have to settle debts through the courts, you might be responsible for court costs. On the other hand, private accommodation providers may apply extra charges for overdue payments, and you should be aware of this potential additional cost."

Curious: Question: "I'm wondering about late payment fees. Are there any for DMU halls, and what about

private providers?" Answer: "For DMU halls, you won't face late payment fees. But for private accommodation, there could be additional charges if you're late on payments. If debts go to court, you could also incur extra costs."

Concerned: Question: "I'm worried about the potential costs if I'm late with my rent payments. Are there late

fees for DMU halls, and what should I know about private providers?" Answer: "For DMU-owned halls, there are no late payment charges, so you won't face extra fees. However, if your debt with private providers remains unpaid, you might incur additional charges. Also, if the debt is pursued through legal channels, you could be liable for further costs."

Optimistic: Question: "I'm excited about starting at DMU but want to avoid any issues with late payments. What should I know about late fees for DMU halls and private accommodation?" Answer: "Great to hear you're

excited! For DMU halls, you don't need to worry about late payment fees. However, if you're in private

accommodation and miss payments, there might be extra charges. And if debts end up in court, you could face additional costs."

Practical: Question: "I need to understand the implications of late payments for both DMU and private

accommodation. Can you provide details on any associated charges?" Answer: "Certainly. For DMU-owned and managed halls, there are no late payment charges. However, for private accommodation, outstanding debts may result in additional charges. Additionally, if debts are pursued legally, you could be responsible for court costs."

These responses address various ways students might inquire about late payment charges, providing clear information tailored to different communication styles and concerns.

Question: "Hey, if I'm late paying for my DMU room, do they hit me with extra fees?"

Answer: "Nope, there are no extra fees for late payments at DMU halls. But if you're in private accommodation, they might charge you extra. Also, if you end up in court for unpaid debts, you could have to cover additional costs."

Question: "What happens if I don't pay my rent on time for DMU halls? Any late charges?"

Answer: "For DMU halls, you won't get hit with late fees. However, private providers might charge you extra if you're late. And if your debt goes to court, you could end up paying extra costs."

Question: "Yoh, are there any penalties for late payments in DMU accommodation?"

Answer: "There aren't any late payment penalties for DMU accommodation. But if you're dealing with private accommodation and miss a payment, they might add extra charges. Court action could also mean extra costs."

Question: "So, if I miss a payment at DMU, will they charge me more?"

Answer: "No, DMU won't charge you extra for missing a payment. Private providers might, though. And if debts are taken to court, you might face additional fees."

Question: "What's the deal with late payments for DMU halls? Any extra costs?"

Answer: "There are no extra costs for late payments in DMU halls. If you're in private accommodation, there could be extra charges. Court proceedings for unpaid debts could also mean additional costs."

Question: "Could you provide information on whether there are any late payment charges for DMU accommodation?"

Answer: "Certainly. For DMU-owned and managed halls, there are no late payment charges. However, if debts are pursued through the courts, you may be liable for additional costs. Outstanding debts with private accommodation providers could incur extra charges."

Question: "What are the consequences of delayed rent payments for DMU halls, and are there any additional fees involved?"

Answer: "For DMU halls, delayed rent payments do not incur additional fees. However, if debts are taken to court, you might be responsible for court costs. Private providers may impose extra charges for late payments."

Question: "Can you clarify if late payment penalties apply to DMU-owned accommodation, and what charges might be incurred with private providers?"

Answer: "There are no late payment penalties for DMU-owned accommodation. For private providers, there could be extra charges for overdue payments. Additionally, court proceedings for unpaid debts could result in further costs."

Question: "I would like to understand the policy on late payments for DMU halls. Are there any supplementary fees or costs?"

Answer: "DMU halls do not impose supplementary fees for late payments. However, if debts are pursued legally, you could incur court costs. Private accommodation providers may apply extra charges for late payments."

Question: "What are the implications of missing payment deadlines for DMU accommodation, and are there any associated fees for private accommodation?"

Answer: "Missing payment deadlines at DMU halls will not result in additional fees. However, private

accommodation might have extra charges for late payments, and if debts go to court, you could face further costs."

Question: "Are there late fees for DMU halls?"

Answer: "No, DMU halls don't charge late fees. Private providers might, though."

Question: "What happens if I'm late on my DMU rent?"

Answer: "There are no late fees for DMU accommodation, but private providers might add extra charges."

Question: "Late payment charges for DMU accommodation?"

Answer: "There are no late payment charges for DMU halls. Private accommodation may have extra costs."

Question: "Any extra costs for late payments at DMU?"

Answer: "No extra costs for DMU halls. Private providers may charge extra."

Question: "What's the policy on late rent payments for DMU halls?"

Answer: "DMU halls don't have late payment fees. Private providers might."

Detailed

Question: "Can you provide a detailed explanation of late payment policies for DMU-owned accommodation, and what additional costs might be incurred with private accommodation providers?"

Answer: "For DMU-owned and managed halls, there are no additional fees for late payments. However, if unpaid debts are pursued through the courts, you might be responsible for court costs. For private accommodation, outstanding debts could lead to additional charges, and legal action might result in further expenses."

Question: "I need comprehensive information about the late payment fees for DMU halls. Are there penalties, and what are the implications for private accommodation if payments are delayed?"

Answer: "DMU halls do not charge penalties for late payments. Private accommodation providers, however, might impose extra fees for overdue payments. If debts are pursued legally, there could be additional costs associated with court proceedings."

Question: "Please outline the procedures and potential charges related to late rent payments for DMU halls. How do these compare with the costs associated with private accommodation providers?"

Answer: "DMU halls do not have late payment charges. For private providers, additional fees might apply if payments are delayed. Furthermore, if debts are taken to court, you could face extra costs beyond what is charged by the accommodation provider."

Question: "What is the complete policy regarding late payments for DMU accommodation, including any additional financial repercussions if debts are pursued through the courts?"

Answer: "Late payments for DMU accommodation do not incur extra charges. However, if the debt is pursued

through the courts, you may be liable for court costs. Private providers may charge extra for overdue payments, and legal action can result in additional expenses."

Question: "I am seeking a thorough breakdown of what happens if I miss a payment for DMU accommodation. Are there any extra fees or charges, particularly in comparison with those from private providers?"

Answer: "For DMU accommodation, missed payments do not lead to extra fees. In contrast, private providers may charge additional fees for late payments. If the debt goes to court, there could be further costs involved in addition to the charges by private providers."

Question: "I'm curious, are there any extra charges if I'm late with my DMU rent?"

Answer: "No extra charges for late payments at DMU. However, private accommodation may have extra fees, and if debts go to court, there could be additional costs."

Question: "What's the scoop on late payment fees for DMU halls and private providers?"

Answer: "DMU halls don't have late payment fees, but private providers might. If debts are taken to court, there could be extra costs involved."

Question: "Do I get charged extra if I'm late paying for DMU accommodation? How about private halls?"

Answer: "There are no extra charges for late payments at DMU halls. For private accommodation, there might be additional fees, and legal action could mean further costs."

Question: "I want to know if there are any penalties for missing payments at DMU. What about private providers?"

Answer: "DMU does not penalize late payments. Private providers might have extra charges for overdue payments, and legal action could add to your costs."

Question: "Can you tell me more about what happens if I'm late with my DMU rent? Are there extra costs involved?"

Answer: "At DMU, late payments don't incur extra costs. However, private accommodation might charge you more for being late, and if debts are pursued through the courts, there could be additional expenses."

Question: "I'm worried about missing a payment. Are there any late fees for DMU halls and what about private accommodation?"

Answer: "For DMU halls, there are no late fees. Private providers might have extra charges for late payments, and if the debt goes to court, additional costs could apply."

Question: "Can you provide details on late payment penalties for DMU accommodation? I'm concerned about potential extra costs."

Answer: "DMU accommodation doesn't have late payment penalties. However, private providers may impose extra fees for overdue payments. Legal proceedings for unpaid debts could lead to further costs."

Question: "What should I know about late payment charges for DMU halls? I'm anxious about any additional fees."

Answer: "There are no late payment charges for DMU halls. Private accommodation might have additional fees, and if your debt is taken to court, you could incur extra costs."

Question: "I'm concerned about what happens if I'm late with my rent payments. Are there extra charges for DMU halls and private providers?"

Answer: "Late payments at DMU halls won't result in extra charges. Private providers might charge additional fees, and if debts are pursued legally, there could be further expenses."

Question: "Please explain the consequences of late payments for DMU accommodation. Are there extra costs if I miss a payment?"

Answer: "DMU accommodation does not charge extra for late payments. For private accommodation, there may be extra fees, and legal action for unpaid debts could result in additional costs."

Question: "I'm excited to move into DMU halls, but I want to avoid late fees. What's the policy on late payments?"

Answer: "Great to hear you're excited! At DMU, there are no late payment fees. If you're in private accommodation, watch out for possible extra charges. Legal action for unpaid debts could also mean additional costs."

Question: "I'm looking forward to starting at DMU and want to make sure I avoid any extra charges. How does DMU handle late rent payments?"

Answer: "Exciting times ahead! DMU doesn't charge extra for late payments. Private accommodation might have fees, and if debts go to court, you could face extra costs."

Question: "To keep everything smooth, what should I know about late payment fees for DMU accommodation?"

Answer: "At DMU, there are no late payment fees. For private accommodation, extra fees might apply, and court proceedings for unpaid debts could lead to further costs."

Question: "I'm hoping to stay on top of payments. What's the policy for late payments at DMU, and are there any extra charges?"

Answer: "Good plan! DMU does not charge extra for late payments. However, private providers might, and legal action for unpaid debts could result in additional costs."

Question: "Can you give me the lowdown on late payment policies for DMU halls? I'm excited to get started and want to avoid any extra costs."

Answer: "Absolutely! DMU has no late payment fees. Private accommodation might have extra charges, and if debts are taken to court, there could be further costs."

Practical

Question: "I need to understand the late payment policies for DMU accommodation. Are there any additional fees or costs for missing payments?"

Answer: "For DMU accommodation, there are no additional fees for late payments. However, private providers may impose extra costs for overdue payments, and if debts go to court, further expenses could apply."

Question: "Can you provide practical details on the consequences of late payments for DMU halls and private accommodation providers?"

Answer: "There are no consequences for late payments at DMU halls in terms of extra charges. Private

accommodation might have fees for late payments, and if debts are pursued legally, additional costs could be incurred."

Question: "For effective budget management, what are the late payment charges for DMU accommodation? How do these charges compare with private providers?"

Answer: "DMU accommodation does not have late payment charges. Private providers may have extra fees for late payments. Legal action for unpaid debts could result in additional costs."

Question: "I'm planning my finances and need to know about late payment fees for DMU halls. Are there any additional costs I should be aware of?"

Answer: "DMU halls do not have late payment fees. Extra costs might arise with private providers if payments are delayed, and legal proceedings for unpaid debts could lead to further expenses."

Question: "What is the practical impact of late payments for DMU accommodation? Are there fees involved, and how do they compare with those from private providers?"

Answer: "At DMU, late payments do not incur extra fees. Private accommodation might charge extra for delays, and court action for unpaid debts could result in additional costs beyond those charged by private providers."

Answer: "The DMU accommodation is situated close to the campus, within walking distance, and its location on the edge of the city center provides students with easy access to Leicester's attractions."

Question: "How does the proximity of the student accommodation to the campus enhance student convenience?"

Answer: "The accommodation's proximity to the campus, being just a short walk away, greatly enhances student convenience. Additionally, its location near the city center ensures that students are close to a variety of local amenities and attractions."

Question: "What are the benefits of the accommodation's location in relation to campus and city amenities?"

Answer: "The primary benefit is the accommodation's close proximity to the campus, which is easily accessible on foot. Additionally, being near the city center provides students with swift access to Leicester's numerous attractions and services."

Question: "Is the campus far from the accommodation?"

Answer: "No, it's quite close. You can walk there easily."

Question: "How close are the halls to campus?"

Answer: "They're very close, just a short walk."

Question: "Can you walk from the accommodation to campus?"

Answer: "Yes, it's within walking distance."

Question: "Are the halls far from the city center?"

Answer: "No, they're right on the edge of the city center."

Question: "How far is it from the halls to campus?"

Answer: "It's a quick walk."

Question: "What are the specific advantages of the accommodation's location in relation to commuting to the campus and accessing city amenities?"

Answer: "The accommodation offers significant advantages in terms of commuting convenience, being situated within a short walking distance from the campus. This allows for an easy and quick commute to academic buildings. Additionally, its location on the edge of the city center provides students with immediate access to Leicester's diverse range of attractions, shops, and dining options."

Question: "Can you provide an overview of how the proximity of the student accommodation to the campus and city center impacts daily student life?"

Answer: "Certainly. The close proximity of the student accommodation to the campus means that students can easily walk to their classes and other university facilities, which can save time and reduce commuting stress. Being located near the city center further enhances student life by offering easy access to local amenities, entertainment, and cultural attractions, enriching the overall university experience."

Question: "Please explain how the location of the student accommodation benefits both academic and social aspects of student life."

Answer: "The student accommodation's location is advantageous for both academic and social aspects. Academically, its proximity to the campus allows for a short and convenient walk to classes and university services. Socially, being near the city center means that students can quickly access a variety of recreational activities, dining options, and shopping experiences, which contributes to a balanced and engaging student lifestyle."

Question: "How does the accommodation's position relative to the campus and city center contribute to the overall student experience?"

Answer: "The accommodation's strategic position close to the campus ensures that students can easily attend their classes and university events without long commutes. The proximity to the city center adds to the student experience by providing immediate access to a wide range of local attractions, eateries, and entertainment venues, which enhances both academic and social aspects of university life."

Question: "What impact does the accommodation's location have on student convenience and accessibility to both academic and city facilities?"

Answer: "The location of the accommodation offers substantial convenience by being within walking distance of the campus, which simplifies daily commutes to academic activities. Additionally, its proximity to the city center ensures that students have swift access to a variety of city facilities, including dining, shopping, and entertainment options, thus supporting both their academic and lifestyle needs."

Question: "I'm excited about moving to Leicester! How easy will it be to get to campus from my new place?"

Answer: "You'll be pleased to know that it's very easy! The accommodation is just a short walk from the campus. Plus, being close to the city center means you'll have plenty of fun stuff to explore."

Question: "Can you tell me more about how close the student halls are to the campus and if I'll be able to walk there easily?"

Answer: "Absolutely! The student halls are very close to the campus—only a short walk away. And since you're near the city center, you'll also have quick access to Leicester's exciting attractions."

Question: "How convenient is it to get from the student accommodation to campus, and what's nearby for me to check out?"

Answer: "It's very convenient! The accommodation is within walking distance from campus, so you won't need to worry about long commutes. Additionally, being near the city center means you can easily explore Leicester's attractions and amenities."

Question: "What's the walk like from the accommodation to campus, and are there any cool places nearby?"

Answer: "The walk is quick and easy—just a few minutes to campus. You're also right by the city center, so you'll have plenty of cool spots to check out in Leicester."

Question: "I'm really looking forward to moving in. How close is the accommodation to campus and what can I do around there?"

Answer: "The accommodation is very close to campus; you can walk there in no time. Plus, since it's near the city center, you'll have lots of things to do and places to visit right nearby."

Question: "I'm a bit worried about how far I'll have to walk to campus from the accommodation. How close is it?"

Answer: "There's no need to worry. The accommodation is within walking distance of the campus, so you won't have to walk very far. Additionally, you're close to the city center for easy access to local attractions."

Question: "What if I find the distance to campus too far? Is the accommodation really close?"

Answer: "The accommodation is actually very close to campus—just a short walk. You'll also benefit from being near the city center, so there's plenty to do nearby."

Question: "I'm concerned about the commute to campus. Can you reassure me about the distance?"

Answer: "You can be reassured that the accommodation is very conveniently located. It's within walking distance of the campus, and being close to the city center means you'll have everything you need nearby."

Question: "How far is the walk from the halls to the campus, and will it be a hassle to get there?"

Answer: "The walk is quite short and should not be a hassle at all. The accommodation is designed to be close to the campus, and its location near the city center makes it even more convenient."

Question: "I'm a bit anxious about the distance between the accommodation and campus. Can you provide more details?"

Answer: "Certainly. The accommodation is situated within walking distance from the campus, so the distance is minimal. Additionally, its proximity to the city center means you'll have easy access to local amenities and attractions."

Guaranteed accommodation

Question: "Hey, does DMU guarantee housing for first-years?"

Answer: "Yep, DMU guarantees accommodation for UK first-year undergrads starting in 2024/25. Just make sure you make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024. Here's more info: DMU Accommodation Overview."

Question: "How can I get guaranteed housing at DMU next year?"

Answer: "Just choose DMU as your firm choice by July 19, 2024, and book your room by August 7, 2024. DMU guarantees a room either in their own halls or through approved partners, all close to campus."

Question: "What's the deal with DMU's accommodation guarantee?"

Answer: "DMU guarantees housing for first-year UK students for 2024/25. Make DMU your firm choice by July 19, 2024, and book by August 7, 2024. They'll secure you a room near campus."

Question: "Do I have to book my DMU accommodation by a certain date to get guaranteed housing?"

Answer: "Yep, to get guaranteed housing, make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024. If you miss the deadline, you might still get a room, but it won't be guaranteed."

Question: "What happens if I miss the DMU accommodation booking deadline?"

Answer: "If you miss the August 7, 2024 deadline, you might still find accommodation, but it won't be guaranteed. So, try to book as soon as the system opens!"

Question: "Could you explain the accommodation guarantee for first-year students at DMU for the 2024/25 academic year?"

Answer: "Certainly. DMU guarantees accommodation for UK first-year undergraduates starting in 2024/25. To be eligible, you need to make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024. The accommodation will be either in DMU-owned halls or approved private accommodation partners, all within walking distance of the campus and Leicester city centre."

Question: "What are the steps to secure guaranteed accommodation at DMU for the next academic year?"

Answer: "To secure guaranteed accommodation at DMU for the 2024/25 academic year, make DMU your firm choice by July 19, 2024. After this, you will receive an email with booking details once the accommodation booking system opens. Ensure you book your room by August 7, 2024, to take advantage of the guarantee."

Question: "Is there a specific deadline to qualify for the accommodation guarantee at DMU?"

Answer: "Yes, to qualify for the accommodation guarantee at DMU, you must make DMU your firm choice by July 19, 2024, and book your accommodation by August 7, 2024. If you miss this deadline, accommodation may still be available, but it will not be guaranteed."

Question: "What happens if I do not book my accommodation by the deadline provided by DMU?"

Answer: "If you do not book your accommodation by the deadline of August 7, 2024, you may still be able to find accommodation, but it will no longer be guaranteed and will be subject to availability."

Question: "Can you provide more details about DMU's guaranteed accommodation for first-year students?"

Answer: "DMU guarantees accommodation for all UK first-year undergraduates starting in the 2024/25 academic year. The accommodation is either in DMU-owned halls or through approved private accommodation partners, all within walking distance of the campus and Leicester city centre. To be eligible, make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024."

Question: "Does DMU offer guaranteed housing for first-years?"

Answer: "Yes, for UK first-year undergrads starting in 2024/25. Make DMU your firm choice by July 19, 2024, and book by August 7, 2024."

Question: "How can I get guaranteed accommodation at DMU?"

Answer: "Make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024."

Question: "What's the deadline for guaranteed housing at DMU?"

Answer: "Make DMU your firm choice by July 19, 2024, and book by August 7, 2024."

Question: "What if I miss the DMU housing deadline?"

Answer: "You might still find a room, but it won't be guaranteed after August 7, 2024."

Question: "How do I secure a room at DMU?"

Answer: "Make DMU your firm choice by July 19, 2024, and book by August 7, 2024."

Question: "How does DMU's accommodation guarantee work for new students?"

Answer: "DMU guarantees housing for UK first-year undergrads starting in 2024/25. Just make them your firm choice by July 19, 2024, and book your room by August 7, 2024. If you miss the deadline, accommodation might still be available but not guaranteed."

Question: "What should I do to get guaranteed accommodation at DMU?"

Answer: "You need to make DMU your firm choice by July 19, 2024. After that, book your accommodation by August 7, 2024. DMU guarantees you'll get a room in either their halls or through approved partners."

Question: "Can you explain DMU's accommodation booking process?"

Answer: "Sure! If you make DMU your firm choice by July 19, 2024, you'll get an email on how to book your room. Just make sure to book by August 7, 2024, to get guaranteed accommodation."

Question: "What happens if I miss DMU's accommodation booking deadline?"

Answer: "If you miss the August 7, 2024 deadline, you might still find accommodation, but it won't be guaranteed. So, try to book as soon as the system opens."

Question: "Is there a chance to get accommodation if I miss the guaranteed booking deadline?"

Answer: "Yes, there might still be rooms available after August 7, 2024, but they won't be guaranteed. It's best to book as soon as possible."

Question: "I'm worried about getting accommodation at DMU. What's the guarantee process?"

Answer: "Don't worry! DMU guarantees accommodation for UK first-year students starting in 2024/25. Make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024, and you'll have a place to stay."

Question: "What if I don't get my room booked in time at DMU?"

Answer: "If you miss the August 7, 2024 deadline, accommodation might still be available but not guaranteed. It's important to book as soon as you can to secure your place."

Question: "How do I make sure I get a room at DMU?"

Answer: "To ensure you get a room, make DMU your firm choice by July 19, 2024, and book your accommodation by August 7, 2024. This guarantees you a room near campus."

Question: "Can I still find a room if I miss the guaranteed booking deadline at DMU?"

Answer: "Yes, you might still find accommodation, but it won't be guaranteed after August 7, 2024. Try to book as soon as possible to secure your place."

Question: "How do I make sure I get guaranteed accommodation at DMU?"

Answer: "Make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024. This way, you'll have guaranteed accommodation either in DMU-owned halls or through approved partners."

Question: "Where can I check out the rooms DMU offers?"

Answer: "You can see all the available rooms on DMU's halls of residence page. If you book directly through DMU, you can pick your specific room. If nothing fits, the Accommodation Team will help you find something with a private partner. Check it out here: [DMU Halls of Residence](#)."

Answer: "The DMU accommodation is situated close to the campus, within walking distance, and its location on the edge of the city center provides students with easy access to Leicester's attractions."

Question: "How does the proximity of the student accommodation to the campus enhance student convenience?"

Answer: "The accommodation's proximity to the campus, being just a short walk away, greatly enhances student convenience. Additionally, its location near the city center ensures that students are close to a variety of local amenities and attractions."

Question: "What are the benefits of the accommodation's location in relation to campus and city amenities?"

Answer: "The primary benefit is the accommodation's close proximity to the campus, which is easily accessible on foot. Additionally, being near the city center provides students with swift access to Leicester's numerous attractions and services."

Question: "Is the campus far from the accommodation?"

Answer: "No, it's quite close. You can walk there easily."

Question: "How close are the halls to campus?"

Answer: "They're very close, just a short walk."

Question: "Can you walk from the accommodation to campus?"

Answer: "Yes, it's within walking distance."

Question: "Are the halls far from the city center?"

Answer: "No, they're right on the edge of the city center."

Question: "How far is it from the halls to campus?"

Answer: "It's a quick walk."

Question: "What are the specific advantages of the accommodation's location in relation to commuting to the campus and accessing city amenities?"

Answer: "The accommodation offers significant advantages in terms of commuting convenience, being situated within a short walking distance from the campus. This allows for an easy and quick commute to academic buildings. Additionally, its location on the edge of the city center provides students with immediate access to Leicester's diverse range of attractions, shops, and dining options."

Question: "Can you provide an overview of how the proximity of the student accommodation to the campus and city center impacts daily student life?"

Answer: "Certainly. The close proximity of the student accommodation to the campus means that students can easily walk to their classes and other university facilities, which can save time and reduce commuting stress. Being located near the city center further enhances student life by offering easy access to local amenities, entertainment, and cultural attractions, enriching the overall university experience."

Question: "Please explain how the location of the student accommodation benefits both academic and social aspects of student life."

Answer: "The student accommodation's location is advantageous for both academic and social aspects. Academically, its proximity to the campus allows for a short and convenient walk to classes and university services. Socially, being near the city center means that students can quickly access a variety of recreational activities, dining options, and shopping experiences, which contributes to a balanced and engaging student lifestyle."

Question: "How does the accommodation's position relative to the campus and city center contribute to the overall student experience?"

Answer: "The accommodation's strategic position close to the campus ensures that students can easily attend their classes and university events without long commutes. The proximity to the city center adds to the student experience by providing immediate access to a wide range of local attractions, eateries, and entertainment venues, which enhances both academic and social aspects of university life."

Question: "What impact does the accommodation's location have on student convenience and accessibility to both academic and city facilities?"

Answer: "The location of the accommodation offers substantial convenience by being within walking distance of the campus, which simplifies daily commutes to academic activities. Additionally, its proximity to the city center ensures that students have swift access to a variety of city facilities, including dining, shopping, and entertainment options, thus supporting both their academic and lifestyle needs."

Question: "I'm excited about moving to Leicester! How easy will it be to get to campus from my new place?"

Answer: "You'll be pleased to know that it's very easy! The accommodation is just a short walk from the campus. Plus, being close to the city center means you'll have plenty of fun stuff to explore."

Question: "Can you tell me more about how close the student halls are to the campus and if I'll be able to walk there easily?"

Answer: "Absolutely! The student halls are very close to the campus—only a short walk away. And since you're near the city center, you'll also have quick access to Leicester's exciting attractions."

Question: "How convenient is it to get from the student accommodation to campus, and what's nearby for me to check out?"

Answer: "It's very convenient! The accommodation is within walking distance from campus, so you won't need to worry about long commutes. Additionally, being near the city center means you can easily explore Leicester's attractions and amenities."

Question: "What's the walk like from the accommodation to campus, and are there any cool places nearby?"

Answer: "The walk is quick and easy—just a few minutes to campus. You're also right by the city center, so you'll have plenty of cool spots to check out in Leicester."

Question: "I'm really looking forward to moving in. How close is the accommodation to campus and what can I do around there?"

Answer: "The accommodation is very close to campus; you can walk there in no time. Plus, since it's near the city center, you'll have lots of things to do and places to visit right nearby."

Question: "I'm a bit worried about how far I'll have to walk to campus from the accommodation. How close is it?"

Answer: "There's no need to worry. The accommodation is within walking distance of the campus, so you won't have to walk very far. Additionally, you're close to the city center for easy access to local attractions."

Question: "What if I find the distance to campus too far? Is the accommodation really close?"

Answer: "The accommodation is actually very close to campus—just a short walk. You'll also benefit from being near the city center, so there's plenty to do nearby."

Question: "I'm concerned about the commute to campus. Can you reassure me about the distance?"

Answer: "You can be reassured that the accommodation is very conveniently located. It's within walking distance of the campus, and being close to the city center means you'll have everything you need nearby."

Question: "How far is the walk from the halls to the campus, and will it be a hassle to get there?"

Answer: "The walk is quite short and should not be a hassle at all. The accommodation is designed to be close to the campus, and its location near the city center makes it even more convenient."

Question: "I'm a bit anxious about the distance between the accommodation and campus. Can you provide more details?"

Answer: "Certainly. The accommodation is situated within walking distance from the campus, so the distance is minimal. Additionally, its proximity to the city center means you'll have easy access to local amenities and attractions."

Guaranteed accommodation

Question: "Hey, does DMU guarantee housing for first-years?"

Answer: "Yep, DMU guarantees accommodation for UK first-year undergrads starting in 2024/25. Just make sure you make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024. Here's more info: DMU Accommodation Overview."

Question: "How can I get guaranteed housing at DMU next year?"

Answer: "Just choose DMU as your firm choice by July 19, 2024, and book your room by August 7, 2024. DMU guarantees a room either in their own halls or through approved partners, all close to campus."

Question: "What's the deal with DMU's accommodation guarantee?"

Answer: "DMU guarantees housing for first-year UK students for 2024/25. Make DMU your firm choice by July 19, 2024, and book by August 7, 2024. They'll secure you a room near campus."

Question: "Do I have to book my DMU accommodation by a certain date to get guaranteed housing?"

Answer: "Yep, to get guaranteed housing, make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024. If you miss the deadline, you might still get a room, but it won't be guaranteed."

Question: "What happens if I miss the DMU accommodation booking deadline?"

Answer: "If you miss the August 7, 2024 deadline, you might still find accommodation, but it won't be guaranteed. So, try to book as soon as the system opens!"

Question: "Could you explain the accommodation guarantee for first-year students at DMU for the 2024/25 academic year?"

Answer: "Certainly. DMU guarantees accommodation for UK first-year undergraduates starting in 2024/25. To be eligible, you need to make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024. The accommodation will be either in DMU-owned halls or approved private accommodation partners, all within walking distance of the campus and Leicester city centre."

Question: "What are the steps to secure guaranteed accommodation at DMU for the next academic year?"

Answer: "To secure guaranteed accommodation at DMU for the 2024/25 academic year, make DMU your firm choice by July 19, 2024. After this, you will receive an email with booking details once the accommodation booking system opens. Ensure you book your room by August 7, 2024, to take advantage of the guarantee."

Question: "Is there a specific deadline to qualify for the accommodation guarantee at DMU?"

Answer: "Yes, to qualify for the accommodation guarantee at DMU, you must make DMU your firm choice by July 19, 2024, and book your accommodation by August 7, 2024. If you miss this deadline, accommodation may still be available, but it will not be guaranteed."

Question: "What happens if I do not book my accommodation by the deadline provided by DMU?"

Answer: "If you do not book your accommodation by the deadline of August 7, 2024, you may still be able to find accommodation, but it will no longer be guaranteed and will be subject to availability."

Question: "Can you provide more details about DMU's guaranteed accommodation for first-year students?"

Answer: "DMU guarantees accommodation for all UK first-year undergraduates starting in the 2024/25 academic year. The accommodation is either in DMU-owned halls or through approved private accommodation partners, all within walking distance of the campus and Leicester city centre. To be eligible, make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024."

Question: "Does DMU offer guaranteed housing for first-years?"

Answer: "Yes, for UK first-year undergrads starting in 2024/25. Make DMU your firm choice by July 19, 2024, and book by August 7, 2024."

Question: "How can I get guaranteed accommodation at DMU?"

Answer: "Make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024."

Question: "What's the deadline for guaranteed housing at DMU?"

Answer: "Make DMU your firm choice by July 19, 2024, and book by August 7, 2024."

Question: "What if I miss the DMU housing deadline?"

Answer: "You might still find a room, but it won't be guaranteed after August 7, 2024."

Question: "How do I secure a room at DMU?"

Answer: "Make DMU your firm choice by July 19, 2024, and book by August 7, 2024."

Question: "How does DMU's accommodation guarantee work for new students?"

Answer: "DMU guarantees housing for UK first-year undergrads starting in 2024/25. Just make them your firm choice by July 19, 2024, and book your room by August 7, 2024. If you miss the deadline, accommodation might still be available but not guaranteed."

Question: "What should I do to get guaranteed accommodation at DMU?"

Answer: "You need to make DMU your firm choice by July 19, 2024. After that, book your accommodation by August 7, 2024. DMU guarantees you'll get a room in either their halls or through approved partners."

Question: "Can you explain DMU's accommodation booking process?"

Answer: "Sure! If you make DMU your firm choice by July 19, 2024, you'll get an email on how to book your room. Just make sure to book by August 7, 2024, to get guaranteed accommodation."

Question: "What happens if I miss DMU's accommodation booking deadline?"

Answer: "If you miss the August 7, 2024 deadline, you might still find accommodation, but it won't be guaranteed. So, try to book as soon as the system opens."

Question: "Is there a chance to get accommodation if I miss the guaranteed booking deadline?"

Answer: "Yes, there might still be rooms available after August 7, 2024, but they won't be guaranteed. It's best to book as soon as possible."

Question: "I'm worried about getting accommodation at DMU. What's the guarantee process?"

Answer: "Don't worry! DMU guarantees accommodation for UK first-year students starting in 2024/25. Make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024, and you'll have a place to stay."

Question: "What if I don't get my room booked in time at DMU?"

Answer: "If you miss the August 7, 2024 deadline, accommodation might still be available but not guaranteed. It's important to book as soon as you can to secure your place."

Question: "How do I make sure I get a room at DMU?"

Answer: "To ensure you get a room, make DMU your firm choice by July 19, 2024, and book your accommodation by August 7, 2024. This guarantees you a room near campus."

Question: "Can I still find a room if I miss the guaranteed booking deadline at DMU?"

Answer: "Yes, you might still find accommodation, but it won't be guaranteed after August 7, 2024. Try to book as soon as possible to secure your place."

Question: "How do I make sure I get guaranteed accommodation at DMU?"

Answer: "Make DMU your firm choice by July 19, 2024, and book your room by August 7, 2024. This way, you'll have guaranteed accommodation either in DMU-owned halls or through approved partners."

Question: "Where can I check out the rooms DMU offers?"

These variations consider a range of personalities and provide respectful and informative answers based on the given information.

Casual Inquiry: "Hey, what happens with accommodation if I go through clearing?"

Answer: "If you apply through clearing and we have rooms available, we'll email you login details once you have an unconditional firm offer. If you don't meet your offer grades, your booking will be cancelled and your payment refunded. If you get a place through clearing later, you can book a new room, subject to availability. For more info, contact the Accommodation Office."

Brief Inquiry: "Clearing rooms available?"

Answer: "Yes, if we have rooms available, we'll email you login details once you get an unconditional firm offer. If you don't meet your offer, your booking will be cancelled and refunded. You can book again if you get in through clearing, subject to availability. Contact the Accommodation Office for more info."

Worried Parent Inquiry: "My child might go through clearing. How will that affect their accommodation?"

Answer: "If your child applies through clearing and we have rooms available, they'll receive login details after getting an unconditional firm offer. If they don't meet their initial offer, the booking will be cancelled and the payment refunded. If they secure a place through clearing, they can book a new room, subject to availability. For more information, please contact the Accommodation Office."

Formal Inquiry: "Could you elaborate on the accommodation process for clearing and late applicants?"

Answer: "Certainly. Clearing applicants will receive login details for booking once they have an unconditional firm offer, provided we have availability. If a booking is made prior to results and the offer is not met, the booking will be cancelled and payment refunded. If the applicant secures a place through clearing, they can log back in and book a new room, subject to availability. For further inquiries, please contact the Accommodation Office."

Typo Query: "Clearing acomodaton?"

Answer: "If you apply through clearing and there are rooms available, we'll email your login details once you have an unconditional firm offer. If you don't meet your offer grades, your booking will be cancelled and refunded. You can rebook if you get a place through clearing, subject to availability. Contact the Accommodation Office for more info."

Disabled Students' Allowance Disabled Students' Allowance (DSA) is support to cover the study-related costs you have because of a mental health problem, long-term illness or any other disability. This can be on its own or in addition to any student finance you get. The type of support and how much you get depends on your individual needs - not your household income. You do not need to pay back DSA. What you'll get 2024 to 2025 academic year Undergraduate and postgraduate students can get up to £26,948 a year for support. 2023 to 2024 academic year Undergraduate and postgraduate students can get up to £26,291 a year for support. What DSA can pay for You can get help with the costs of: specialist equipment, for example a computer if you need one because of your disability non-medical helpers, for example a British Sign Language (BSL) interpreter or specialist note taker extra travel to attend your course or placement because of your disability other disability-related study support, for example having to print additional copies of documents for proof-reading DSA does not cover disability-related costs you'd have if you were not attending a course, or costs that any student might have. Buying a new computer You may get a new computer if you're assessed as needing one because: you do not already have one your current one does not meet your study needs When buying a new computer,

you'll need to pay the first £200. The DSA team will send you more information about this after your needs assessment.

Here are prompts and answers for various student personalities based on the information about Disabled Students' Allowance (DSA):

Prompt: "What's DSA and how can it help me?" Answer: "DSA is cash support for students with disabilities, like mental health issues or long-term illnesses. It can cover things like special equipment or extra travel costs. You don't have to pay it back, and it doesn't depend on your family's income."

Prompt: "Can I get money for stuff I need because of my disability?" Answer: "Yep, that's what DSA is for! It helps with costs like specialist equipment or extra travel. You don't have to pay it back, and it's not based on your family's income."

Prompt: "How much can I get from DSA for the next year?" Answer: "For 2024-2025, you can get up to £26,948 a year. For 2023-2024, it's up to £26,291. It covers things like special equipment or extra travel costs."

Prompt: "What kind of things can DSA help me with?" Answer: "DSA can help with costs like a new computer if you need one, paying for a BSL interpreter, or extra travel due to your disability. Just remember, it doesn't cover general student costs."

Prompt: "Do I need to pay back the money I get from DSA?" Answer: "Nope, you don't have to pay it back. It's there to support you with study-related costs due to your disability."

Prompt: "What is the Disabled Students' Allowance (DSA) and what support does it provide?" Answer: "DSA is a financial support scheme designed for students with disabilities, including mental health conditions or long-term illnesses. It provides assistance for costs such as specialist equipment, non-medical helpers, and additional travel. The allowance is non-repayable and is not based on household income."

Prompt: "Can you provide details on the financial support available through the Disabled Students' Allowance for the 2024-2025 academic year?" Answer: "For the 2024-2025 academic year, undergraduate and postgraduate students can receive up to £26,948 annually through the Disabled Students' Allowance. This funding is allocated based on individual needs rather than household income."

Prompt: "What expenses can the Disabled Students' Allowance cover?" Answer: "DSA can cover expenses related to your disability such as specialist equipment, non-medical assistance like sign language interpreters, additional travel costs, and other disability-related study support. It does not cover general student expenses."

Prompt: "Is there any repayment required for the Disabled Students' Allowance?" Answer: "No, the Disabled Students' Allowance does not require repayment. It is provided to support students with disability-related study costs."

Prompt: "What is the maximum amount available through the Disabled Students' Allowance for the current academic year?" Answer: "For the 2023-2024 academic year, students can receive up to £26,291 annually through the Disabled Students' Allowance. This amount may vary based on individual needs and circumstances."

Prompt: "How does Disabled Students' Allowance (DSA) work? What can I use it for?" Answer: "DSA provides support for students with disabilities to cover costs related to their studies. This includes specialist equipment, non-medical help, and additional travel. The allowance is non-repayable and based on individual needs, not income."

Prompt: "What's the difference in DSA support between the 2023-2024 and 2024-2025 academic years?" Answer: "For the 2023-2024 year, you can receive up to £26,291, while for 2024-2025, the amount increases to up to £26,948. This support helps with costs like equipment and extra travel due to your disability."

Prompt: "Can I get funding for a new computer through DSA? What do I need to know?" Answer: "Yes, DSA can help with a new computer if it's necessary for your studies. You'll need to pay the first £200 yourself. The DSA team will provide further details after your needs assessment."

Prompt: "What types of costs are covered by DSA?" Answer: "DSA covers costs directly related to your disability, such as special equipment, non-medical helpers, and additional travel expenses. It does not cover general student expenses or costs unrelated to your studies."

Prompt: "How do I apply for the Disabled Students' Allowance and what do I need to provide?" Answer: "To apply, you need to undergo a needs assessment to determine what support you require. You'll then receive information from the DSA team about what can be covered. Make sure to provide any necessary medical evidence to support your application."

Prompt: "What's DSA?" Answer: "DSA is financial support for students with disabilities. It covers things like specialist equipment and extra travel costs, and you don't have to pay it back."

Prompt: "How much can I get from DSA?" Answer: "Up to £26,291 for 2023-2024 and up to £26,948 for 2024-2025, depending on your needs."

Prompt: "What can DSA pay for?" Answer: "DSA covers costs like a new computer, BSL interpreters, and extra travel due to your disability."

Prompt: "Do I repay DSA?" Answer: "No, DSA does not need to be repaid."

Prompt: "How do I get a new computer with DSA?" Answer: "If needed, DSA can help with a new computer. You pay the first £200, and the DSA team will guide you through the process."

Prompt: "What's the deal with DSA? How can it help me out?" Answer: "DSA helps cover costs for things you need because of a disability. This might be a new computer, extra travel costs, or even getting someone to help you out. It's free money you don't need to pay back!"

Prompt: "Can I get DSA if I need a special computer or something?" Answer: "Yep, if you need a new computer or any other special gear for your disability, DSA can cover it. You'll need to pay the first £200, though."

Prompt: "How much can I grab from DSA next year?" Answer: "For 2024-2025, you can get up to £26,948. For the current year, it's up to £26,291. This helps with study-related costs due to your disability."

Prompt: "I heard DSA doesn't cover some stuff. What doesn't it pay for?" Answer: "DSA won't cover costs that aren't related to your studies or that any student might have, like general living expenses. It's all about support specific to your disability."

Prompt: "Do I need to pay back the DSA money?" Answer: "Nope, you don't have to pay it back. It's there to support your study needs due to your disability."

Prompt: "Could you clarify what Disabled Students' Allowance (DSA) is and its purpose?" Answer: "The Disabled Students' Allowance (DSA) provides financial support to students with disabilities, including mental health conditions or long-term illnesses. This support covers costs such as specialist equipment, non-medical assistance, and additional travel required due to the disability. This funding is non-repayable."

Prompt: "What financial support does the DSA provide for students in the academic year 2024-2025?" Answer: "For the 2024-2025 academic year, students can receive up to £26,948 annually through the Disabled Students' Allowance. This amount is determined based on individual needs rather than household income."

Prompt: "What types of expenses are covered by the Disabled Students' Allowance?" Answer: "DSA covers costs related to your disability, such as specialist equipment, non-medical helpers, and extra travel expenses. It does not cover general student costs or expenses unrelated to your educational needs."

Prompt: "Is repayment required for the Disabled Students' Allowance?" Answer: "No, the Disabled Students' Allowance does not require repayment. It is designed to assist with disability-related study expenses."

Prompt: "What is the maximum funding available through the Disabled Students' Allowance for the current academic year?" Answer: "For the 2023-2024 academic year, the maximum funding available through the Disabled Students' Allowance is £26,291. This funding supports various study-related needs due to disability."

Prompt: "How exactly does the Disabled Students' Allowance support students with disabilities?" Answer: "DSA provides financial assistance for costs incurred due to your disability. This includes support for purchasing specialist equipment, hiring non-medical

helpers, and covering additional travel expenses. The amount and type of support are based on individual assessments of your needs."

Prompt: "What are the key differences in DSA support between the 2023-2024 and 2024-2025 academic years?" Answer: "The main difference is the amount of support available. For 2023-2024, you can receive up to £26,291, while for 2024-2025, the amount increases to up to £26,948. This increase reflects adjustments for inflation and increased costs."

Prompt: "Can I use DSA to purchase a computer? What do I need to know?" Answer: "Yes, DSA can cover the cost of a new computer if it is necessary for your studies. You will need to pay the first £200 yourself. The DSA team will provide detailed information following your needs assessment."

Prompt: "What is not covered by the Disabled Students' Allowance?" Answer: "DSA does not cover general student costs or any expenses not directly related to your disability. It is specifically for study-related costs such as specialist equipment and additional support."

Prompt: "How do I apply for the Disabled Students' Allowance and what should I prepare?" Answer: "To apply for DSA, you need to complete a needs assessment to determine the support you require. Be prepared to provide medical evidence to support your application. After the assessment, you will receive guidance on the support available to you."

Prompt: "What's DSA?" Answer: "DSA is financial support for students with disabilities, covering costs like specialist equipment and extra travel. It's non-repayable."

Prompt: "How much DSA can I get?" Answer: "Up to £26,291 for the 2023-2024 year and up to £26,948 for the 2024-2025 year."

Prompt: "What does DSA cover?" Answer: "It covers things like a new computer if needed, non-medical helpers, and extra travel due to your disability."

Prompt: "Do I have to pay back DSA?" Answer: "No, DSA does not need to be repaid."

Prompt: "How do I get a new computer with DSA?" Answer: "DSA can help with a new computer if necessary. You'll pay the first £200, and then follow the DSA team's instructions."

These prompts and answers should address a variety of student personalities while providing clear and concise information about Disabled Students' Allowance.

To get support through the Disabled Students' Allowance, you might need to attend a 'needs assessment' to determine what assistance you need.

Here's how it works:

- You'll receive a letter with instructions on how to book your needs assessment, and you don't need to pay for it.

- **Make sure to bring a copy of the eligibility evidence you used in your initial application.**
 - **After the assessment, you'll get a report detailing the equipment and support available to you.**
 - **It's important not to buy any equipment before your assessment, as you won't be reimbursed for it.**
-

Q: "What do I need to know about getting help for my disability?"

A: "Hey! You might need to go through a 'needs assessment' to figure out what support you'll need. They'll send you a letter on how to book it, and you don't need to pay. Just remember, don't buy any equipment before the assessment – you won't get refunded for it."

Q: "Can you provide details on the process for obtaining disability support?"

A: "Certainly. You will be required to undergo a 'needs assessment' to determine the specific support necessary for your academic needs. You will receive a letter outlining how to schedule this assessment. Please ensure you provide all relevant eligibility evidence during the assessment. Note that you should not purchase any equipment prior to this assessment as such expenses will not be reimbursed."

Q: "How do I get disability support?"

A: "Book a 'needs assessment' when instructed. Don't buy equipment before this – it won't be reimbursed."

Q: "What's up with getting help for my condition? Any tips?"

A: "You'll need to do a 'needs assessment' to see what support you can get. They'll tell you how to book it, and you won't have to pay. Just don't buy any gear until after the assessment – you won't get your money back."

Q: "So, how do I get disability support or whatever?"

A: "You'll need to do this assessment thing. They'll send you a letter with instructions. Don't spend on equipment before you do it – you won't get your cash back."

Q: "What's the deal with the needs assessment?"

A: "You'll get a letter telling you how to book it, and it's free. Make sure you have all your documents ready. Don't buy anything before it – they won't cover those costs."

Q: "Could you elaborate on the needs assessment process?"

A: "Of course. The needs assessment is conducted to evaluate the specific support you

require. You will be provided with instructions on how to arrange this assessment via a letter. It is imperative to present all necessary documentation during the assessment. Please refrain from purchasing any equipment beforehand, as these expenses will not be reimbursed.”

Q: “What’s a needs assessment?”

A: “It’s an evaluation to determine what support you need. Book it via the letter you’ll receive, and don’t buy anything before it’s done.”

Q: “What’s the needs assessment all about? Any tips?”

A: “It’s basically a check to see what help you need. You’ll get a letter on how to set it up, and it’s free. Just don’t buy stuff until after – they won’t pay you back for it.”

Q: “Need to know about the needs assessment. What’s the deal?”

A: “You’ll get a letter with booking info. Don’t buy anything before you do it – no refunds for that.”

Q: “How do I go about the needs assessment for my disability?”

A: “You’ll get a letter on how to book it, and it’s free. Just make sure you have your paperwork ready and don’t buy anything until after – they won’t cover it.”

Formal:

Q: “Can you detail the procedure for the needs assessment?”

A: “Certainly. You will receive a letter containing instructions to book your needs assessment. Ensure that you have your eligibility documentation ready for review. Refrain from purchasing any necessary equipment until after the assessment, as such expenditures are not eligible for reimbursement.”

Q: “What’s the needs assessment for?”

A: “It determines what support you need. Book it with the instructions you’ll get, and don’t buy anything before.”

Q: “What’s the needs assessment all about? Any advice?”

A: “It’s a way to find out what support you need. You’ll get a letter with the details, and it’s free. Just don’t buy anything before it – they won’t refund you.”

Q: “Need to know about this needs assessment thing. What’s it?”

A: “You’ll get a letter on how to book it. Don’t buy stuff before – no refunds.”

Q: “So, how does the needs assessment work for disability support?”

A: “You’ll get a letter on how to book a needs assessment, and it’s free. Just make sure you’ve got your paperwork ready, and don’t buy any equipment before the assessment, or you won’t get a refund.”

Q: “What’s up with getting disability help?”

A: “You’ll need to book a needs assessment – you’ll get instructions in a letter. Don’t buy any gear until after the assessment, or they won’t pay you back.”

Q: “I need disability support. What’s the process?”

A: “Book a needs assessment with the details in the letter they’ll send you. Don’t purchase anything until after the assessment – they won’t refund those costs.”

Q: “How do I get support for my condition?”

A: “You’ll have to go through a needs assessment. They’ll send you a letter on how to book it. Hold off on buying any equipment until after, or you might not get reimbursed.”

Q: “Can you explain the needs assessment thing?”

A: “It’s a process where you’ll figure out what support you need. You’ll get a letter to book it, and don’t buy stuff before it’s done – no refunds for that.”

Q: “Could you clarify the procedure for the needs assessment related to disability support?”

A: “Certainly. You will receive a letter with instructions on scheduling your needs assessment, which is provided at no cost. Ensure that all eligibility documents are prepared in advance. Please refrain from purchasing any equipment prior to this assessment as these expenses will not be reimbursed.”

Q: “What steps should I follow to secure disability support?”

A: “You will need to undergo a needs assessment to identify the appropriate support. A letter will be sent to you with the necessary details to book this assessment. It is essential to avoid purchasing any equipment until after the assessment as these costs are not eligible for reimbursement.”

Q: “Can you detail how to proceed with obtaining disability support?”

A: “You will receive a letter containing instructions on arranging a needs assessment. This assessment is complimentary. Please ensure you provide all relevant documentation and avoid buying any equipment before the assessment, as reimbursement will not be available for these expenses.”

Q: “What is the process for arranging a needs assessment for disability support?”

A: “You will be issued a letter with detailed instructions on how to book your needs assessment. This process is free of charge. Do not make any purchases related to equipment until after the assessment as such costs will not be refunded.”

Q: “How do I go about getting the necessary support for my condition?”

A: “A needs assessment will be arranged for you, and you will receive a letter with details on booking this assessment. Ensure all necessary documents are provided and refrain from purchasing any equipment prior to the assessment, as reimbursement is not available.”

Q: “What’s a needs assessment?”

A: “It’s an evaluation to determine the support you need. You’ll get a letter on how to book it. Don’t buy any equipment before it’s done – no refunds.”

Q: “How do I get disability support?”

A: “Book a needs assessment with the details provided in the letter. Don’t purchase equipment until after – no reimbursements.”

Q: “What’s involved in a needs assessment?”

A: “It’s an assessment to see what support you need. Schedule it via the letter you’ll receive. Avoid buying anything before it – no refunds.”

Q: “How does the needs assessment work?”

A: “You’ll get instructions on how to book it. Wait until after the assessment to buy any equipment – it won’t be refunded.”

Q: “What’s the deal with the needs assessment?”

A: “It’s for figuring out what support you need. The letter will have booking info. Don’t buy gear before the assessment – no refunds.”

Q: “How do I get support for my disability? What’s the needs assessment?”

A: “You’ll need to do a needs assessment to see what support you need. They’ll send you a letter with how to book it, and it’s free. Just don’t buy any equipment before the assessment – they won’t give you money back for it.”

Q: “I heard something about a needs assessment. What’s that?”

A: “It’s a way to figure out what kind of help you’ll need. You’ll get a letter on how to set it up, and it won’t cost you anything. Don’t buy any gear until after the assessment though – they won’t reimburse you.”

Q: “What’s the needs assessment for?”

A: “It’s to decide what support you need. You’ll get a letter with booking details. Don’t spend on any equipment until after, or you won’t get reimbursed.”

Q: “How does the needs assessment thing work?”

A: “You’ll get a letter telling you how to book it. It’s free, but don’t buy any equipment before – no refunds.”

Q: “Can you explain the needs assessment process?”

A: “It’s for figuring out what support you need. You’ll receive a letter with booking info. Just wait until after the assessment to buy equipment – they won’t refund it.”

Q: “What’s this needs assessment thing?”

A: “It’s how you figure out what help you need. They’ll send you a letter on how to book it. Don’t buy stuff before – they won’t give you money back.”

Q: “How do I get disability support? What’s a needs assessment?”

A: “You need to do a needs assessment. A letter will tell you how to book it. Don’t buy equipment before – no refunds.”

Q: “So, what’s the deal with the needs assessment?”

A: “It’s an assessment to figure out your support needs. You’ll get a letter with booking info. Just don’t buy anything before it – they won’t reimburse you.”

Q: “Need info on the needs assessment.”

A: “You’ll get a letter on how to book it. Don’t buy stuff before the assessment – no refunds.”

Q: “What’s a needs assessment for disability?”

A: “It’s to determine what support you need. They’ll send a letter with details. Avoid buying anything until after – no money back.”

engagement officer (and DMU graduate) on how BaseCamp can help you get the most out of your studies

Q: “What’s DMU BaseCamp all about?”

A: “DMU BaseCamp is an online resource for all DMU students. It has sections on teaching and learning, digital skills, assessments, careers, and support. You can use it anytime during your studies.”

Q: “Can you tell me about BaseCamp?”

A: “Sure! DMU BaseCamp has 6 sections to help you with your studies. It covers everything from digital skills to career development. You can come back to it anytime.”

Q: “How does DMU BaseCamp work?”

A: “BaseCamp is split into 6 sections that support your study journey. It includes teaching, digital skills, assessments, and more. You can access it whenever you need.”

Q: “What can I find on DMU BaseCamp?”

A: “You’ll find sections on teaching, digital skills, assessments, careers, and support. It’s designed to help you at any point during your studies.”

Q: “Is BaseCamp useful for my studies?”

A: “Definitely! BaseCamp covers various aspects of your study journey, from learning practices to personal development. You can use it whenever you need guidance.”

Q: “Could you provide an overview of DMU BaseCamp?”

A: “Certainly. DMU BaseCamp is an online resource for all levels of DMU students, encompassing sections on teaching, digital capabilities, assessment practices, career development, and community support. It is accessible throughout your study period.”

Q: “What resources are available on DMU BaseCamp?”

A: “DMU BaseCamp includes sections on teaching and learning, digital skills, assessments,

feedback, career development, and community support. It is designed to assist students throughout their academic journey.”

Q: “How does one navigate DMU BaseCamp?”

A: “DMU BaseCamp is organized into 6 sections. You can access each section as needed to support your studies. A welcome message and a short animation provide guidance on navigation.”

Q: “What support does DMU BaseCamp offer to students?”

A: “DMU BaseCamp offers support in teaching practices, digital capabilities, assessments, career development, and community building. It is a comprehensive resource available throughout your academic journey.”

Q: “Can you explain the purpose of DMU BaseCamp?”

A: “DMU BaseCamp is designed to equip students with resources in teaching, digital skills, assessments, career planning, and community support. It aims to support students at all stages of their academic journey.”

Q: “What’s DMU BaseCamp?”

A: “An online resource with sections on teaching, digital skills, assessments, careers, and support.”

Q: “Tell me about BaseCamp.”

A: “It has 6 sections covering teaching, digital skills, assessments, career development, and support.”

Q: “What does BaseCamp offer?”

A: “Sections on teaching, digital skills, assessments, careers, and community support.”

Q: “How does BaseCamp help?”

A: “It provides resources for teaching, digital skills, assessments, career development, and support.”

Q: “Why use BaseCamp?”

A: “It supports your study journey with resources in teaching, digital skills, assessments, and careers.”

Q: “What’s up with DMU BaseCamp?”

A: “DMU BaseCamp is an online resource for all students. It’s got sections on teaching, digital skills, assessments, careers, and support. You can check it out anytime during your studies.”

Q: “Can you explain DMU BaseCamp?”

A: “Sure! DMU BaseCamp is divided into 6 sections that help with your studies, like teaching, digital skills, assessments, and career planning. You can use it whenever you need.”

Q: “How do I use DMU BaseCamp?”

A: “Just head to BaseCamp, and you’ll find 6 sections on different aspects of your studies. There’s also a welcome message and an animation to help you navigate.”

Q: “What’s in DMU BaseCamp for me?”

A: “You’ll find resources on teaching, digital skills, assessments, careers, and community support. It’s designed to help you at any point in your studies.”

Q: “Is BaseCamp any good for students?”

A: “Yes! It’s a great resource that covers everything from teaching practices to career development. You can go back to it whenever you need help.”

Q: “What’s BaseCamp?”

A: “An online resource for DMU students with sections on teaching, digital skills, assessments, and careers.”

Q: “Explain BaseCamp?”

A: “It has 6 sections to help with teaching, digital skills, assessments, and careers.”

Q: “What’s in BaseCamp?”

A: “Sections on teaching, digital skills, assessments, and careers.”

Q: “How’s BaseCamp work?”

A: “It’s online, with 6 sections for teaching, digital skills, assessments, and careers.”

Q: “BaseCamp good for me?”

A: “Yes, it helps with teaching, digital skills, assessments, and careers.”

Q: “Whats DMU BaseCmp for?”

A: “DMU BaseCamp is an online resource for students with sections on teaching, digital skills, assessments, and careers. You can use it anytime during your studies.”

Q: “Tell me abut BaseCamp?”

A: “DMU BaseCamp has 6 sections covering teaching, digital skills, assessments, careers, and support. It’s designed to help you through your studies.”

Q: “How DMU BaseCamp wrks?”

A: “BaseCamp is divided into 6 sections that support your studies. It includes teaching, digital skills, assessments, and more.”

Q: “What’s in DMU BseCamp?”

A: “You’ll find sections on teaching, digital skills, assessments, careers, and community support. It’s a resource for all students.”

Q: “Is BaseCmp useful?”

A: “Yes, BaseCamp covers various aspects of your study journey, from learning practices to career development. You can use it whenever you need.”

Q: “How can I get started with using BaseCamp?”

A: “You can watch a short animation explaining how BaseCamp works and read a brief guide on navigating through it.

Q: “BaseCamp for?”

A: “All DMU students at any study level.”

Q: “What’s in BaseCamp?”

A: “Teaching, digital skills, assessments, feedback, careers, and support.”

Q: “Use anytime?”

A: “Yes, anytime during your studies.”

Q: “Who talks?”

A: “Vice Chancellor and a former student engagement officer.”

Q: “Learn to use?”

A: “Watch the animation and read the guide.”

Q: “What’s the deal with BaseCamp?”

A: “BaseCamp is there for all DMU students, covering everything you need like teaching, digital skills, assessments, feedback, career planning, and community support.”

Q: “How can BaseCamp help me?”

A: “It has six sections to support you in different areas like learning, tech skills, assessments, feedback, careers, and personal development.”

Q: “Can I use BaseCamp whenever?”

A: “Yep, you can access it anytime during your time at DMU.”

Q: “Who’s talking about BaseCamp?”

A: “You’ll hear from the Vice Chancellor and a former student engagement officer about how it can help.”

Q: “How do I figure out BaseCamp?”

A: “Just watch the animation and read the guide on how to navigate it.”

Q: “BaseCamp for?”

A: “All DMU students.”

Q: “Sections?”

A: “Teaching, digital skills, assessments, feedback, careers, support.”

Q: “Use anytime?”

A: “Yes, anytime.”

Q: “Who talks?”

A: “Vice Chancellor and former student officer.”

Q: “How to use?”

A: “Watch animation, read guide.”

Typos and Missing Words

Q: “Wht’s BaseCmp abut?”

A: “BaseCamp is an online resource for all DMU students, covering teaching, digital skills, assessments, feedback, careers, and support.”

Q: “Hw can BaseCmp hlp with stidies?”

A: “It has 6 sections including teaching, digital skills, assessments, feedback, career planning, and community support.”

Q: “Cn I use BaseCmp anytime?”

A: “Yes, you can return to BaseCamp anytime during your studies.”

Q: “Who tlks about BaseCmp?”

A: “You can hear from DMU Vice Chancellor Katie Normington and a former DMU student engagement officer about how BaseCamp can help you.”

Q: “Hw do I learn to use BaseCmp?”

A: “Watch a short animation and read an explanation on how to navigate through BaseCamp.

Q: “What can I expect from BaseCmp?”

A: “It’s got everything you need for your studies, from learning resources to career advice and community support.”

Q: “Is BaseCmp any good?”

A: “Absolutely, it’s packed with useful resources for all aspects of your academic journey.”

Q: “How often should I check BaseCmp?”

A: “Whenever you need help or guidance. It’s there for you throughout your time at DMU.”

Q: “Can BaseCmp help with exams?”

A: “Yes, there’s a section on assessments and good academic practices to help you prepare.”

Q: “I’m stressed about uni, can BaseCmp help?”

A: “Definitely, it has resources for support and community building to help you feel connected and supported.”

Q: “What is the objective of DMU BaseCamp?”

A: “The objective of BaseCamp is to provide comprehensive support for students, including resources for teaching, digital skills, assessments, career development, and community building.”

Q: “Is BaseCamp beneficial for postgraduate students?”

A: “Yes, BaseCamp is designed for all levels of study, including undergraduate, postgraduate, and research students.”

Q: “How frequently should I utilize BaseCamp?”

A: “You can utilize BaseCamp as frequently as needed. It is designed to support you throughout your academic journey.”

Q: “Does BaseCamp offer exam preparation support?”

A: “Yes, the section on assessments and good academic practices provides valuable resources for exam preparation.”

Q: “Can BaseCamp assist with managing academic stress?”

A: “Indeed, BaseCamp includes resources for support and community building to help manage academic stress and promote well-being.”

Q: “What’s BaseCamp? Tell me!”

A: “BaseCamp is a super helpful tool for DMU students! It’s got tons of info and support. Check out this intro vid:

<https://learningzone.dmu.ac.uk/d2l/le/enhancedSequenceViewer/121447?url=https%3A%2F%2F9ae52c92-0347-490b-b2a7-e5cdc4602172.sequences.api.brightspace.com%2F121447%2Factivity%2F1160359%3FfilterOnDatesAndDepth%3D1>”

Q: “Can u explane BaseCamp in detail?”

A: “BaseCamp is an extensive online resource for DMU students. It provides support across various areas like academic practices, careers, and personal development. To get a complete overview, watch this introduction video:

<https://learningzone.dmu.ac.uk/d2l/le/enhancedSequenceViewer/121447?url=https%3A%2F%2F9ae52c92-0347-490b-b2a7-e5cdc4602172.sequences.api.brightspace.com%2F121447%2Factivity%2F1160359%3FfilterOnDatesAndDepth%3D1>”

Navigating BaseCamp To enter each BaseCamp section, click on the tile to go into the section home page, then click 'Get Started'. There is a navigation sidebar which you can collapse to get a better view. Once you are in a BaseCamp section, you can use it in a number of different ways: Step by step - You can make your way through BaseCamp as a linear course, working your way through each section by clicking on 'Continue' at the end of the section. Choose your own way - You can choose your own way through each BaseCamp section using the navigation menu on the side of each page, or link to other relevant sections when given the option. Search - Once you have navigated into BaseCamp via LearningZone, you can search the BaseCamp section you are in using the search box at the top of the menu bar on each page (look for the magnifying glass icon).

Q: “Hw do I navigat BaseCamp?”

A: “To navigate BaseCamp, click on the tile to go to the section home page, then click 'Get Started'. Use the sidebar to navigate. You can follow it step by step, choose your own way, or use the search box to find what you need.”

Q: “Wht's the best way to use BaseCamp?”

A: “You can use BaseCamp step by step, choose your own way through sections, or search for specific info using the search box at the top of the sidebar.”

Q: “How do I find things in BaseCamp?”

A: “Use the search box with the magnifying glass icon at the top of the sidebar after entering through LearningZone.”

Q: “Can I go my own way in BaseCmp?”

A: “Yes, you can use the navigation menu on the side of each page or link to other sections as you like.”

Q: “Wh't's the sidebar for in BaseCmp?”

A: “The sidebar helps you navigate. You can collapse it for a better view.”

Q: “How do I navigate within BaseCamp?”

A: “To navigate BaseCamp, click on the relevant section tile to access the home page, then click 'Get Started'. You can use the navigation sidebar, follow a linear course, or use the search function.”

Q: “What are the different methods for using BaseCamp?”

A: “You can proceed step by step, choose your own way using the navigation menu, or search for specific topics using the search box on the menu bar.”

Q: “How can I search for specific content in BaseCamp?”

A: “Once you are in BaseCamp via LearningZone, use the search box at the top of the menu bar (with the magnifying glass icon) to search for specific content.”

Q: “Is there flexibility in navigating BaseCamp?”

A: “Yes, you can follow a linear path, explore sections in any order using the navigation menu, or use the search function to find specific content.”

Q: “How do I use the sidebar in BaseCamp?”

A: “The sidebar helps you navigate through sections. You can collapse it to get a better view.”

Q: “Navigate BaseCmp?”

A: “Click on the tile, then 'Get Started'. Use the sidebar or search box.”

Q: “BaseCmp options?”

A: “Step by step, choose your own way, or search.”

Q: “Find stuff BaseCmp?”

A: “Use the search box (magnifying glass icon).”

Q: “Explore BaseCmp?”

A: “Use the navigation menu or link to other sections.”

Q: “Sidebar in BaseCmp?”

A: “Navigate or collapse it for better view.”

Q: “How do I get around BaseCmp?”

A: “It’s super easy! Just click on the tile to enter a section, then click 'Get Started'. Use the sidebar to explore, go step by step, or search for what you need!”

Q: “Best way to use BaseCamp?”

A: “You can go step by step, make your own path using the menu, or search for specific info. It’s really flexible!”

Q: “How do I find things fast in BaseCamp?”

A: “Use the search box with the magnifying glass icon at the top of the sidebar. It’s super handy!”

Q: “Can I explore BaseCamp my way?”

A: “Absolutely! You can use the sidebar menu to go wherever you want or link to other sections as you like!”

Q: “What’s the sidebar for?”

A: “The sidebar helps you navigate through sections easily. You can also collapse it for a better view!”

Q: “How do I navigate through BaseCamp?”

A: “To navigate BaseCamp, start by clicking on the tile to enter a section’s home page, then click 'Get Started'. You can use the navigation sidebar, proceed step by step by clicking 'Continue' at the end of each section, or use the search box at the top of the menu bar (magnifying glass icon) to find specific content.”

Q: “What are the different navigation options in BaseCamp?”

A: “In BaseCamp, you can proceed step by step through each section by clicking 'Continue'. Alternatively, you can navigate freely using the sidebar menu or link to other relevant sections when prompted. Additionally, you can search for specific topics using the search box located at the top of the menu bar.”

Q: “How can I efficiently search for specific content in BaseCamp?”

A: “Once you are in BaseCamp via LearningZone, you can use the search box at the top of the sidebar menu (with the magnifying glass icon) to search for specific topics or information.”

Q: “Is there a way to customize my navigation experience in BaseCamp?”

A: “Yes, you can either follow a linear path by clicking 'Continue' at the end of each section or explore freely using the navigation menu on the side of each page. You can also link to other sections or use the search function to find specific content.”

Q: “How do I use and manage the sidebar in BaseCamp?”

A: “The sidebar is your primary navigation tool within BaseCamp. You can use it to explore different sections or collapse it to get a better view of the content on the page.”

“How do I navigat BaseCamp?”

A: "Hey! It’s easy to navigate BaseCamp! Just follow these steps:

- 1. Click on the section tile you want to explore.**

2. On the section home page, click 'Get Started'.
3. Use the navigation sidebar to move around, or collapse it for a better view.
4. You can go step by step by clicking 'Continue' at the end of each section.
5. Or choose your own path using the menu on the side.
6. If you're looking for something specific, use the search box at the top of the sidebar."

Q: "Could you guide me on how to navigate BaseCamp?"

A: "Certainly! Here's a step-by-step guide to navigating BaseCamp:

1. Click on the tile for the section you wish to access.
2. Once on the section's home page, click 'Get Started' to begin.
3. Utilize the navigation sidebar to move through the content, and collapse it if you need a better view.
4. Proceed step by step by clicking 'Continue' at the end of each section.
5. Alternatively, you may choose your own route by selecting options from the sidebar menu.
6. For specific searches, use the search box located at the top of the sidebar."

Q: "How do I get around BaseCmp?"

A: "Hey there! Navigating BaseCamp is a breeze! Follow these steps:

1. Click on the tile of the section you want to check out.
2. On the section home page, click 'Get Started'.
3. Use the sidebar to navigate, and collapse it if you need more space.
4. You can follow it step by step by clicking 'Continue' at the end of each part.
5. Or, choose your own adventure by picking from the sidebar menu.
6. If you need to find something specific, use the search box with the magnifying glass icon at the top of the sidebar."

Q: "Navigate BaseCmp?"

A: "Sure!

1. Click section tile.
2. Click 'Get Started'.
3. Use sidebar, collapse if needed.

4. Go step by step by clicking 'Continue'.
5. Or use sidebar menu.
6. Search with box at top of sidebar."

Q: "How do I navigate through BaseCamp?"

A: "Here's a detailed guide to navigating BaseCamp:

1. Begin by clicking on the tile of the section you wish to explore.
2. On the section's home page, click 'Get Started' to initiate your journey.
3. Use the navigation sidebar on the left to move through different parts of the section. You can collapse the sidebar for a broader view of the content.
4. If you prefer a structured approach, click 'Continue' at the end of each section to proceed step by step.
5. Alternatively, you can choose your own path by selecting options from the sidebar menu or linking to other sections when prompted.
6. For targeted searches, utilize the search box at the top of the sidebar, identified by the magnifying glass icon, to quickly find specific information or topics."

Typo and Incomplete Sentences

5. Choose way sidebar menu.
6. Srch box top of sidebar."

ABOUT THE DMU COURSES

What topics are covered in the first year,second year,third year and fourth year of the Accounting and Finance course

Year 1

Block 1: Introduction to Financial Accounting

A technically oriented module intended to develop a high level of skill utilising commonly and regularly used financial accounting procedures and techniques. Students will have the opportunity to develop knowledge and understanding of the methods and techniques used by financial accountants to record and present financial information to interested parties. Students will study the principles of double entry book-keeping including year-end adjustments and will learn how to prepare final accounts for sole traders, partnerships and limited companies. They will also be introduced to the skills required to analyse and interpret financial statements.

Block 2: Introduction to Management Accounting

A highly technically orientated module intended to develop a high level of skill utilising commonly and regularly used Management Accounting procedures and techniques. Outline content will include: Management accounting fundamentals such as cost behaviour and cost classification.

Accounting for materials, labour and overheads. Different costing methods such as process costing and job costing. Budgeting and forecasting theory and practical application. Basic variance analysis - calculations and interpretation. Introductory level performance measurement.

Block 3: Business Analysis Techniques

This module introduces the ideas of statistics and financial mathematics within a business and organisational context. The module aims to provide students with the basic quantitative techniques to be able to summarise and present financial data in a meaningful way. To assist with this appropriate computer software will be used. In addition, the module aims to enable students to apply financial mathematical techniques to simple, but real-life scenarios. You will also gain skills in business communication and analysis in private and public sector organisations. The ethos of responsible design and the relevant United Nations Sustainable Development Goals (SDGS) will be reflected in this module.

Block 4: Regulatory and Ethical Decision Making

This module will help to facilitate an understanding of the principle legal issues relevant to a person studying accounting and finance. The module also introduces the subject of Ethics and Ethical decision making for students working in roles within accounting or finance, including the principles of ethical decision-making theories and models for developing moral frameworks.

Year 2

Block 1: International Financial Reporting and Taxation

This is a highly technically oriented module with two main sections: Financial Reporting and Taxation.

In the Financial Reporting section, the module is looking at various sophisticated accounting techniques, procedures and principles that result in the production of accounting reports for external use. The module critically evaluates the impact of the International Financial Reporting Standards and International public sector Accounting Standards upon external reports.

The Taxation section of this module will look at the taxation legislation relevant to unincorporated businesses and employees, including income tax, national insurance and capital gains tax. It will include a mixture of policy and practice relating to the current tax legislation. It will entail carrying out numerical computations, evaluating and using written skills to communicate with a client.

Block 2: Decision Management

This is a technically orientated module that looks at the application of management accounting techniques to quantitative and qualitative information for decision-making, planning and control in a modern business environment.

Block 3: Corporate Finance

Finance is the branch of economic science concerned with the acquisition of money, the allocation and management of money resources, and the maximisation of wealth via optimum investment decision-making. Therefore, by definition, financial management and financial decision making is crucial for all companies as the successful choice of money resources and implementation of investment decisions will secure survival and expansion of the business entity. This module introduces students to some of the main principles of corporate financial decision-making and their impact in real-world financial decisions.

Block 4: Digital Environment

This module explores the nature of technology from accounting and finance perspectives. We will discuss the digital transformation of the finance function and introduce the appropriate technologies allowing students to understand the digital accounting and finance environment. We will explain the ecosystems of organisations and analyse the modern business models in digital ecosystems. The module will also examine the impact of digital transformation on different aspects of management accounting, taxation and other regulatory environment of finance reporting.

Year 3

Block 1: Advanced Financial Reporting and Taxation

This is a highly technically-oriented module with two main sections: Financial Reporting and Taxation. In the Financial Reporting section, the module focuses on examination of and practice of the mechanics of accounting for groups of companies and Whole of Government Accounts together with the study of advanced-level financial reporting standards and techniques and the development of the financial reporting framework and the application of IPSAS to governments.

The Taxation section of this module will consider the taxation legislation relevant to individuals, business and public sector organisations. It will include a mixture of policy (including post crises recovery) and practice relating to the current legislation. It will entail writing reports, carrying out

numerical computations and participating in group discussions. Students will be required to analyse and evaluate the legislation.

Block 2: Strategic Decision Management

This is an advanced module that will enable students to review, consolidate, extend and apply their knowledge and understanding of management accounting techniques with an emphasis on critical appraisal.

Block 3: Advanced Corporate Finance

This module focuses on those contexts, theories and practices which are important to financial managers within firms. This module requires numeracy skills, an appropriate use of statistics, communication and technology skills.

Block 4: Audit and Forensic Accounting

This module considers two areas of assurance, audit and forensic accounting. The audit section of the module examines the role and processes of the auditor and commonly used audit techniques. The module will examine both the technical practices and the basic theories involved in the audit process as well as providing a critical overview of auditing, including supreme auditing institutions. Including the examination of Supreme Audit Institutions globally.

The forensic accounting section of the module is designed to examine the areas of accounting fraud, cyber-crime and legal valuations within a context of litigation where the accountant acts as an expert witness or primary investigator liaising closely with lawyers and other legal advisors.

Or

Contemporary Issues in Accounting

This module will discuss the contemporary issues in the accounting field and dynamic business environment for students who want to be accountants in future, covering the day-to-day changes in accounting and audit standards, and the issues that the professionals are facing.

2. How is the Accounting and finance Bsc (Hons) course structured in terms of modules and assessments?

The Accounting and Finance BSc (Hons) course at De Montfort University (DMU) is structured to provide a comprehensive understanding of accounting principles, financial management, and business operations. The course is designed to equip students with the knowledge and skills required for a successful career in accounting and finance.

Course Structure:

Year 1:

- **Core Modules:**
 - o **Introduction to Financial Accounting**
 - o **Introduction to Management Accounting**
 - o **Business Mathematics**
 - o **Professional Communications**
 - o **Business Economics**

These modules lay the foundational knowledge and skills in accounting and finance, introducing students to essential concepts and practices.

Year 2:

- **Core Modules:**
 - o **Intermediate Financial Accounting**
 - o **Intermediate Management Accounting**
 - o **Corporate Finance**
 - o **Financial Markets and Institutions**
 - o **Business Taxation**

Students delve deeper into accounting and financial management topics, building on the knowledge gained in the first year.

Year 3:

- **Core Modules:**
 - o **Advanced Financial Accounting**

- o **Strategic Management Accounting**
- o **Audit and Assurance**
- o **Financial Management**
- o **Contemporary Issues in Accounting**

This year focuses on advanced topics and current issues in the field, preparing students for professional roles and further studies.

Assessments:

Assessments in the Accounting and Finance BSc (Hons) course are varied and designed to evaluate both theoretical understanding and practical application. They include:

- **Examinations:** These assess students' understanding of key concepts and their ability to apply them in different scenarios.
- **Coursework:** This includes essays, reports, and research projects that allow students to explore topics in depth and develop critical thinking skills.
- **Presentations:** Students may be required to present their findings from projects or case studies, developing their communication and presentation skills.
- **Group Projects:** Collaborative projects that encourage teamwork and the application of concepts in practical situations.
- **Practical Exercises:** Hands-on tasks, such as simulations and use of financial software, to develop practical skills relevant to the industry.

Overall, the course structure and assessment methods are designed to ensure that students not only acquire theoretical knowledge but also develop practical skills that are essential for a career in

accounting and finance. The blend of different types of assessments helps to cater to various learning styles and prepares students for the diverse challenges they will face in the professional world.

3. What are the key learning outcomes for the Accounting and finance Bsc (Hons) program?

Certainly! Here are the key learning outcomes for the Accounting and Finance BSc (Hons) program at DMU:

Key Learning Outcomes:

1. Understanding of Core Accounting Principles:

- o Gain a comprehensive understanding of financial accounting and management accounting principles.**
- o Develop the ability to prepare and interpret financial statements in compliance with relevant standards.**

2. Financial Management Proficiency:

- o Acquire skills in corporate finance, including investment appraisal, risk management, and capital budgeting.**
- o Understand the functioning of financial markets and institutions and their impact on business operations.**

3. Analytical and Critical Thinking:

- o Develop strong analytical skills to assess financial performance, conduct financial analysis, and make informed financial decisions.**
- o Cultivate critical thinking abilities to evaluate financial data and identify potential issues and opportunities.**

4. Technical Skills:

- o Gain proficiency in using financial software and tools such as Bloomberg and LSEG Workspace for financial analysis and decision-making.**
- o Learn to apply quantitative methods and statistical techniques in financial analysis.**

5. Taxation and Audit Knowledge:

- o Understand the principles and practices of taxation and how they impact businesses and individuals.**
- o Develop a solid foundation in auditing and assurance, including the ability to conduct audits and evaluate internal controls.**

6. Strategic and Managerial Skills:

- o Learn to develop and implement strategic financial plans and policies.**
- o Gain insights into management accounting techniques and their application in strategic decision-making.**

7. Contemporary Issues Awareness:

- o Stay informed about contemporary issues and trends in accounting and finance, such as sustainability reporting, corporate governance, and ethical considerations.**
- o Understand the global context of accounting and finance and its impact on businesses.**

8. Communication and Professional Skills:

- o Enhance communication skills, both written and oral, for effectively presenting financial information and analysis.**
- o Develop professional skills such as teamwork, leadership, and problem-solving through group projects and collaborative work.**

9. Career Readiness:

- o Prepare for professional accounting qualifications with exemptions from exams offered by bodies like ACCA, CIMA, and others.**
- o Build a strong foundation for a career in accounting, finance, audit, tax, or related fields, supported by practical experience and industry connections.**

These learning outcomes ensure that graduates of the Accounting and Finance BSc (Hons) program at DMU are well-equipped with the knowledge, skills, and competencies needed to excel in the accounting and finance industry.

4. How much practical work is involved in the Accounting and finance Bsc (Hons) courses?

Practical work is an integral part of the Accounting and Finance BSc (Hons) courses at DMU. Here's a breakdown of the practical components involved in the program:

Practical Work Involved:

1. Trading Floor Experience:

- o Simulated Financial Environment:** Students spend time on the university's state-of-the-art Trading Floor, where they engage in simulations that mimic real-world financial markets. This hands-on experience helps students understand trading, portfolio management, and investment banking.
- o Bloomberg and LSEG Workspace:** Practical exercises using industry-standard tools like Bloomberg terminals and LSEG Workspace allow students to analyze financial data, conduct research, and make informed financial decisions.

2. Case Studies and Projects:

- o Real-World Case Studies:** Modules often include case studies that require students to apply theoretical knowledge to real-world business scenarios. This helps develop problem-solving and critical-thinking skills.
- o Group Projects:** Collaborative projects involve working in teams to tackle financial challenges, conduct analyses, and present findings. These projects enhance teamwork and communication skills.

3. Internships and Work Placements:

- o Professional Experience:** Many students have the opportunity to undertake internships or work placements with accounting firms, financial institutions, or other businesses. These placements provide valuable industry experience and professional networking opportunities.

- o Employer Partnerships:** DMU's strong links with employers facilitate these opportunities,

allowing students to gain hands-on experience and apply their learning in a professional setting.

4. Practical Modules:

- o Audit and Forensic Accounting:** This module includes practical exercises such as conducting audits and investigations, evaluating internal controls, and preparing audit reports.
- o Corporate Finance:** Practical assignments in this module might include financial modeling, investment appraisal, and risk management tasks.
- o Management and Strategy:** Students engage in practical applications of management theories, strategic planning, and decision-making processes.

5. Assessment Methods:

- o Practical Assessments:** In addition to exams and written coursework, many modules include practical assessments such as presentations, projects, and simulations.

- o **Use of Financial Software:** Students regularly use financial software and tools to complete assignments, conduct analyses, and produce reports.

6. Research Projects:

- o **Final Year Dissertation:** The final year typically includes a research project or dissertation where students conduct in-depth research on a topic related to accounting and finance. This involves practical research methods and the application of theoretical knowledge.

Overall, the Accounting and Finance BSc (Hons) program at DMU includes a significant amount of practical work designed to prepare students for professional careers. The combination of simulations, real-world projects, internships, and practical assessments ensures that students gain hands-on experience and develop the skills necessary to succeed in the accounting and finance industry.

5. How is the curriculum structured in the Accounting and Finance department, and what topics are emphasized?

The Accounting and Finance curriculum at DMU is designed to provide students with a comprehensive understanding of both theoretical and practical aspects of the field. The structure typically spans three years for a standard BSc (Hons) program, with each year building on the knowledge and skills acquired in the previous one.

First Year: Foundations of Accounting and Finance

- **Introduction to Financial Accounting:** Basic principles of financial accounting, understanding financial statements, and the accounting cycle.
- **Introduction to Management Accounting:** Cost behaviors, budgeting, and the role of management accounting in decision-making.
- **Economics for Accounting and Finance:** Basic economic principles and their relevance to accounting and finance.
- **Quantitative Methods for Accounting:** Mathematical and statistical techniques used in financial analysis.
- **Business Environment:** Understanding the business context in which accounting and finance operate.

Second Year: Intermediate Concepts and Techniques

- **Corporate Finance:** Principles of corporate financial decision-making, investment appraisal, and capital budgeting.
- **Financial Reporting:** Advanced financial accounting topics, including consolidation and interpretation of financial statements.
- **Management Accounting Techniques:** In-depth study of costing methods, variance analysis, and performance measurement.
- **Taxation:** Basic principles of taxation, tax planning, and compliance.
- **Auditing:** Introduction to audit principles, practices, and standards.

Third Year: Advanced Topics and Specializations

- **Advanced Financial Accounting:** Complex financial accounting issues, including international financial reporting standards.
- **Strategic Management Accounting:** The strategic role of management accounting in business planning and control.
- **Audit and Forensic Accounting:** Principles and practices of auditing, forensic accounting techniques, and fraud investigation.
- **Contemporary Issues in Accounting:** Current trends and developments in accounting, including sustainability and ethics.
- **Strategic Decision Management:** Application of strategic management concepts in financial decision-making.

Topics Emphasized

- **Financial Decision-Making:** Emphasis on how financial information is used to make strategic business decisions.
- **Real-World Applications:** Practical experience through case studies, simulations, and use of industry-standard tools like Bloomberg and LSEG Workspace.

- **Professional Skills:** Preparation for professional exams (e.g., ACCA, CIMA) with opportunities for exemptions from certain papers.
- **Ethics and Sustainability:** Understanding ethical issues and sustainable practices in accounting and finance.
- **Global Perspective:** Exposure to international accounting standards and practices to prepare students for the global business environment.

Practical Components

- **Trading Floor Simulations:** Hands-on experience in trading, portfolio management, and investment banking using Bloomberg and LSEG Workspace.
- **Internships and Placements:** Opportunities to gain real-world experience through internships and work placements.
- **Group Projects:** Collaborative projects to develop teamwork, communication, and problem-solving skills.
- **Research Projects:** In the final year, students typically undertake a research project or dissertation on a relevant topic of their choice.

This structure ensures that graduates are well-prepared with the knowledge, skills, and experience needed to succeed in the accounting and finance industry.

6. What specific financial principles and techniques are taught in the Corporate Finance module?

The Corporate Finance module in the Accounting and Finance program at DMU covers a range of financial principles and techniques essential for understanding and managing the financial activities of corporations. Here are the key topics and techniques typically taught in this module:

Financial Principles and Techniques in the Corporate Finance Module

1. Time Value of Money (TVM):

- o **Present Value (PV) and Future Value (FV):** Understanding the concept of the time value of money, calculating present and future values of cash flows.

- o **Discounting and Compounding:** Techniques for discounting future cash flows to their present value and compounding present values to their future value.

2. Capital Budgeting:

- o **Net Present Value (NPV):** Evaluating investment projects by calculating the net present value of expected cash flows.

- o **Internal Rate of Return (IRR):** Determining the discount rate that makes the net present value of an investment zero.

- o **Payback Period:** Calculating the time required to recoup the initial investment from the cash inflows generated by the project.

- o **Profitability Index (PI):** Assessing the attractiveness of an investment by dividing the present value of future cash flows by the initial investment cost.

3. Risk and Return:

- o **Expected Return and Standard Deviation:** Measuring the expected return and the risk (volatility) of investments.

- o **Portfolio Theory:** Diversification principles and the construction of efficient portfolios to minimize risk.

- o **Capital Asset Pricing Model (CAPM):** Understanding the relationship between risk and expected return, and calculating the cost of equity.

4. Cost of Capital:

- o **Weighted Average Cost of Capital (WACC):** Calculating a firm's overall cost of capital, taking into account the weighted costs of equity and debt.

- o **Cost of Debt and Equity:** Determining the cost of different sources of financing, including loans, bonds, and equity.

5. Capital Structure:

- o **Optimal Capital Structure:** Analyzing the mix of debt and equity that minimizes the cost of capital and maximizes firm value.

- o **Leverage:** Understanding the impact of financial leverage on a company's risk and return.

6. Dividend Policy:

- o **Dividend Theories:** Exploring various theories related to dividend policy, such as the Modigliani- Miller theorem, signaling theory, and the bird-in-the-hand theory.

- o **Dividend Payout and Retention:** Deciding the proportion of earnings to be distributed as dividends versus retained for reinvestment.

7. Financial Analysis and Planning:

- o **Financial Ratios:** Using ratios to assess a company's financial health, including liquidity, profitability, and solvency ratios.

- o **Financial Forecasting:** Projecting future financial performance based on historical data and assumptions about future conditions.

8. Mergers and Acquisitions (M&A):

- o **Valuation Methods:** Techniques for valuing companies, including discounted cash flow (DCF) analysis, comparable company analysis, and precedent transactions.

- o **Synergies:** Identifying and valuing the potential benefits of combining two companies.

- o **Due Diligence:** The process of investigating and evaluating the financial and operational aspects of a target company.

9. Corporate Governance and Ethics:

- o **Governance Structures:** Understanding the role of boards of directors, shareholders, and other stakeholders in corporate governance.

- o **Ethical Considerations:** Addressing ethical issues in financial decision-making and ensuring compliance with laws and regulations.

Practical Applications:

- **Case Studies:** Analyzing real-world corporate finance cases to apply theoretical concepts to practical scenarios.

- **Financial Modelling:** Building financial models to project cash flows, evaluate investments, and assess financial performance.

- **Simulations:** Participating in simulations that mimic real-world financial decision-making processes.

By covering these principles and techniques, the Corporate Finance module equips students with the necessary skills to make informed financial decisions and manage the financial activities of a corporation effectively.

7. Could you describe the learning outcomes for the core modules in the Accounting and Finance program?

Learning Outcomes for Core Modules in the Accounting and Finance Program at DMU

1. Introduction to Financial Accounting:

- **Understanding Accounting Principles:** Grasp the fundamental principles and concepts of financial accounting.
- **Preparation of Financial Statements:** Learn to prepare basic financial statements, including the balance sheet, income statement, and cash flow statement.
- **Double-Entry Bookkeeping:** Master the double-entry bookkeeping system and the recording of financial transactions.

2. Introduction to Management Accounting:

- **Costing Methods:** Understand various costing methods such as job costing, process costing, and activity-based costing.
- **Budgeting:** Learn the principles of budgeting and the preparation of various types of budgets.
- **Variance Analysis:** Conduct variance analysis to assess performance against budgeted figures.

3. Economics for Accounting and Finance:

- **Microeconomic Principles:** Grasp the basic concepts of microeconomics, including supply and demand, market structures, and consumer behavior.
- **Macroeconomic Principles:** Understand macroeconomic indicators, policies, and their impact on businesses.
- **Economic Decision-Making:** Apply economic principles to make informed business decisions.

4. Quantitative Methods for Accounting:

- **Statistical Techniques:** Learn statistical methods and their applications in financial analysis.
- **Data Analysis:** Use quantitative tools to analyze financial data and make predictions.
- **Mathematical Skills:** Develop mathematical skills required for financial modeling and analysis.

5. Business Environment:

- **Business Structures:** Understand different types of business structures and their implications.
- **Regulatory Environment:** Learn about the regulatory and legal environment affecting businesses.
- **Ethical Issues:** Discuss ethical issues in business and accounting practices.

6. Corporate Finance:

- **Financial Decision-Making:** Learn the principles of financial decision-making, including investment appraisal and capital budgeting.
- **Valuation Techniques:** Understand various valuation techniques, including discounted cash flow (DCF) analysis.
- **Risk Management:** Develop skills in managing financial risks and understanding the cost of capital.

7. Financial Reporting:

- **Advanced Financial Accounting:** Gain advanced knowledge of financial accounting, including consolidation and financial statement analysis.

- **International Financial Reporting Standards (IFRS):** Learn about IFRS and their application in financial reporting.
- **Ethical and Regulatory Issues:** Understand the ethical and regulatory issues in financial reporting.

8. Management Accounting Techniques:

- **Strategic Management Accounting:** Learn strategic management accounting techniques and their application in business planning.
- **Performance Measurement:** Understand performance measurement techniques and their role in strategic decision-making.
- **Cost Control:** Develop skills in cost control and management.

9. Taxation:

- **Tax Principles:** Understand the basic principles of taxation, including tax planning and compliance.
- **Tax Legislation:** Learn about current tax legislation and its impact on businesses.
- **Tax Calculation:** Develop skills in calculating tax liabilities for individuals and businesses.

10. Auditing:

- **Audit Principles:** Learn the principles and practices of auditing, including the role of auditors.
- **Audit Process:** Understand the audit process, including planning, evidence gathering, and reporting.
- **Ethical Issues in Auditing:** Discuss ethical issues and challenges faced by auditors.

11. Advanced Financial Accounting:

- **Complex Accounting Issues:** Gain knowledge of complex accounting issues, including group accounts and financial instruments.
- **Financial Analysis:** Develop skills in analyzing financial statements and assessing financial performance.
- **Reporting Standards:** Understand advanced reporting standards and their application.

12. Strategic Management Accounting:

- **Strategic Planning:** Learn the role of management accounting in strategic planning and decision-making.
- **Performance Evaluation:** Understand techniques for evaluating business performance and implementing strategic controls.
- **Cost Management:** Develop advanced skills in cost management and optimization.

13. Audit and Forensic Accounting:

- **Forensic Techniques:** Learn forensic accounting techniques used in fraud detection and investigation.
- **Audit Standards:** Understand audit standards and their application in various audit engagements.
- **Ethical and Legal Issues:** Discuss ethical and legal issues in auditing and forensic accounting.

14. Contemporary Issues in Accounting:

- **Current Trends:** Understand current trends and developments in accounting, including digital transformation.
- **Sustainability Reporting:** Learn about sustainability reporting and its importance in modern accounting.
- **Ethical Considerations:** Discuss ethical considerations and challenges in contemporary accounting practices.

15. Strategic Decision Management:

- **Decision-Making Models:** Learn various decision-making models and their application in strategic management.
- **Risk Analysis:** Understand risk analysis techniques and their role in strategic decision-making.
- **Implementation of Strategies:** Develop skills in implementing and monitoring business strategies.

These learning outcomes ensure that students in the Accounting and Finance program at DMU acquire a robust foundation in both the theoretical and practical aspects of accounting and finance, preparing them for successful careers in the industry.

8. Are there any specialized modules or pathways available within the Accounting and Finance course?

Specialized Modules or Pathways in the Accounting and Finance Course at DMU

Specialized Modules:

1. Corporate Finance:

- o **Advanced Financial Management:** Focuses on complex financial decision-making, capital structure, and valuation techniques.
- o **Mergers and Acquisitions:** Covers strategies, valuation methods, and the legal aspects of mergers and acquisitions.

2. Management Accounting:

- o **Strategic Management Accounting:** Explores the use of accounting information for strategic planning, control, and decision-making.
- o **Cost and Performance Management:** Emphasizes advanced costing techniques, performance measurement, and management control systems.

3. Audit and Forensic Accounting:

- o **Advanced Audit and Assurance:** In-depth study of auditing standards, ethics, and the practical application of audit techniques.

- o **Forensic Accounting and Fraud Examination:** Techniques for detecting and investigating fraud, including forensic accounting practices.

4. Taxation:

- o **Corporate Taxation:** Detailed analysis of tax regulations affecting corporations and strategies for tax planning and compliance.

- o **International Taxation:** Focuses on tax issues in the global business environment, including transfer pricing and international tax treaties.

5. Financial Reporting:

- o **Advanced Financial Reporting:** Covers complex financial reporting issues, including consolidation, financial instruments, and revenue recognition.

- o **Sustainability and Integrated Reporting:** Examines the principles and practices of sustainability reporting and integrated reporting frameworks.

6. Financial Markets and Institutions:

- o **Investment Analysis:** Techniques for analyzing investments, portfolio management, and understanding financial markets.

- o **Financial Risk Management:** Strategies for managing financial risks, including market, credit, and operational risks.

7. Contemporary Issues in Accounting:

- o **Digital Accounting and Analytics:** Impact of digital technologies on accounting practices, including data analytics and blockchain.

- o **Corporate Governance and Ethics:** Examines issues related to corporate governance, ethical decision-making, and regulatory compliance.

Specialized Pathways:

1. Professional Pathway:

- o **ACCA and CIMA Preparation:** Modules aligned with the syllabus of professional accounting bodies such as ACCA and CIMA, offering exemptions from specific exams.

- o **Professional Ethics and Regulation:** Focus on professional standards, ethics, and regulatory requirements in accounting.

2. Industry-Focused Pathway:

- o **Financial Services and Banking:** Specialized modules tailored for careers in the financial services industry, including banking operations and regulatory environment.

- o **Public Sector Accounting:** Focus on accounting practices and financial management in the public sector.

3. Research Pathway:

- o **Research Methods in Accounting:** Training in qualitative and quantitative research methods, preparing students for academic research and PhD studies.

- o **Dissertation/Research Project:** An in-depth research project on a topic of interest within the field of accounting and finance.

4. International Pathway:

- o **International Financial Reporting Standards (IFRS):** Detailed study of IFRS and their application in global financial reporting.

- o **Global Business Environment:** Modules focusing on the challenges and opportunities of accounting in a globalized business environment.

5. Entrepreneurial Pathway:

- o **Entrepreneurial Finance:** Financial management principles tailored for startups and small businesses.

- o **Strategic Business Planning:** Techniques for developing and implementing business strategies in entrepreneurial ventures.

By offering these specialized modules and pathways, the Accounting and Finance course at DMU allows students to tailor their education to their career aspirations and interests, providing them with the skills and knowledge needed to excel in various sectors of the accounting and finance industry.

9. What accounting theories and practices are covered in the Advanced Financial Accounting module?

Accounting Theories and Practices Covered in the Advanced Financial Accounting Module at DMU

1. Theoretical Frameworks:

- **Accounting Concepts and Principles:**
 - o Understanding fundamental accounting concepts such as relevance, reliability, comparability, and consistency.
 - o Application of Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS).
- **Conceptual Framework for Financial Reporting:**
 - o Framework set by the International Accounting Standards Board (IASB).
 - o Objectives of financial reporting, qualitative characteristics of useful financial information, and the elements of financial statements.

2. Advanced Financial Reporting:

- **Consolidation:**
 - o Techniques for preparing consolidated financial statements for group companies.
 - o Treatment of subsidiaries, associates, and joint ventures in consolidated accounts.
- **Business Combinations:**
 - o Accounting for mergers, acquisitions, and amalgamations.
 - o Purchase method and pooling of interests method for business combinations.
- **Foreign Currency Transactions and Translation:**
 - o Accounting for transactions in foreign currencies.
 - o Translation of financial statements of foreign operations for consolidation purposes.

3. Financial Instruments:

- **Recognition and Measurement:**
 - o Classification, recognition, and measurement of financial assets and liabilities.
 - o Use of fair value, amortized cost, and other valuation methods.

- **Hedge Accounting:**
- o **Accounting for hedging activities and derivative instruments.**
- o **Hedge effectiveness testing and documentation requirements.**

4. Revenue Recognition:

- **Revenue from Contracts with Customers (IFRS 15):**
- o **Five-step model for revenue recognition: Identify the contract, identify performance obligations, determine the transaction price, allocate the transaction price, and recognize revenue when (or as) performance obligations are satisfied.**

5. Leases:

- **Accounting for Leases (IFRS 16):**
- o **Recognition, measurement, presentation, and disclosure of leases.**
- o **Right-of-use assets and lease liabilities on the balance sheet.**

6. Employee Benefits:

- **Accounting for Pensions and Other Post-Employment Benefits (IAS 19):**
- o **Defined benefit plans vs. defined contribution plans.**
- o **Actuarial assumptions, present value of defined benefit obligations, and accounting for plan assets.**

7. Deferred Taxation:

- **Accounting for Income Taxes (IAS 12):**
- o **Temporary differences between accounting profit and taxable profit.**
- o **Recognition of deferred tax assets and liabilities.**

8. Impairment of Assets:

- **Impairment Testing (IAS 36):**
 - o **Identifying and measuring impairments of tangible and intangible assets.**
 - o **Recoverable amount, value in use, and fair value less costs of disposal.**

9. Intangible Assets:

- **Recognition and Measurement (IAS 38):**
 - o **Accounting for intangible assets such as goodwill, patents, and trademarks.**
 - o **Amortization, impairment, and derecognition of intangible assets.**

10. Provisions, Contingent Liabilities, and Contingent Assets:

- **Accounting for Provisions (IAS 37):**
 - o **Recognition, measurement, and disclosure of provisions.**
 - o **Differentiating between provisions, contingent liabilities, and contingent assets.**

11. Share-Based Payments:

- **Accounting for Equity-Settled and Cash-Settled Share-Based Payment Transactions (IFRS 2):**
 - o **Measurement of share-based payment transactions at fair value.**
 - o **Recognition of expenses related to share-based payments over the vesting period.**

12. Corporate Governance and Ethics:

- **Corporate Governance:**
 - o **Role and responsibilities of the board of directors, audit committees, and internal control mechanisms.**
 - o **Ethical issues and professional conduct in accounting and financial reporting.**

By covering these advanced theories and practices, the Advanced Financial Accounting module equips students with the knowledge and skills necessary to handle complex financial reporting issues and make informed accounting decisions in a professional setting.

10. Can you explain the focus areas for students in terms of modules and projects in the Accounting and Finance program?

Focus Areas for Students in the Accounting and Finance Program at DMU

Modules:

- 1. Core Modules:**
 - o **Corporate Finance:**
 - § **Financial decision-making, capital structure, and valuation techniques.**
 - o **Management and Strategy:**
 - § **Organizational management theory, strategic planning, and human resource management.**
 - o **Audit and Forensic Accounting:**
 - § **Auditing standards, forensic accounting techniques, and fraud investigation.**
 - o **Strategic Decision Management:**
 - § **Decision-making processes, strategic analysis, and business strategy implementation.**
 - o **Contemporary Issues in Accounting:**
 - § **Emerging trends, ethical considerations, and regulatory changes in accounting.**
- 2. Specialized Modules:**
 - o **Advanced Financial Accounting:**

§ **Complex financial reporting, consolidation, and international accounting standards.**

o **Taxation:**

§ **Corporate taxation, tax planning, and international tax issues.**

o **Financial Risk Management:**

§ **Risk identification, assessment, and mitigation strategies in financial contexts.**

o **Investment Analysis:**

§ **Portfolio management, investment strategies, and financial markets.**

o **Digital Accounting and Analytics:**

§ **Use of digital tools and data analytics in accounting practices.**

3. Elective Modules:

o **Entrepreneurial Finance:**

§ **Financial management for startups and small businesses.**

o **Public Sector Accounting:**

§ **Accounting practices and financial management in the public sector.**

o **Sustainability and Integrated Reporting:**

§ **Sustainability reporting and integrated reporting frameworks.**

Projects:

1. Research Projects:

o **Dissertation:**

§ **In-depth research on a chosen topic within accounting and finance, involving data collection, analysis, and presentation of findings.**

o **Research Methods:**

§ **Training in qualitative and quantitative research methods, preparing students for academic research and practical applications.**

2. Practical Projects:

o **Case Studies:**

§ Real-world scenarios requiring analysis, problem-solving, and application of theoretical knowledge to practical situations.

o Financial Analysis Projects:

§ Detailed analysis of financial statements, investment portfolios, and market trends.

o Audit Simulations:

§ Simulated audit exercises to apply auditing standards and techniques in a controlled environment.

3. Industry Collaboration:

o Internships and Work Placements:

§ Opportunities to gain practical experience in accounting and finance roles within businesses and financial institutions.

o Industry Projects:

§ Collaboration with companies on projects addressing real-world business challenges and financial issues.

4. Technology-Enhanced Learning:

o Trading Floor Simulations:

§ Hands-on experience using Bloomberg and LSEG Workspace for trading, portfolio management, and financial analysis.

o Digital Accounting Tools:

§ Use of accounting software and digital platforms for financial reporting, analysis, and decision-making.

5. Group Projects:

o Collaborative Assignments:

§ Team-based projects that encourage collaboration, communication, and collective problem-solving skills.

o Presentations and Reports:

§ Preparation and delivery of presentations and reports on financial topics, enhancing communication and presentation skills.

Focus Areas:

1. Technical Skills:

- o **Mastery of accounting principles, financial reporting standards, and auditing techniques.**
- o **Proficiency in financial analysis, investment strategies, and risk management.**

2. Practical Application:

- o **Application of theoretical knowledge to real-world scenarios through case studies, simulations, and industry projects.**
- o **Development of practical skills through hands-on experience in the Trading Floor and internships.**

3. Research and Analysis:

- o **Conducting independent research projects and analyzing financial data to inform decision-making.**
- o **Emphasis on critical thinking, data interpretation, and effective communication of findings.**

4. Professional Development:

- o **Preparation for professional qualifications and certifications through aligned coursework and exam exemptions.**
- o **Building a strong foundation for careers in accounting, finance, and related fields through industry collaboration and networking opportunities.**

By focusing on these areas, the Accounting and Finance program at DMU ensures that students are well-prepared for the demands of the industry, equipped with both the theoretical knowledge and practical skills needed for successful careers in accounting and finance.

11. What are the key focus areas of study in the Audit and Forensic Accounting module?

Key Focus Areas of Study in the Audit and Forensic Accounting Module at DMU

1. Auditing Principles and Standards:

- **Fundamentals of Auditing:**

- o Understanding the purpose and objectives of auditing.
- o The role of the auditor in financial reporting and corporate governance.
- **Auditing Standards:**
 - o International Standards on Auditing (ISA) and Generally Accepted Auditing Standards (GAAS).
 - o Ethical standards and professional conduct for auditors.

2. Audit Process and Techniques:

- **Planning and Risk Assessment:**
 - o Designing audit plans and assessing risks.
 - o Identifying and evaluating internal controls.
- **Audit Evidence and Testing:**
 - o Gathering and evaluating audit evidence.
 - o Substantive testing and analytical procedures.
- **Audit Reporting:**
 - o Preparing audit reports and communicating findings.
 - o Types of audit opinions and their implications.

3. Forensic Accounting Fundamentals:

- **Introduction to Forensic Accounting:**
 - o Definition and scope of forensic accounting.
 - o The role of forensic accountants in fraud detection and investigation.
- **Legal Framework:**
 - o Understanding the legal environment in which forensic accounting operates.
 - o Rules of evidence and the legal responsibilities of forensic accountants.

4. Fraud Examination and Investigation:

- **Types of Fraud:**
 - o **Common types of fraud, including financial statement fraud, asset misappropriation, and corruption.**
 - o **Case studies and real-world examples of fraud schemes.**
- **Fraud Detection Techniques:**
 - o **Techniques for detecting fraud, including data analysis, red flags, and whistleblower tips.**
 - o **Using technology and software for fraud detection.**
- **Fraud Investigation:**
 - o **Planning and conducting fraud investigations.**
 - o **Interviewing techniques and evidence collection.**
 - o **Preparing forensic reports and presenting findings in court.**

5. Cybersecurity and Digital Forensics:

- **Cybersecurity Risks:**
 - o **Understanding cybersecurity threats and risks to financial information.**
 - o **Protecting against cyber fraud and data breaches.**
- **Digital Forensics:**
 - o **Techniques for investigating digital crimes.**
 - o **Recovering and analyzing digital evidence.**

6. Financial Statement Analysis:

- **Analytical Techniques:**
 - o **Techniques for analyzing financial statements for signs of fraud.**
 - o **Ratio analysis, trend analysis, and benchmarking.**

- **Red Flags in Financial Statements:**
- o **Identifying unusual patterns or anomalies that may indicate fraud.**

7. Regulatory and Ethical Issues:

- **Regulatory Environment:**
- o **Understanding the regulatory framework governing auditing and forensic accounting.**
- o **Compliance with laws and regulations, such as the Sarbanes-Oxley Act.**
- **Ethical Considerations:**
- o **Ethical challenges and dilemmas faced by auditors and forensic accountants.**
- o **Promoting ethical behavior and integrity in the profession.**

8. Practical Application and Case Studies:

- **Real-World Applications:**
- o **Applying auditing and forensic accounting principles to real-world scenarios.**
- o **Case studies and simulations to practice skills.**
- **Group Projects and Presentations:**
- o **Collaborating on group projects to solve complex auditing and forensic accounting problems.**
- o **Presenting findings and recommendations to peers and instructors.**

By covering these key focus areas, the Audit and Forensic Accounting module at DMU equips students with the knowledge and skills necessary to conduct thorough audits, detect and investigate fraud, and ensure the integrity of financial reporting. This comprehensive approach prepares students for careers in auditing, forensic accounting, and related fields, providing them with both theoretical foundations and practical experience.

12. How are assessments typically conducted in the Accounting and Finance course?

Typical Assessments in the Accounting and Finance Course at DMU

1. Written Examinations:

- **Format:**
 - o **Timed exams with a mix of multiple-choice, short-answer, and essay questions.**
 - o **Assess knowledge of key concepts, theories, and practical applications.**
- **Frequency:**
 - o **Typically held at the end of each term or module.**

2. Coursework Assignments:

- **Essays and Reports:**
 - o **In-depth analysis of specific topics, requiring critical thinking and synthesis of information.**
 - o **Examples include financial analysis reports, audit reports, and research essays.**
- **Case Studies:**
 - o **Real-world scenarios requiring application of theoretical knowledge to practical problems.**
 - o **Analysis and presentation of solutions to complex financial and accounting issues.**

3. Group Projects:

- **Collaborative Assignments:**
 - o **Team-based projects involving research, analysis, and presentation.**
 - o **Encourage teamwork, communication, and project management skills.**
- **Examples:**
 - o **Group presentations on financial case studies.**
 - o **Collaborative research projects on emerging accounting issues.**

4. Practical Assessments:

- **Simulations:**
 - o **Use of the Trading Floor to simulate real-world financial activities like trading and portfolio management.**
 - o **Practical exercises using Bloomberg and LSEG Workspace.**
- **Work Placement Reports:**
 - o **Reflection and analysis of practical work experiences during internships or placements.**

5. Research Projects:

- **Dissertation:**
 - o **Independent research on a chosen topic within accounting and finance.**
 - o **Involves data collection, analysis, and presentation of findings.**
- **Research Proposals:**
 - o **Preparing and presenting proposals for research projects, outlining objectives, methodology, and expected outcomes.**

6. Presentations:

- **Oral Presentations:**
 - o **Presenting findings from research projects, case studies, or group assignments.**
 - o **Assess communication skills and ability to articulate complex ideas.**
- **Poster Presentations:**
 - o **Creating and presenting academic posters summarizing research or project work.**

7. Practical Skills Tests:

- **Financial Software Proficiency:**
- o **Assessing skills in using accounting and financial software tools.**
- o **Examples include tests on Bloomberg, Excel, and other relevant software.**

8. Continuous Assessment:

- **Quizzes and In-Class Tests:**
- o **Regular quizzes and tests to monitor progress and understanding of course material.**
- o **Often used as formative assessments to provide feedback and identify areas for improvement.**

9. Reflective Journals:

- **Learning Logs:**
- o **Regular entries reflecting on learning experiences, challenges, and progress.**
- o **Encourages self-assessment and continuous improvement.**

10. Peer Assessments:

- **Group Work Evaluation:**
- o **Peer evaluations of contributions to group projects and assignments.**
- o **Promotes accountability and collaborative skills.**

By employing a variety of assessment methods, the Accounting and Finance course at DMU ensures that students are evaluated comprehensively, covering theoretical knowledge, practical skills, research capabilities, and soft skills like teamwork and communication. This diverse assessment approach helps prepare students for the multifaceted demands of careers in accounting and finance.

12. Are there practical assessments or fieldwork requirements in the Accounting and Finance curriculum?

Practical Assessments and Fieldwork Requirements in the Accounting and Finance Curriculum at DMU

1. Practical Assessments:

· Simulated Trading Exercises:

o Use of Trading Floor:

§ Students participate in simulated trading and portfolio management exercises using Bloomberg and LSEG Workspace.

o Assessment:

§ Performance in these simulations is assessed based on decision-making, strategy, and understanding of financial markets.

· Software Proficiency Tests:

o Tools:

§ Proficiency in financial software tools such as Bloomberg, Excel, and accounting software.

o Assessment:

§ Practical tests and assignments requiring the use of these tools to analyze data and solve financial problems.

· Case Studies and Real-World Scenarios:

o Application:

§ Analysis of real-world financial and accounting case studies.

o Assessment:

§ Written reports and presentations based on case study analysis.

· Audit Simulations:

o Exercises:

§ Simulated audit scenarios where students conduct mock audits.

o Assessment:

§ Evaluation based on the accuracy and thoroughness of audit procedures and reports.

2. Fieldwork Requirements:

- **Internships and Work Placements:**

- o **Opportunities:**

- § Students are encouraged to undertake internships or work placements with accounting firms, financial institutions, or corporate finance departments.

- o **Assessment:**

- § Work placement reports reflecting on the practical experience gained, challenges faced, and skills developed during the placement.

- **Field Trips:**

- o **Visits:**

- § Organized visits to financial institutions, audit firms, and corporate finance departments.

- o **Assessment:**

- § Reflective journals or reports based on observations and learnings from these visits.

3. Practical Projects:

- **Group Projects:**

- o **Collaboration:**

- § Team-based projects involving research, analysis, and presentation on practical financial problems.

- o **Assessment:**

- § Group presentations and written reports.

- **Individual Projects:**

- o **Research:**

- § Independent research projects on practical topics within accounting and finance.

- o **Assessment:**

- § **Dissertation or project report based on empirical research and practical application.**

4. Professional Development Modules:

- **Workshops and Seminars:**

- o **Sessions:**

- § **Professional development workshops and seminars focusing on practical skills like financial analysis, auditing techniques, and use of financial software.**

- o **Assessment:**

- § **Participation and practical assignments related to the skills taught in these sessions.**

- **Networking Events:**

- o **Opportunities:**

- § **Attendance at networking events with professionals from the accounting and finance industry.**

- o **Assessment:**

- § **Reflective reports on insights gained and potential career opportunities identified.**

5. Practical Skill-Building Activities:

- **Role-Playing Exercises:**

- o **Scenarios:**

- § **Role-playing exercises simulating financial decision-making, client interactions, and ethical dilemmas.**

- o **Assessment:**

- § **Performance evaluation based on decision-making, communication, and ethical considerations.**

By integrating these practical assessments and fieldwork components, the Accounting and Finance curriculum at DMU ensures that students not only acquire theoretical knowledge

but also develop the practical skills and real-world experience necessary for successful careers in accounting and finance.

13. What types of projects or case studies are included in the Strategic Decision Management module assessments?

Types of Projects and Case Studies in Strategic Decision Management:

1. Strategic Analysis and Planning Projects:

- o Scenario Analysis: Students analyze different scenarios and their potential impact on business strategies.**
- o Strategic Planning: Developing strategic plans based on industry trends, competitive analysis, and organizational goals.**

2. Business Simulation Exercises:

- o Market Simulation: Simulating market conditions to make strategic decisions regarding pricing, product development, and market entry.**
- o Competitive Strategy Simulation: Simulating competitive environments to devise and execute competitive strategies.**

3. Case Studies:

- o Industry-Specific Case Studies: Analyzing case studies from various industries to understand strategic decisions made by companies.**
- o Decision-Making Case Studies: Studying cases where strategic decisions led to success or failure, and evaluating the factors influencing those outcomes.**

4. Strategic Management Games:

- o Business Strategy Games: Participating in strategy games that simulate business environments and require strategic decision-making.**
- o Risk Management Games: Games focusing on risk assessment and management in strategic decision-making processes.**

5. Consulting Projects:

- o **Client-Based Projects:** Working on projects for real clients to develop strategic recommendations and implementation plans.
 - o **Problem-Solving Projects:** Addressing strategic challenges faced by organizations and proposing innovative solutions.
- 6. Research Projects:**
- o **Strategic Research:** Conducting research on strategic management theories, frameworks, or case studies to develop insights applicable to real-world scenarios.
 - o **Strategic Innovation:** Researching and proposing innovative strategies for business growth and sustainability.
- 7. Group Presentations:**
- o **Strategy Presentations:** Developing and presenting strategic plans, analyses, and recommendations to peers and instructors.
 - o **Case Study Analysis Presentations:** Presenting findings and insights from case study analyses, highlighting strategic decisions and their implications.
- 8. Strategic Decision Analysis:**
- o **Decision Trees and Models:** Using decision-making models like decision trees and scenario analysis to evaluate strategic options.
 - o **Quantitative Analysis:** Applying quantitative methods to analyze strategic decisions and their potential outcomes.

These types of assessments in the Strategic Decision Management module aim to develop students' critical thinking, analytical skills, and ability to make informed strategic decisions in complex business environments. Each assessment method provides practical experience in applying strategic management theories and frameworks to real-world challenges.

14. Do students have the option to choose elective modules outside the Accounting and Finance department

Elective Module Options:

1. Interdisciplinary Electives:

- o Students may have the option to choose modules from related disciplines such as Economics, Business Management, or even broader fields like Psychology or Sociology.

- o This allows students to diversify their knowledge base and tailor their education to their career interests or personal preferences.

2. Cross-Faculty Electives:

- o Some universities offer elective modules that span across different faculties or schools within the institution.

- o For example, students in Accounting and Finance might have the opportunity to take modules in Computer Science, Law, or Humanities.

3. Specific Elective Lists:

- o Institutions usually provide a list of elective modules available each academic year, detailing prerequisites and any restrictions.

- o Students can select from this list based on their academic goals and interests.

4. Career Enhancement Electives:

- o Electives may also focus on developing skills relevant to career aspirations, such as leadership, entrepreneurship, or digital skills.

- o This broadens students' skill sets and enhances their employability upon graduation.

Benefits of Choosing Electives Outside the Department:

- **Broadened Perspective:** Exposure to different disciplines fosters a holistic understanding of various aspects of business, society, and technology.

- **Skill Diversification:** Students can acquire complementary skills that enhance their primary field of study, such as data analysis, communication, or technical proficiency.

- **Personal Interest:** Electives allow students to explore subjects they are passionate about, potentially leading to new academic interests or career paths.

Administrative Considerations:

- **Prerequisites:** Some elective modules may require specific prior knowledge or prerequisites, which students must fulfill before enrollment.

- **Approval:** Depending on the institution's regulations, students may need approval from their academic advisor or department head to choose certain electives.

- **Credit Transfer:** Universities often ensure that elective credits can be transferred smoothly across departments, maintaining academic progression and degree requirements.

In summary, elective modules outside the Accounting and Finance department provide students at DMU with opportunities to customize their learning experience, gain diverse skills, and explore interdisciplinary interests relevant to their academic and career goals.

15.How are practical skills and theoretical knowledge balanced in the Accounting and Finance program assessments?

In the Accounting and Finance program at DMU, the assessments are designed to strike a balance between practical skills and theoretical knowledge, ensuring that students are well-prepared for real- world challenges in the financial sector. Here's how this balance is typically achieved:

Practical Skills Emphasis:

1. Simulated Exercises and Case Studies:

- o **Real-World Scenarios:** Assessments often include simulated exercises and case studies that mirror practical financial scenarios.
- o **Application of Skills:** Students are required to apply theoretical knowledge to analyze data, make financial decisions, and solve problems similar to those encountered in professional settings.

2. Software Proficiency Tests:

- o **Financial Tools:** Assessments may involve practical tests using financial software tools like Bloomberg, Excel, or specialized accounting software.
- o **Hands-On Application:** These tests measure students' ability to manipulate data, conduct financial analyses, and generate reports.

3. Workshops and Practicum Sessions:

- o **Skill-Building Workshops:** Workshops focus on developing practical skills such as financial modeling, budgeting, and risk assessment.

- o **Hands-On Learning:** Students participate in practicum sessions where they practice financial analysis techniques under the guidance of faculty or industry professionals.

Theoretical Knowledge Integration:

1. Theory-Based Assessments:

- o **Conceptual Understanding:** Written exams and essays assess students' grasp of theoretical concepts in accounting, finance, and related disciplines.
- o **Critical Analysis:** Students are expected to critically analyze theoretical frameworks, regulatory frameworks, and financial theories.

2. Research-Based Projects:

- o **Empirical Research:** Research projects require students to conduct empirical studies on financial topics, applying theoretical concepts to real-world data.
- o **Literature Reviews:** Assessments may include literature reviews where students explore current theories and their implications for financial practice.

Comprehensive Assessments:

1. Integrated Assignments:

- o **Multifaceted Projects:** Assignments often combine elements of practical application, theoretical analysis, and critical evaluation.
- o **Holistic Evaluation:** Students are evaluated based on their ability to integrate theoretical insights with practical skills to propose viable financial strategies or solutions.

2. Professional Development Focus:

- o **Career-Relevant Skills:** Assessments may incorporate components that evaluate students' readiness for professional roles, including communication skills, ethical reasoning, and teamwork.

Balancing Feedback and Improvement:

- 1. Formative Assessment:** Continuous feedback from instructors and peers helps students refine both their theoretical understanding and practical skills.
- 2. Reflective Practices:** Students engage in reflective practices, assessing their own performance in integrating theoretical concepts with practical applications.

Conclusion:

By integrating practical skill assessments with theoretical knowledge evaluations, DMU's Accounting and Finance program ensures that students develop a robust skill set essential for success in the dynamic field of finance. This balanced approach prepares graduates to excel in both academic pursuits and professional practice, fostering versatility and adaptability in their future careers.

16.What resources are available for Accounting and Finance students, such as labs and research facilities

Accounting and Finance students typically have access to a variety of resources aimed at enhancing their learning experience and supporting their academic pursuits. Here are some of the resources commonly available:

Academic Resources:

1. Library Facilities:

- o Financial Databases:** Access to specialized financial databases like Bloomberg Terminal, Thomson Reuters Eikon, or Datastream for financial research and analysis.
- o Textbooks and Journals:** Extensive collections of textbooks, academic journals, and publications related to accounting, finance, economics, and business.

2. Computer Labs:

- o Equipped with necessary software for financial modeling, data analysis, and accounting simulations.**
- o Access to statistical software packages like SPSS, SAS, or R for quantitative analysis.**

3. Trading Rooms or Simulated Trading Floors:

- o Real-Time Data: Facilities that simulate stock exchanges and financial markets, providing students with hands-on experience in trading, portfolio management, and financial analysis.**
- o Bloomberg Terminals: Access to Bloomberg Terminal for real-time financial market data, news, and analysis.**

Research Facilities:

1. Research Centers and Institutes:

- o Specialized centers focused on finance, accounting, and economic research.**
- o Opportunities for students to participate in research projects under faculty supervision.**

2. Access to Industry Experts:

- o Guest lectures, seminars, and workshops conducted by industry professionals and academic experts.**
- o Networking opportunities with practitioners in the finance and accounting sectors.**

Study Support Services:

1. Academic Support:

- o Tutoring and mentoring services to assist students with course materials and academic challenges.**
- o Writing centers to support academic writing and research paper preparation.**

2. Career Services:

- o Guidance on internships, placements, and career opportunities in accounting, finance, and related fields.**
- o Workshops on resume writing, interview skills, and career development strategies.**

Practical Learning Opportunities:

1. Internship and Placement Programs:

- o Opportunities for students to gain practical experience through internships at financial institutions, accounting firms, or corporate finance departments.**
- o Integration of practical learning into coursework through case studies, projects, and industry collaborations.**

Conclusion:

DMU provides robust resources and facilities designed to support Accounting and Finance students throughout their academic journey. These resources not only enhance theoretical understanding but also provide practical skills development and prepare students for successful careers in finance, accounting, and related fields.

17. How does DMU support students with learning disabilities in the Accounting and Finance program?

At DMU, students in the Accounting and Finance program can expect support tailored to their individual needs, including those with learning disabilities. Here's how DMU typically supports students in this regard:

Disability Support Services:

1. Accessibility Services:

- o Initial Assessment: DMU offers initial assessments to identify students' specific learning needs and disabilities.**
- o Individual Support Plans: Based on assessments, personalized support plans are developed to outline accommodations and adjustments needed for academic success.**

2. Specialist Advisors:

- o Dedicated Advisors: Specialist disability advisors are available to provide guidance and support throughout the student's academic journey.**
- o Accessible Information: Advisors ensure that course materials and information are accessible in formats suitable for students with disabilities.**

Academic Accommodations:

1. Exam and Assessment Adjustments:

- o Extra Time:** Students may receive extra time or breaks during exams to accommodate their specific needs.
- o Alternative Formats:** Provision of exams in alternative formats, such as digital or large print, for visually impaired students.

2. Assistive Technology:

- o Access to Software:** Provision of assistive technology and software to aid learning and study, such as screen readers, voice recognition software, and text-to-speech tools.
- o Accessible Facilities:** Access to accessible study spaces and IT facilities equipped with assistive technology.

Learning Support:

1. Study Skills Workshops:

- o Skill Development:** Workshops and seminars on study skills, time management, and academic writing tailored to the needs of students with disabilities.
- o Personalized Tutoring:** Individual tutoring sessions to address specific learning challenges and enhance academic performance.

Emotional and Practical Support:

1. Wellbeing Services:

- o Counseling and Wellbeing Support:** Access to counseling services and wellbeing support to address emotional and mental health concerns.
- o Peer Support Networks:** Peer support groups and networks where students can connect with peers facing similar challenges.

Inclusive Learning Environment:

1. Awareness and Training:

- o Staff Training:** Training for academic staff and faculty on inclusive teaching practices and supporting students with disabilities.
- o Accessibility Policies:** Implementation of policies and practices that promote inclusivity and accessibility across campus.

Conclusion:

DMU is committed to providing a supportive and inclusive learning environment for all students, including those with learning disabilities in the Accounting and Finance program. By offering personalized support plans, academic accommodations, assistive technology, and emotional support services, DMU ensures that every student has the opportunity to thrive academically and achieve their full potential.

18. Are there specialized software and tools available for Accounting and Finance students?

Yes, Accounting and Finance students at DMU typically have access to specialized software and tools that enhance their learning and practical skills in financial analysis, accounting, and related disciplines. Here are some of the commonly available software and tools:

1. Financial Modeling Software:

- o Excel:** Widely used for financial modeling, data analysis, and creating financial reports.
- o SPSS or SAS:** Statistical software for quantitative analysis and research in finance and economics.
- o R or Python:** Programming languages used for financial data analysis, algorithmic trading, and statistical modeling.

2. Accounting Software:

- o Sage:** Popular accounting software for small to medium-sized businesses, teaching fundamental accounting principles and practices.
- o QuickBooks:** Provides hands-on experience in financial accounting, payroll management, and budgeting.

3. Bloomberg Terminal:

- o Real-Time Market Data:** Provides access to real-time financial market data, news, analytics, and trading tools used by professionals worldwide.
- o Financial Analysis:** Students can analyze financial instruments, track market trends, and perform portfolio management exercises.

4. Thomson Reuters Eikon:

- o Financial Data Platform:** Offers comprehensive financial information, news, and analysis tools, essential for financial research and market analysis.
- o Integration with Excel:** Allows students to import data directly into Excel for further analysis and reporting.

5. Datastream:

- o Global Financial Data:** Provides historical financial data and time series analysis for global markets, supporting advanced financial research projects.

6. Accounting Information Systems (AIS):

- o Enterprise Resource Planning (ERP) Software:** Familiarizes students with integrated financial management systems used in large organizations.
- o Oracle Financials or SAP:** Examples of ERP systems used to manage accounting, finance, and business operations.

Benefits of Using Specialized Software:

- Hands-On Learning:** Students gain practical experience using industry-standard tools and software, preparing them for careers in accounting, finance, and related fields.
- Real-World Applications:** Enables students to simulate financial scenarios, conduct analysis, and make informed financial decisions using real-time data.
- Career Readiness:** Familiarity with these tools enhances students' employability and readiness to work in diverse financial roles across various industries.

By integrating these software and tools into coursework and practical exercises, DMU ensures that Accounting and Finance students acquire essential skills and competencies relevant to today's financial industry demands.

19. What software and technology do Accounting and Finance students have access to for their studies?

Here's an overview of the software and technology commonly available to these students:

Software for Financial Analysis and Accounting:

1. Microsoft Excel:

- o Used extensively for financial modeling, data analysis, creating financial statements, and conducting quantitative analysis.**

2. Statistical Software:

- o SPSS or SAS: Statistical packages used for analyzing data and conducting research in finance and economics.**

- o R or Python: Programming languages used for statistical computing, financial data analysis, and algorithmic trading.**

3. Accounting Software:

- o Sage: Accounting software for learning basic accounting principles, managing financial transactions, and generating reports.**

- o QuickBooks: Provides hands-on experience in financial accounting, payroll management, and budgeting.**

4. Financial Modeling Tools:

- o Tools and templates for building financial models, forecasting financial performance, and analyzing investment decisions.**

Financial Data and Market Analysis Tools:

1. Bloomberg Terminal:

- o Provides real-time financial market data, news, analytics, and trading tools used by professionals worldwide.**

- o Enables students to analyze financial instruments, track market trends, and simulate trading scenarios.

2. Thomson Reuters Eikon:

- o Offers comprehensive financial information, news, and analysis tools essential for financial research and market analysis.

- o Integration with Excel for importing data and performing advanced financial analysis.

3. Datastream:

- o Provides global financial data and time series analysis for researching historical financial trends and conducting economic analysis.

Enterprise Resource Planning (ERP) Systems:

1. Oracle Financials or SAP:

- o Examples of ERP systems used to manage accounting, finance, and business operations in large organizations.

- o Helps students understand integrated financial management and enterprise-level business processes.

Learning Management Systems (LMS) and Online Resources:

1. DMU's Virtual Learning Environment (VLE):

- o Provides access to course materials, lecture notes, assignments, and communication with instructors.

- o Supports online learning activities, discussions, and collaborative projects.

Access to Specialized Facilities:

1. Trading Rooms or Simulated Trading Floors:

- o Facilities equipped with Bloomberg Terminals, trading software, and financial analysis tools for hands-on trading simulations and portfolio management exercises.

2. Library Resources:

- o Access to financial databases, academic journals, textbooks, and research publications related to accounting, finance, and economics.

Conclusion:

DMU ensures that Accounting and Finance students have access to a comprehensive suite of software, technology tools, and learning resources that prepare them for careers in finance, accounting, and related fields. These resources facilitate hands-on learning, practical skill development, and proficiency with industry-standard tools essential for success in the financial industry.

20. Where can students find additional academic support services like tutoring or study groups in the Accounting and Finance department?

In the Accounting and Finance department at DMU (De Montfort University), students can access additional academic support services through various channels aimed at enhancing their learning experience and academic success. Here's where students typically find these services:

1. Academic Support and Guidance Office:

- o **Location:** Usually located within the department or centrally on campus.
- o **Services Offered:** Provides information on available tutoring services, study groups, and academic resources.
- o **Booking Appointments:** Students can schedule appointments with academic advisors or tutors for personalized support and guidance.

2. Tutoring and Mentoring Programs:

- o **Peer Tutoring:** DMU may have peer tutoring programs where senior students or graduate assistants provide tutoring sessions in specific courses or topics.
- o **Faculty Office Hours:** Professors and lecturers typically hold regular office hours where students can seek clarification on course materials, assignments, and academic guidance.

3. Learning Development Centers:

- o **Study Skills Workshops:** Workshops and seminars on academic skills, time management, note-taking, and exam preparation.
- o **Writing Support:** Assistance with academic writing, including essay structure, grammar, and citation styles.
- o **Math and Statistics Help:** Support for students needing assistance with quantitative methods and statistical analysis.

4. Online Resources and Virtual Support:

- o **Virtual Learning Environment (VLE):** Access to online resources, course materials, discussion forums, and announcements.
- o **E-Learning Modules:** Interactive modules and tutorials on specific topics related to accounting and finance courses.
- o **Online Tutoring Platforms:** Some universities offer virtual tutoring sessions via video conferencing or chat platforms.

5. Student Union and Clubs:

- o **Academic Societies:** Student-run societies related to accounting, finance, and economics may organize study groups, revision sessions, or guest lectures.
- o **Peer Study Groups:** Informal study groups organized by students to review course materials, discuss assignments, and prepare for exams.

6. Library Services:

- o **Research Support:** Librarians can assist with locating academic resources, accessing databases, and finding relevant literature for assignments and projects.
- o **Quiet Study Areas:** Dedicated study spaces within the library equipped with computers, printing facilities, and access to online journals and databases.

How to Access These Services:

- **Orientation Programs:** During orientation sessions, new students are typically introduced to available academic support services and how to access them.
- **Departmental Websites :** "<https://www.dmu.ac.uk/study/courses/undergraduate-courses/accounting-and-finance-bsc-degree/accounting-and-finance-bsc-hons.aspx>"
- **Student Gateway:** If you're a current student, you can use the Student Gateway, which is DMU's online portal for students <https://www.dmu.ac.uk/current->

[students/student-support/index.aspx](https://www.dmu.ac.uk/students/student-support/index.aspx). This could have contact details for the department or your program advisor.

• **General Contact:** De Montfort University also has a general contact page

<https://www.dmu.ac.uk/general/contact-us.aspx>. You can explain your inquiry and they can direct you to the appropriate department.

21. How do I apply for the program?

To apply for an undergraduate program at DMU (De Montfort University), you typically need to follow these steps:

- 1. Choose Your Program:** Select the undergraduate program you wish to apply for, such as Business Management, Accounting and Finance, Computer Science, etc.
- 2. Check Requirements:** Review the entry requirements for your chosen program on DMU's official website. This includes academic qualifications, English language proficiency (if applicable), and any specific prerequisites.
- 3. Prepare Documents:** Gather necessary documents for your application, which may include:
 - o Academic transcripts (high school or previous education)
 - o English language proficiency test scores (if required)
 - o Personal statement
 - o Letters of recommendation (if requested)
 - o Passport or ID
- 4. Apply Online:** Visit DMU's official website and navigate to the admissions section. Create an account (if required) and complete the online application form. Provide accurate information and upload the required documents.
- 5. Pay Application Fee:** Some programs may require an application fee. Check the specific requirements for your program and pay the fee as instructed.
- 6. Submit Application:** After completing the application form and uploading your documents, submit your application online. Make sure to double-check all information before submitting.

- 7. Track Application:** Monitor the status of your application through DMU's online portal or application tracking system. You may receive updates regarding your application status via email or the online portal.
- 8. Await Decision:** Once your application is submitted, DMU's admissions team will review it. You may be contacted for an interview or additional information if needed. Admission decisions are typically communicated via email or through the online application portal.
- 9. Accept Offer:** If accepted, you will receive an offer letter. Follow the instructions provided to accept the offer and secure your place in the program.

For the most accurate and detailed application process, visit DMU's official admissions website or contact their admissions office directly. They can provide specific guidance tailored to your chosen program and circumstances.

DMU's official admissions website

: <https://www.dmu.ac.uk/study/applying/admissions-offices.aspx>

**Admissions Office Gateway House Room 1.30 De Montfort University The Gateway
Leicester, LE1 9BH**

E: admissions@dmu.ac.uk T: (+44) 0116 207 8443

Admissions office opening times

Gateway House 1.10

Phone line: Monday to Friday 9am-4:30pm

Reception hours: Monday to Friday 9.30am-4:30pm

22. Is there a deadline to apply for the program?

For specific details about application deadlines for the Accounting and Finance program at DMU (De Montfort University), it is recommended to visit the university's official website or contact their admissions office directly. The deadlines can vary based on factors such as whether you are a UK/EU student or an international student, and they may differ from general university deadlines.

Here are general steps to find the information:

- 1. Visit DMU's Official Website: Navigate to the section dedicated to undergraduate admissions or specifically to the Accounting and Finance program.**
- 2. Check Program Details: Look for specific information about application deadlines for the Accounting and Finance program. This information may be under the "How to Apply" or "Entry Requirements" sections.**
- 3. Contact Admissions: If you cannot find the information online, contact DMU's admissions office. They can provide you with precise details about application deadlines, any specific requirements, and guidance on the application process.**
- 4. Considerations: Keep in mind that deadlines can vary annually, so ensure you are checking for the correct academic year's information.**

By following these steps, you will get the most accurate and current information regarding application deadlines for the Accounting and Finance program at DMU.

23. what are the entry criteria for Accounting and finance course ?

GCSEs

- Five GCSEs at grade 4 or above, including English and Maths.**

A Levels

- Typical offer is 112 UCAS points.**
- Studying at least two subjects at A Level or equivalent (e.g., BTEC).**

T Levels

- **Merit level.**

BTEC

- **BTEC National Diploma: Distinction/Distinction/Merit.**
- **BTEC Extended Diploma: Distinction/Distinction/Merit.**

Alternative Qualifications

- **QAA accredited Access to HE: Overall 112 UCAS tariff points with at least 30 Level 3 credits at Merit.**
- **English and Maths GCSE required as separate qualifications; equivalency is not accepted within the Access qualification.**
- **Normally requires students to have had a break from full-time education before undertaking the Access course.**

International Qualifications

- **International Baccalaureate: 26+ points.**

These criteria provide a clear outline of the qualifications and grades required for entry into the Accounting and Finance course at DMU. For the most accurate and personalized advice, especially regarding specific circumstances or alternative qualifications, it's advisable to contact DMU's admissions office directly or visit their official website. They can provide detailed guidance based on your individual situation and the current admissions requirements.

23How does DMU conduct teaching and assessment for the Accounting and Finance course?

How DMU conducts teaching and assessment for the Accounting and Finance course involves a combination of methods. Teaching includes lectures, tutorials, online resources, and self-directed study to deliver course content and support learning. Assessment methods emphasize research and analytical skills and may include portfolios, online tests, and exams. Students receive ongoing feedback to enhance their understanding and skills throughout the course.

24what are the accreditations for the accounting and finance course?

The Accounting and Finance course at DMU offers potential exemptions and professional qualification opportunities from several professional bodies. The accreditations and exemptions are designed to reflect the requirements of these professional bodies, ensuring students can benefit from the maximum exemptions available. The course is accredited or seeking accreditation from the following bodies:

- 1. Association of Chartered Certified Accountants (ACCA)**
- 2. Chartered Institute of Management Accountants (CIMA)**
- 3. Certified Practicing Accountants Australia (CPA)**
- 4. Institute of Chartered Accountants in England and Wales (ICAEW)**
- 5. Institute of Financial Accountants (IFA)**
- 6. Chartered Institute of Public Finance and Accountancy (CIPFA)**
- 7. Chartered Insurance Institute (CII)**
- 8. Association of International Accountants (AIA)**

These accreditations ensure that students can qualify for exemptions from professional exams, accelerating their path to becoming fully qualified accountants. This provides a significant employability advantage, as students with exemptions are more attractive to

employers who do not have to cover the costs of professional examinations or provide study leave.

AERONEUTICAL ENGINEERING

1. What are the core subjects covered in the first year to fourth year of the Aeronautical Engineering course?

the first year of the Aeronautical Engineering course at De Montfort University (DMU):

Year One

Block 1: General Engineering Tools and Principles 1

- **Mathematics: Fundamental principles necessary for engineering.**
- **Mechanical Principles (Solid Mechanics): Topics such as stress and strain, shear forces, torsion, and power transfer via shafts (e.g., in jet engines).**
- **Electronic Principles: Basics of electronic concepts relevant to all engineering disciplines.**

Block 2: General Engineering Tools and Principles 2

- **Mathematics: Continuation of principles from Block 1.**
- **Mechanical Principles (Dynamics): Concepts of motion, Newton's laws, linear and angular motion, friction, inertia, etc.**
- **Electronic Principles: Analysis of RLC circuits and operational amplifiers.**

Block 3: Fundamentals of Aeronautical Design 1

- **Aeronautical Principles with MATLAB: Flight mechanics, flight characteristics, and practical computational examples using MATLAB and Simulink.**

- **Computer Aided Engineering (CAE):** Application of CAE to aeronautical and mechanical problems using industry-standard CAD software.
- **Programming:** Basics of MATLAB programming for solving engineering problems.
- **Thermodynamics:** Work, heat, and mass transfer in aeronautical and mechanical systems (e.g., jet engines and components).

Block 4: Fundamentals of Aeronautical Design 2

- **Fundamentals of Aircraft Design with MATLAB:** Aircraft design process, structural layout, weight estimation, aerodynamic design, and landing gear design.
- **Computer Aided Engineering:** Advanced application of CAE, including Finite Element Analysis.
- **Programming:** Advanced MATLAB concepts for data handling and visualization.
- **Thermodynamics:** Further concepts in work, heat, mass transfer, polytropic processes, and thermodynamic cycles for jet engine analysis.

This structure ensures that students receive a comprehensive introduction to the essential tools, principles, and design concepts needed for a career in aeronautical engineering.

detailed module information for the second year of the Aeronautical Engineering BEng/MEng program:

Year Two Modules

Block 1: Mechanical, Energy and Aeronautical Tools and Principles

This module builds on the foundation laid in the first year by extending the Mathematical and Engineering concepts required for advanced study in aeronautical engineering. It introduces continuum systems, which include fluids where behavior cannot easily be modeled using discrete mechanics. The module has three parts:

- 1. Mathematical Part**
 - o Topics Covered:**

§ **Vector Calculus**

§ **Fourier Series**

§ **Partial Differential Equations**

§ **Numerical Methods**

o **Applications:** These mathematical concepts will be used in the other two parts of this module and in other modules taught later in the program.

2. Heat Transfer Part

o **Topics Covered:**

§ **Basics of Heat Transfer**

§ **Analysis of various modes of heat transfer via theoretical and empirical equations.**

3. Fluid Mechanics Part

o **Topics Covered:**

§ **Compressible and Incompressible Flows**

§ **Non-dimensional Parameters such as Reynolds Number and Mach Number**

§ **Bernoulli's Equation**

§ **Continuity Equation**

§ **Momentum Equations**

§ **Boundary Layer Analysis**

o **Applications:** These concepts are essential for understanding aircraft fuselage and wing design.

Block 2: Dynamics, Instrumentation and Control

This module covers the measurement and control of dynamic and other engineering systems. It consists of three parts:

1. Modelling and Analysis of Dynamic Systems

o **Topics Covered:**

§ **System Response**

§ **Free and Forced Oscillations**

§ **Modelling Physical Systems**

§ **Characteristic Equations**

§ **Natural Frequencies**

§ **Vibration Modes**

o **Applications:** Useful in understanding aircraft stability and control and in the design of aircraft control systems.

2. Instrumentation for Computer Control Systems

o **Topics Covered:**

§ **Principles of Interfacing and Instrumentation**

o **Applications:** Measurement of small disturbances in modern aircraft and mechanical systems to prevent instability.

3. Theory of Control Systems and Computer Control

o **Topics Covered:**

§ **Analysis and Design of Single-Input Single-Output Continuous and Digital Feedback Systems**

o **Applications:** Supported by computer-aided design studies using MATLAB/Simulink and practical laboratory experiments.

Block 3: Aircraft Structures and Flight Dynamics

This module studies the structures and materials used in modern aircraft within the context of their operation through flight dynamics. It has two parts:

1. Aircraft Structures

o **Topics Covered:**

§ **Airframe Structures such as Fuselage Frames, Wings, and Wing Ribs**

§ **Materials Used in Aircraft Manufacturing**

§ **Performance Assessment under Various Flight Envelopes**

- o **Applications:** Classical mechanistic techniques will be used for performance assessment.

2. Flight Dynamics

- o **Topics Covered:**

- § **Stability and Control of Aircraft**

- § **Aircraft Equations of Motion**

- § **Linearization of Equations of Motion**

- § **Longitudinal and Lateral/Directional Modes of Motion**

- § **Stability Augmentation**

- § **Classical Feedback Control Theory**

- o **Applications:** Practical work facilitated by MATLAB and Simulink.

Block 4: Design and Project Management

This module extends design concepts learned in earlier modules by running a term-long design project that must also be managed. Aeronautical Engineering is particularly concerned with systems where failure can be fatal, making project management essential.

1. Design Part

- o **Topics Covered:**

- § **Advanced Computer-Aided Design (CAD) Skills**

- § **Advanced Finite Element Analysis (FEA) Skills**

- o **Applications:** Analyzing aircraft components under varying loading and stress conditions.

2. Project Management Part

- o **Topics Covered:**

- § **Project Planning and Initiation**

- § **Budgeting, Costing, and Scheduling**

- § **Managing Stakeholder Expectations**

- § **Ensuring Safety and Minimizing Risk**

§ Quality Management

- o Applications: Preparing students for professional project management in their careers.**

detailed module information for the third year of the Aeronautical Engineering BEng/MEng program:

Year Three Modules

Block 1: Aerodynamics and Propulsion

This module focuses on the principles of aerodynamics and propulsion systems used in aircraft. It has two parts:

1. Aerodynamics Part

- o Topics Covered:**

§ Subsonic, Transonic, and Supersonic Aerodynamics

§ Boundary Layer Theory

§ Wing Theory

§ High-Lift Devices

§ Aerodynamic Design Considerations

- o Applications: Essential for understanding the aerodynamic performance of various aircraft configurations and the impact of different design choices on flight efficiency and stability.**

2. Propulsion Part

- o Topics Covered:**

§ Thermodynamic Cycles for Propulsion Systems

§ Turbojet, Turbofan, and Turboprop Engines

§ Rocket Propulsion

§ Performance Analysis of Propulsion Systems

§ Environmental Impact of Propulsion Systems

- o Applications: Understanding the principles and performance of different aircraft propulsion systems and their integration into overall aircraft design.**

Block 2: Aircraft Performance and Stability

This module covers the performance characteristics and stability of aircraft in various flight conditions. It consists of two parts:

1. Aircraft Performance Part

- o Topics Covered:**

§ Takeoff and Landing Performance

§ Climb Performance

§ Cruise Performance

§ Range and Endurance

§ Performance in Different Flight Phases

- o Applications: Critical for analyzing and optimizing the performance of aircraft in different operational scenarios.**

2. Aircraft Stability Part

- o Topics Covered:**

§ Static and Dynamic Stability

§ Longitudinal and Lateral-Directional Stability

§ Control Surface Effectiveness

§ Stability Derivatives

§ Handling Qualities

- o Applications: Essential for ensuring the safe and stable operation of aircraft in various flight conditions and for designing control systems that enhance stability.**

Block 3: Avionics and Aircraft Systems

This module introduces the electronic systems used in modern aircraft, as well as other key aircraft systems. It has two parts:

1. Avionics Part

o Topics Covered:

§ Communication Systems

§ Navigation Systems

§ Radar and Surveillance Systems

§ Flight Control Systems

§ Avionics Integration

o Applications: Understanding the role of avionics in aircraft operation and how they enhance safety, navigation, and control.

2. Aircraft Systems Part

o Topics Covered:

§ Electrical and Hydraulic Systems

§ Environmental Control Systems

§ Fuel Systems

§ Landing Gear Systems

§ Aircraft Maintenance and Diagnostics

o Applications: Essential for understanding the various systems that support aircraft operation and maintenance.

Block 4: Design and Research Project

This module involves an extensive design project and a research project that synthesizes the knowledge and skills acquired in earlier modules. It consists of two parts:

1. Design Project Part

- o **Topics Covered:**

- § **Advanced Design Techniques**

- § **Interdisciplinary Design Considerations**

- § **Simulation and Modeling**

- § **Prototype Development**

- § **Testing and Validation**

- o **Applications: Applying design principles to create innovative and practical solutions to complex aeronautical engineering problems.**

- 2. **Research Project Part**

- o **Topics Covered:**

- § **Research Methodologies**

- § **Literature Review**

- § **Experimental Design**

- § **Data Collection and Analysis**

- § **Report Writing and Presentation**

- o **Applications: Conducting original research in a specific area of aeronautical engineering, contributing to the body of knowledge in the field.**

Elective Modules

In addition to the core modules, students may choose from a range of elective modules to tailor their studies to their interests and career goals. Examples of elective modules include:

- **Advanced Materials for Aerospace Applications**
- **Aircraft Structural Analysis**
- **Helicopter Aerodynamics**
- **Spacecraft Systems and Design**
- **Unmanned Aerial Vehicles (UAVs)**
- **Human Factors in Aviation**

Year Four Modules

Block 1: Advanced Aerodynamics and Flight Mechanics

This module covers advanced topics in aerodynamics and flight mechanics, providing a deeper understanding of complex aerodynamic phenomena and flight dynamics.

1. Advanced Aerodynamics Part

o Topics Covered:

§ Computational Fluid Dynamics (CFD)

§ High-Speed Aerodynamics

§ Flow Control Techniques

§ Aeroelasticity

§ Aerodynamic Optimization

o Applications: Essential for solving complex aerodynamic problems and optimizing aircraft designs using advanced computational tools.

2. Flight Mechanics Part

o Topics Covered:

§ Advanced Flight Dynamics

§ Stability and Control of Non-Conventional Aircraft

§ Flight Simulation

§ Flight Testing Techniques

§ Advanced Flight Control Systems

o Applications: Critical for understanding the dynamic behavior of aircraft and developing advanced control systems for enhanced flight performance.

Block 2: Aerospace Structures and Materials

This module delves into the advanced analysis and design of aerospace structures, as well as the use of modern materials in aerospace applications.

1. Aerospace Structures Part

o Topics Covered:

§ Structural Dynamics

§ Finite Element Analysis (FEA)

§ Fatigue and Fracture Mechanics

§ Composite Structures

§ Structural Health Monitoring

o Applications: Essential for designing and analyzing robust aerospace structures capable of withstanding various operational stresses.

2. Aerospace Materials Part

o Topics Covered:

§ Advanced Composite Materials

§ High-Temperature Materials

§ Smart Materials

§ Material Characterization Techniques

§ Additive Manufacturing in Aerospace

o Applications: Understanding the properties and applications of advanced materials in aerospace engineering for improving performance and durability.

Block 3: Propulsion Systems and Turbomachinery

This module focuses on the advanced concepts in propulsion systems and the design and analysis of turbomachinery.

1. Propulsion Systems Part

o Topics Covered:

§ Advanced Jet Engines

§ Ramjets and Scramjets

§ Electric and Hybrid Propulsion

§ Environmental Impact and Emissions

§ Propulsion System Integration

o Applications: Critical for developing and optimizing advanced propulsion systems for modern and future aircraft.

2. Turbomachinery Part

o Topics Covered:

§ Turbomachinery Design Principles

§ Axial and Radial Flow Turbines

§ Compressor and Turbine Blade Design

§ Performance Testing and Analysis

§ Turbomachinery Cooling Techniques

o Applications: Essential for designing efficient and reliable turbomachinery components used in various aerospace propulsion systems.

Block 4: Capstone Design Project

The Capstone Design Project is a comprehensive team-based project that integrates knowledge from various modules to solve a complex aerospace engineering problem.

· Topics Covered:

o Project Planning and Management

o Interdisciplinary Design Challenges

o Systems Engineering Approach

o Prototyping and Testing

o Final Report and Presentation

· Applications: Provides hands-on experience in tackling real-world engineering challenges, fostering teamwork, and applying theoretical knowledge to practical design problems.

Elective Modules

Students may choose from a range of elective modules to tailor their studies to their interests and career goals. Examples of elective modules include:

- **Spacecraft Dynamics and Control**
- **Rotorcraft Design and Performance**
- **Aeroacoustics**
- **Aviation Safety and Risk Management**
- **Human Spaceflight Systems**
- **Advanced UAV Design**

2. Can you outline the key modules included in the second and third years of the Aeronautical Engineering program

Second Year Modules

Block 1: Aerodynamics and Fluid Mechanics

This module focuses on the principles of aerodynamics and fluid mechanics, providing a solid foundation for understanding airflow over aircraft surfaces.

1. Aerodynamics

o Topics Covered:

§ Fundamentals of Aerodynamics

§ Airfoil and Wing Theory

§ Boundary Layers

§ Lift and Drag

§ Flow Separation and Control

o Applications: Essential for analyzing and optimizing the aerodynamic performance of aircraft components.

2. Fluid Mechanics

o Topics Covered:

§ Fluid Statics and Dynamics

§ Continuity, Momentum, and Energy Equations

§ Viscous Flow and Turbulence

§ Compressible Flow

§ Introduction to Computational Fluid Dynamics (CFD)

o Applications: Provides the basis for understanding fluid behavior in various aerospace applications.

Block 2: Aircraft Structures and Materials

This module covers the fundamental principles of aircraft structures and the materials used in aerospace engineering.

1. Aircraft Structures

o Topics Covered:

§ Stress and Strain Analysis

§ Beam Theory

§ Structural Loadings

§ Buckling and Stability

§ Finite Element Method (FEM)

o Applications: Critical for designing and analyzing aircraft structures to ensure safety and reliability.

2. Materials Science

o Topics Covered:

§ Properties of Aerospace Materials

§ Metals and Alloys

§ Composites and Polymers

§ Material Selection and Testing

§ Corrosion and Fatigue

- o Applications: Understanding the properties and applications of various materials used in aircraft construction.**

Block 3: Propulsion Systems and Thermodynamics

This module introduces the principles of propulsion systems and thermodynamics, focusing on the basics of aircraft engines.

1. Propulsion Systems

- o Topics Covered:**

§ Types of Aircraft Engines

§ Jet Engine Components

§ Thrust Generation

§ Engine Performance

§ Introduction to Turbomachinery

- o Applications: Essential for understanding how aircraft engines operate and how to optimize their performance.**

2. Thermodynamics

- o Topics Covered:**

§ Laws of Thermodynamics

§ Thermodynamic Cycles

§ Heat Transfer

§ Combustion Processes

§ Gas Dynamics

- o Applications: Provides a foundation for analyzing energy systems and understanding the principles behind propulsion systems.**

Block 4: Flight Mechanics and Control

This module focuses on the principles of flight mechanics and the basics of aircraft control systems.

1. Flight Mechanics

o Topics Covered:

§ Aircraft Performance

§ Stability and Control

§ Aircraft Dynamics

§ Flight Testing and Data Analysis

§ Flight Simulation

o Applications: Critical for understanding the behavior of aircraft in flight and developing control systems to ensure stability and performance.

2. Control Systems

o Topics Covered:

§ Control Theory Basics

§ Feedback Systems

§ Stability Analysis

§ Control System Design

§ Application to Aerospace Systems

o Applications: Essential for designing and analyzing control systems used in aircraft and other aerospace vehicles.

Practical and Laboratory Work

Throughout the second year, students engage in practical and laboratory sessions to apply theoretical knowledge to real-world problems. These include wind tunnel testing, materials testing, and propulsion lab experiments.

Third Year Modules

Block 1: Advanced Aerodynamics and Computational Fluid Dynamics (CFD)

This module builds on basic aerodynamics, introducing advanced concepts and computational techniques.

1. Advanced Aerodynamics

o Topics Covered:

§ High-Speed Aerodynamics

§ Transonic and Supersonic Flow

§ Flow Separation and Control

§ Vortex Dynamics

§ Aeroelasticity

o Applications: Crucial for analyzing complex aerodynamic phenomena in high-speed flight.

2. Computational Fluid Dynamics (CFD)

o Topics Covered:

§ Introduction to CFD

§ Grid Generation and Meshing

§ Numerical Methods for Fluid Flow

§ Turbulence Modeling

§ CFD Applications in Aerospace Engineering

o Applications: Provides tools for simulating and analyzing fluid flow around aerospace structures using computational methods.

Block 2: Aircraft Design and Performance

This module covers the principles of aircraft design and performance analysis, focusing on the integration of various aerospace systems.

1. Aircraft Design

o Topics Covered:

§ Design Process and Methodology

§ Conceptual Design

§ Preliminary and Detailed Design

§ Systems Integration

§ Design Optimization

o Applications: Provides a comprehensive understanding of the aircraft design process, from initial concept to final product.

2. Aircraft Performance

o Topics Covered:

§ Performance Metrics

§ Climb, Cruise, and Descent Performance

§ Range and Endurance

§ Maneuverability and Handling Qualities

§ Performance Testing

o Applications: Essential for evaluating and optimizing the performance characteristics of aircraft.

Block 3: Aerospace Structures and Materials II

This module advances the knowledge of aerospace structures and materials, focusing on more complex analyses and modern materials.

1. Aerospace Structures II

o Topics Covered:

§ Advanced Structural Analysis

§ Structural Dynamics and Vibrations

§ Fatigue and Fracture Mechanics

§ Non-Destructive Testing (NDT)

§ Composite Structures

o Applications: Provides advanced tools for analyzing and ensuring the integrity of aerospace structures under various conditions.

2. Aerospace Materials II

o Topics Covered:

§ Advanced Composite Materials

§ High-Temperature Materials

§ Smart Materials

§ Material Characterization Techniques

§ Additive Manufacturing in Aerospace

o Applications: Understanding the properties and applications of advanced materials for improving performance and durability in aerospace engineering.

Block 4: Avionics and Instrumentation

This module covers the principles of avionics and the instrumentation systems used in aerospace applications.

1. Avionics

o Topics Covered:

§ Avionics Systems and Components

§ Navigation Systems

§ Communication Systems

§ Flight Control Systems

§ Avionics Integration

o Applications: Essential for understanding the electronic systems used in modern aircraft and spacecraft.

2. Instrumentation

- o **Topics Covered:**
 - § **Sensors and Transducers**
 - § **Data Acquisition Systems**
 - § **Signal Processing**
 - § **Instrumentation for Flight Testing**
 - § **Health Monitoring Systems**
- o **Applications:** Provides the knowledge required to design and implement instrumentation systems for various aerospace applications.

Practical and Laboratory Work

Throughout the third year, students engage in more advanced practical and laboratory sessions, including CFD simulations, structural testing, and avionics labs, to reinforce theoretical concepts and gain hands-on experience.

2. What practical skills do students acquire through the Aeronautical Engineering course at DMU?

Students enrolled in the Aeronautical Engineering course at De Montfort University (DMU) acquire a diverse set of practical skills throughout their studies. These skills are crucial for their development as competent aeronautical engineers and include:

Practical Skills Acquired

1. Aerodynamics and Fluid Mechanics

- **Wind Tunnel Testing:** Students learn to operate wind tunnels to test and analyze aerodynamic properties of various models.
- **Computational Fluid Dynamics (CFD):** Proficiency in using CFD software to simulate airflow and analyze aerodynamic performance.

2. Aircraft Structures and Materials

- **Material Testing:** Techniques for testing the mechanical properties of materials, including tensile, compression, and fatigue tests.
- **Finite Element Analysis (FEA):** Using FEA software to analyze stress, strain, and deformation in aircraft structures.
- **Composite Fabrication:** Hands-on experience in fabricating and testing composite materials.

3. Propulsion Systems

- **Engine Testing:** Practical experience in operating and testing various types of aircraft engines, including jet and piston engines.
- **Thermodynamics Experiments:** Conducting experiments to understand heat transfer, combustion, and thermodynamic cycles in propulsion systems.

4. Flight Mechanics and Control Systems

- **Flight Simulation:** Using flight simulators to understand aircraft dynamics, stability, and control.
- **Control Systems Design:** Designing and implementing control systems using software tools like MATLAB and Simulink.

5. Aircraft Design and Performance

- **Design Projects:** Participating in aircraft design projects that involve conceptual, preliminary, and detailed design phases.
- **Performance Analysis:** Using tools to analyze and optimize the performance metrics of aircraft, including range, endurance, and maneuverability.

6. Avionics and Instrumentation

- **Avionics Systems Integration:** Practical skills in integrating avionics systems, including navigation and communication systems.
- **Instrumentation Calibration:** Calibrating and using various sensors and transducers for data acquisition and flight testing.

7. Advanced Manufacturing Techniques

- **Additive Manufacturing:** Experience with 3D printing technologies for creating complex aerospace components.
- **Machining and Fabrication:** Skills in traditional and CNC machining for fabricating metal and composite parts.

8. Laboratory and Workshop Skills

- **Hands-On Lab Work:** Conducting experiments in fluid mechanics, thermodynamics, materials science, and propulsion in well-equipped labs.
- **Workshop Practices:** Training in workshop safety and the use of tools and equipment for manufacturing and assembly of aircraft components.

9. Project Management and Teamwork

- **Collaborative Projects:** Working in teams on engineering projects, fostering skills in communication, collaboration, and project management.
- **Presentation and Reporting:** Developing skills in presenting technical findings and writing detailed engineering reports.

10. Software and Simulation Tools

- **Engineering Software Proficiency:** Training in the use of industry-standard software such as ANSYS (for FEA and CFD), CATIA (for CAD), and LabVIEW (for instrumentation and control).

- **Simulation Tools:** Using software tools for simulating flight dynamics, structural analysis, and system behavior.

These practical skills are integrated throughout the curriculum and are reinforced through laboratory work, design projects, and hands-on experiences. By the end of their course, students are well-prepared to apply their knowledge in real-world aerospace engineering scenarios.

5. How is the curriculum structured in the Aeronautical Engineering department, and what topics are emphasized?

In the Aeronautical Engineering department at De Montfort University (DMU), the curriculum is structured to provide students with a comprehensive understanding of aerospace engineering principles, practical skills, and industry-relevant knowledge. The curriculum typically spans several years, with a focus on both foundational and specialized topics crucial to aeronautical engineering. Here's an overview of how the curriculum is structured and the key topics emphasized:

Curriculum Structure

1. Foundation Year (if applicable)

- **Introduction to Mathematics and Physics for Engineers.**
- **Basic Engineering Principles and Techniques.**
- **Academic Skills Development.**

2. First Year

- **Core Engineering Principles:**
 - o **Mathematics and Computing for Engineers.**
 - o **Engineering Mechanics.**
 - o **Materials Science and Engineering.**
 - o **Thermodynamics and Fluid Mechanics.**

- **Introduction to Aeronautical Engineering:**
 - o **Fundamentals of Aeronautics.**
 - o **Aircraft Structures and Materials.**
 - o **Introduction to Aerodynamics.**
- **Practical Skills Development:**
 - o **Laboratory Work in Fluid Mechanics and Thermodynamics.**
 - o **Hands-On Projects in Basic Engineering Design and Analysis.**

3. Second Year

- **Advanced Topics in Aeronautical Engineering:**
 - o **Aircraft Performance and Flight Mechanics.**
 - o **Aerospace Propulsion Systems.**
 - o **Aircraft Design and Structural Analysis.**
 - o **Avionics and Control Systems.**
- **Specialized Modules:**
 - o **Composite Materials in Aerospace Applications.**
 - o **Aircraft Systems Integration.**
 - o **Aeroelasticity and Structural Dynamics.**
- **Practical Applications:**
 - o **Wind Tunnel Testing and Computational Fluid Dynamics (CFD).**
 - o **Engine Testing and Performance Analysis.**
 - o **Advanced Aerospace Design Projects.**

4. Third Year

- **Advanced and Specialized Topics:**
 - o **Aeroacoustics and Noise Control.**

- o **Advanced Propulsion Systems.**
- o **Aerospace Vehicle Design and Optimization.**
- o **Aircraft Maintenance and Safety.**
- **Industry Placement or Research Project:**
- o **Optional Industry Placement (Internship) to gain practical experience in aeronautical engineering.**
- o **Research Project on a specialized topic, often culminating in a dissertation.**
- **Professional Development:**
- o **Engineering Ethics and Professional Practice.**

- o **Project Management and Team Leadership Skills.**

5. Optional Fourth Year (MEng)

- **Further Specialization:**
- o **Advanced Topics in Aerospace Engineering.**
- o **Research-led Projects or Extended Dissertation.**
- o **Professional Development in Aerospace Industry Standards and Practices.**
- **Integration of Theory and Practice:**
- o **Industry Collaboration Projects.**
- o **Advanced Simulation and Modeling Techniques.**

Emphasized Topics

- **Aerodynamics and Fluid Mechanics: Understanding airflow around aircraft and its effects on performance.**
- **Aircraft Structures and Materials: Design, analysis, and manufacturing of aerospace structures using advanced materials.**
- **Propulsion Systems: Study of jet engines, turbomachinery, and alternative propulsion technologies.**

- **Flight Mechanics and Control Systems:** Stability, control, and automation of aircraft systems.
- **Aircraft Design and Optimization:** Integration of aerodynamics, structures, and systems for optimal performance and efficiency.
- **Avionics and Instrumentation:** Navigation, communication, and electronic systems integration.
- **Advanced Manufacturing Techniques:** Additive manufacturing, composite fabrication, and precision machining.
- **Safety, Maintenance, and Regulations:** Compliance with aerospace safety standards, maintenance practices, and regulatory requirements.

The curriculum at DMU is designed to equip students with the theoretical knowledge, practical skills, and industry insights necessary to succeed in the field of aeronautical engineering. Practical applications, hands-on projects, and opportunities for industry engagement are integral parts of the learning experience, preparing graduates for careers in aircraft design, manufacturing, operations, and research.

6. What specific aerodynamic principles and techniques are taught in the Aerodynamics module?

In the Aerodynamics module of the Aeronautical Engineering course at De Montfort University (DMU), students are taught a range of specific principles and techniques that are fundamental to understanding the behavior of airflow around aircraft and other aerodynamic bodies. Here are some of the key topics typically covered:

Specific Aerodynamic Principles and Techniques

1. Fundamentals of Aerodynamics

- o **Continuity Equation:** Understanding the conservation of mass and its application in fluid dynamics.
- o **Bernoulli's Principle:** Explaining the relationship between fluid speed and pressure, crucial in understanding lift generation.
- o **Navier-Stokes Equations:** Introduction to the fundamental equations governing fluid flow, providing a basis for advanced analysis.

2. Flow Characteristics and Visualization

- o Streamlines, Pathlines, and Streaklines:** Visualization techniques to understand flow patterns around bodies and how they change over time.
- o Boundary Layer Theory:** Study of the thin layer of fluid adjacent to the surface where viscosity effects are significant, critical for understanding drag forces.

3. Airfoil Theory

- o Airfoil Shapes and Nomenclature:** Different types of airfoil profiles and their applications in aviation.
- o Lift and Drag Characteristics:** Analysis of lift coefficient, drag coefficient, and their dependencies on angle of attack and airspeed.
- o Flow Separation and Stall:** Causes and consequences of flow separation, leading to stall conditions and loss of lift.

4. Aerodynamic Forces and Moments

- o Lift Generation:** Mechanisms by which airfoils and wings generate lift, including circulation theory and Kutta-Joukowski theorem.
- o Drag Types and Reduction Techniques:** Parasitic drag, induced drag, and methods for drag reduction such as laminar flow control and wingtip devices.
- o Pitching Moment and Stability:** Factors influencing stability and control of aircraft, including effects of center of pressure and aerodynamic balance.

5. Wind Tunnel Testing and Computational Fluid Dynamics (CFD)

- o Wind Tunnel Experimentation:** Practical applications of aerodynamic principles through model testing, measuring forces and flow characteristics.
- o Computational Methods:** Introduction to CFD simulations for analyzing complex aerodynamic phenomena, validating theoretical predictions.

6. High-Speed and Low-Speed Aerodynamics

- o Supersonic and Hypersonic Flow:** Characteristics of airflow at speeds exceeding the speed of sound, shock waves, and compression effects.
- o Subsonic Flow and Aerodynamic Efficiency:** Optimization of wing shapes and aircraft configurations for fuel efficiency and performance.

7. Applications in Aircraft Design

- o Wing Design and Optimization:** Integration of aerodynamic principles in designing efficient and stable wing profiles.

- o **Aircraft Performance Analysis:** Calculating takeoff, climb, cruise, and landing performance based on aerodynamic data and operational parameters.

8. Advanced Topics

- o **Transonic Flow and Critical Mach Number:** Effects of approaching the speed of sound, including wave drag and airflow behavior.

- o **Unsteady Aerodynamics:** Response of aircraft to gusts, turbulence, and dynamic maneuvering conditions.

Practical Applications and Projects

- **Design Projects:** Applying aerodynamic principles to design and optimize aircraft wings, control surfaces, and other aerodynamic components.

- **Simulation Exercises:** Using software tools for CFD simulations to predict aerodynamic performance and validate theoretical concepts.

- **Laboratory Work:** Conducting wind tunnel experiments to observe and measure aerodynamic forces, validating theoretical calculations.

The Aerodynamics module at DMU not only focuses on theoretical foundations but also emphasizes practical applications and hands-on experience, preparing students for careers in aircraft design, aerospace engineering research, and related industries where aerodynamic expertise is crucial

6. Could you describe the learning outcomes for the core modules in the Aeronautical Engineering program?

Certainly! Here are the learning outcomes typically associated with core modules in the Aeronautical Engineering program, focusing on key areas of study:

Core Module Learning Outcomes

1. Mathematics for Engineers

- o **Apply mathematical techniques to solve engineering problems.**

- o Analyze and interpret engineering data using mathematical methods.**
- o Formulate and solve mathematical models relevant to aeronautical engineering.**

2. Introduction to Aerospace Engineering

- o Demonstrate understanding of the principles and applications of aerospace engineering.**
- o Analyze and interpret aerospace systems and their components.**
- o Evaluate the impact of aerospace engineering solutions on society and the environment.**

3. Aerodynamics

- o Explain fundamental aerodynamic principles and their applications in aircraft design.**
- o Analyze and predict aerodynamic forces and moments on aircraft components.**
- o Apply aerodynamic knowledge to optimize aircraft performance and efficiency.**

4. Aircraft Structures

- o Identify and classify different types of aircraft structures and materials.**
- o Analyze stresses and strains in aircraft structures under various loading conditions.**
- o Design and evaluate aircraft structures for strength, stiffness, and durability.**

5. Aircraft Propulsion

- o Describe the principles of aircraft propulsion systems and their components.**
- o Analyze and predict performance parameters of aircraft engines.**
- o Evaluate the efficiency and environmental impact of aircraft propulsion systems.**

6. Flight Dynamics and Control

- o Explain the principles of flight dynamics and aircraft control systems.**
- o Analyze aircraft stability and control characteristics.**
- o Design and simulate flight control systems to achieve desired aircraft behavior.**

7. Avionics and Systems

- o Identify and describe avionics systems and their integration into aircraft.**
- o Analyze avionics data for aircraft monitoring and control.**
- o Evaluate the impact of avionics systems on aircraft safety and performance.**

8. Engineering Design and Project Management

- o Apply engineering design methodologies to solve complex engineering problems.**

- o Plan, execute, and manage engineering projects effectively.
- o Collaborate in multidisciplinary teams to achieve engineering design objectives.

9. Professional Practice and Ethics

- o Demonstrate knowledge of professional codes of conduct and ethical principles.
- o Apply ethical reasoning to engineering decision-making and practices.
- o Communicate effectively and responsibly in professional engineering contexts.

10. Research Methods and Project

- o Apply research methods to investigate aeronautical engineering topics.
- o Plan and execute a research project, including data collection and analysis.
- o Communicate research findings effectively through technical reports and presentations.

Overall Program Outcomes

- **Technical Competence:** Demonstrate proficiency in applying engineering principles to solve practical problems in aeronautical engineering.
- **Analytical Skills:** Analyze and evaluate complex systems and data related to aerospace technology.
- **Design and Innovation:** Design innovative solutions that meet engineering specifications and industry standards.
- **Professionalism:** Apply professional and ethical standards in engineering practice, considering societal and environmental impacts.
- **Communication:** Communicate effectively with technical and non-technical audiences, both orally and in writing.
- **Teamwork:** Collaborate effectively in multidisciplinary teams to achieve common engineering goals.

These learning outcomes ensure that graduates from the Aeronautical Engineering program at De Montfort University (DMU) are well-prepared for careers in aerospace engineering, research, development, and related fields, equipped with both theoretical knowledge and practical skills necessary for success in the industry.

7. Are there any specialized modules or pathways available within the Aeronautical Engineering course?

In the Aeronautical Engineering course at DMU, there are often specialized modules or pathways that students can choose to tailor their studies to specific interests or career aspirations within the field of aeronautical engineering. Some of these specialized modules or pathways may include:

- 1. Advanced Aerodynamics: Focuses on advanced concepts in aerodynamics, including high-speed flow, transonic flow, and computational fluid dynamics (CFD).**
- 2. Composite Materials in Aerospace: Covers the design, manufacturing, and applications of composite materials in aircraft structures, emphasizing lightweight and high-strength materials.**
- 3. Flight Simulation and Control: Explores the principles and techniques of flight simulation, including flight dynamics modeling, control system design, and simulation software.**
- 4. Propulsion Systems: Provides in-depth knowledge of different types of aircraft propulsion systems, such as turbojets, turbofans, and turboprops, including their design, performance analysis, and environmental impact.**
- 5. Spacecraft Systems Engineering: Focuses on the design and operation of spacecraft systems, including orbital mechanics, spacecraft propulsion, and satellite communication systems.**
- 6. Avionics and Navigation: Covers advanced topics in avionics systems, including navigation aids, flight management systems, and electronic warfare systems used in modern aircraft.**
- 7. Aircraft Design and Optimization: Explores the principles and methodologies of aircraft design, including aerodynamic design optimization, structural design considerations, and performance analysis.**
- 8. Unmanned Aerial Systems (UAS): Focuses on the design, operation, and applications of unmanned aerial vehicles (drones), including autonomy, control systems, and regulations.**
- 9. Rotorcraft Engineering: Covers the design and operation of helicopters and other rotorcraft, including aerodynamics, flight dynamics, and structural considerations unique to rotary-wing aircraft.**
- 10. Aerospace Propulsion and Power: Provides advanced knowledge of aerospace propulsion systems, including gas turbines, rocket engines, and hybrid propulsion systems.**

These specialized modules or pathways allow students to deepen their knowledge in specific areas of interest within aeronautical engineering, preparing them for specialized roles in industry, research, or

further academic pursuits. Students may often choose these modules as part of their elective courses, depending on the curriculum structure and availability at their institution.

8. What aerospace theories and practices are covered in the Advanced Aerodynamics module?

In an Advanced Aerodynamics module within an aerospace engineering curriculum, students typically delve into more complex theories and practices beyond the fundamentals of aerodynamics. Here are some key topics that might be covered:

- 1. Transonic Flow: Understanding airflow at speeds approaching and beyond the speed of sound, including phenomena like shock waves, boundary layer interaction, and drag divergence.**
- 2. Supersonic and Hypersonic Flow: Exploring aerodynamics principles at very high speeds, covering shock wave formation, wave drag, and thermal effects on the aircraft structure.**
- 3. Computational Fluid Dynamics (CFD): Application of numerical methods to simulate fluid flow and heat transfer phenomena, used for aerodynamic analysis, design optimization, and performance prediction.**
- 4. Flow Control Techniques: Studying active and passive methods to manipulate airflow over surfaces for improved aerodynamic performance, including boundary layer control and vortex generation.**
- 5. Aeroelasticity: Understanding the interaction between aerodynamic forces and structural dynamics, including flutter analysis, dynamic response of wings, and control surface effectiveness.**
- 6. High-Lift Systems: Design and analysis of devices such as flaps, slats, and leading-edge devices used to increase lift during takeoff and landing phases of flight.**
- 7. Aeroacoustics: Studying the generation and propagation of noise from aerodynamic sources, including noise reduction techniques and regulatory standards for aircraft noise emissions.**

- 8. Wing Design and Optimization:** Techniques for designing efficient wing shapes based on aerodynamic performance requirements, including aspect ratio optimization, airfoil selection, and structural integration.
- 9. Boundary Layer Theory:** Understanding the characteristics of the thin layer of fluid adjacent to a surface, including laminar and turbulent boundary layers, boundary layer separation, and its impact on drag and lift.
- 10. Experimental Methods in Aerodynamics:** Introduction to wind tunnel testing, flow visualization techniques, pressure measurement, and data analysis methods used to validate theoretical models and simulations.

These topics equip students with advanced knowledge and skills necessary to tackle complex challenges in aerodynamics, contributing to the development of efficient and high-performance aerospace systems. Practical applications often include designing aircraft wings, optimizing airfoil shapes, and improving the overall aerodynamic efficiency of aerospace vehicles.

9. Can you explain the focus areas for students in terms of modules and projects in the Aeronautical Engineering program?

In an Aeronautical Engineering program, students typically focus on several key areas through specialized modules and projects. These areas are designed to provide comprehensive knowledge and practical skills necessary for a career in aerospace engineering. Here are some common focus areas:

1. Aerodynamics: Modules in aerodynamics focus on understanding airflow around aircraft surfaces, studying concepts like lift, drag, stall, and boundary layer effects. Projects may involve

designing wings, optimizing airfoil shapes, and using computational fluid dynamics (CFD) for analysis.

2. Propulsion Systems: Courses in propulsion cover topics such as jet engines, turbomachinery, combustion processes, and propulsion efficiency. Students may work on projects related to engine design, performance optimization, and sustainable propulsion technologies.

3. Structural Mechanics: Modules on structural mechanics delve into the analysis and design of aircraft structures, including materials selection, stress analysis, fatigue, and

fracture mechanics. Projects often involve designing and testing components for strength and durability.

4. Flight Mechanics and Control: These modules explore aircraft dynamics, stability, control systems, and flight performance. Students may work on projects involving flight simulation, autopilot design, and control system optimization.

5. Avionics and Systems Integration: Courses in avionics cover electronic systems, navigation, communication, and integration with aircraft systems. Projects may focus on designing and testing avionics components, data acquisition systems, and integration with flight controls.

6. Aircraft Design and Optimization: This area includes modules on aircraft conceptual design, configuration layout, performance estimation, and optimization techniques. Students often collaborate on projects to design new aircraft concepts or improve existing designs.

7. Materials and Manufacturing: These modules cover aerospace materials, manufacturing processes, composites, and advanced manufacturing technologies. Projects may involve material testing, process optimization, and development of aerospace components.

8. Space Systems Engineering: Some programs offer modules focusing on space systems, including orbital mechanics, satellite design, space propulsion, and mission planning. Projects may involve designing small satellites (CubeSats), orbital simulations, and space mission analysis.

9. Research and Development: Students may have opportunities to engage in research projects in collaboration with industry or academic institutions. These projects can cover a wide range of topics, from advanced aerodynamics to novel aerospace technologies.

By focusing on these areas through modules and hands-on projects, students gain a deep understanding of aerospace engineering principles and develop practical skills that prepare them for careers in aircraft design, manufacturing, operations, and research. These focus areas also align with industry demands and technological advancements in the aerospace sector.

10. What are the key focus areas of study in the Aircraft Structures module?

In an Aircraft Structures module within an Aeronautical Engineering program, the key focus areas of study typically include:

- 1. Structural Analysis:** Students learn methods for analyzing aircraft structures under various loading conditions, including static, dynamic, and fatigue loads. This involves understanding stress and strain distributions, deformation, and failure criteria.
- 2. Materials Selection and Properties:** The module covers different materials used in aircraft structures, such as metals (aluminum alloys, titanium alloys), composites (carbon fiber reinforced polymers, fiberglass), and their properties (strength, stiffness, fatigue resistance). Students learn how material properties influence structural design and performance.
- 3. Design Principles:** Emphasis is placed on structural design principles specific to aircraft, including load paths, stiffness requirements, and structural efficiency. Students study concepts

like beam theory, panel buckling, and torsional stiffness to design safe and efficient aircraft structures.

- 4. Manufacturing Techniques:** Understanding how aircraft structures are manufactured is crucial. Topics include machining, forming, welding, adhesive bonding, and composite layup processes. Students learn how manufacturing techniques affect structural integrity and performance.
- 5. Fatigue and Fracture Mechanics:** The module covers fatigue analysis methods and fracture mechanics principles relevant to aircraft structures. This includes understanding crack growth, stress concentrations, and the effect of cyclic loading on structural components.
- 6. Repair and Maintenance:** Students learn about aircraft structural maintenance practices, including inspection techniques, repair procedures, and damage tolerance considerations. This ensures they understand how to maintain structural integrity throughout an aircraft's service life.
- 7. Advanced Topics:** Depending on the program, advanced topics may include structural optimization techniques, finite element analysis (FEA) for structural simulation, structural health monitoring (SHM), and the application of smart materials in aircraft structures.
- 8. Project Work:** Practical application is often a significant component of the module. Students may engage in design projects where they apply their knowledge to design and analyze aircraft structural components or systems. This hands-on experience allows them to integrate theoretical knowledge with real-world challenges.

Overall, the Aircraft Structures module prepares students to understand, design, and analyze aircraft structural components with a focus on safety, efficiency, and durability. It equips them with the skills needed for careers in aircraft design, manufacturing, maintenance, and structural engineering within the aerospace industry.

11. How are assessments typically conducted in the Aeronautical Engineering course?

Assessment Methods

- 1. Exams:** Assess theoretical knowledge through unseen exams (traditional format) or open-book exams (allowing reference materials during the test).
- 2. Phase Tests:** These include multiple-choice tests to gauge understanding of specific topics covered in lectures or tutorials.
- 3. Group Presentations:** Assess collaborative and communication skills as students present findings from group projects or case studies.
- 4. Lab Exercises:** Individual practical assessments evaluate hands-on skills acquired in laboratory classes, focusing on accuracy, methodology, and interpretation of results.
- 5. Report Portfolios:** Compilations of reports from practical exercises and assignments provide evidence of learning outcomes achieved over the module.
- 6. Report and Essay Writing:** Develops writing skills and ability to critically analyze and discuss topics relevant to aeronautical engineering.

12. How is teaching and learning typically conducted in the Aeronautical Engineering course?

Teaching and Learning Methods

- 1. Lectures:** These form the core of theoretical teaching, providing fundamental knowledge in subjects like aerodynamics, aircraft structures, propulsion systems, and avionics.
- 2. Tutorials and Seminars:** These sessions complement lectures by offering smaller group discussions, problem-solving exercises, and deeper exploration of specific topics.
- 3. Workshops:** Practical workshops allow students to apply theoretical knowledge in hands-on activities, such as aircraft design exercises, engine component assembly, or materials testing.
- 4. Laboratory Classes:** Essential for practical skills development, these sessions involve experiments related to aerodynamics, materials science, and instrumentation used in aerospace engineering.
- 5. Research and Presentations:** Students engage in research tasks, culminating in presentations where they share findings on topics ranging from aerospace materials to flight dynamics.
- 6. Assignments:** Individual and group assignments are used to assess understanding of theoretical concepts and practical application through problem sets, case studies, and design projects.

Contact Hours and Independent Study

- **Module Delivery:** Courses are delivered in block mode, with each 30-credit module spanning a seven-week teaching block.
- **Contact Hours:** Typically, 16 hours of contact time per week, including lectures, tutorials, workshops, and labs.
- **Independent Study:** Students are expected to dedicate at least 19 hours per week to independent study, which includes research, assignments, preparation for exams, and project work.

13 Are there practical assessments or fieldwork requirements in the Aeronautical Engineering curriculum?

typical practices in aeronautical engineering programs, practical assessments and fieldwork requirements are indeed integral components of the curriculum. Here's how they are typically incorporated:

- 1. Laboratory Work:** Practical assessments often include hands-on experiments conducted in dedicated engineering laboratories. These exercises cover areas such as aerodynamics testing, materials science, structural analysis, and control systems.
- 2. Workshops and Design Exercises:** Students participate in workshops where they apply theoretical knowledge to practical scenarios. This may involve designing aircraft components, analyzing performance data, or troubleshooting engineering problems.
- 3. Field Trips and Site Visits:** Some courses include field trips to aerospace facilities, airports, or manufacturing plants. These visits provide firsthand exposure to industry practices, aircraft operations, and engineering challenges in real-world settings.
- 4. Industrial Placements or Internships:** Many programs offer opportunities for students to undertake industrial placements or internships with aerospace companies. These placements allow students to apply classroom learning in professional environments and gain valuable industry experience.
- 5. Project Work:** Capstone projects often involve designing, building, and testing components or systems related to aerospace engineering. This practical application of knowledge culminates in a final project presentation or demonstration.
- 6. Simulation Exercises:** Virtual simulations of aircraft operations, flight dynamics, and engineering scenarios may be used to supplement practical learning and provide a safe environment for experimentation.
- 7. Skills Development:** Practical assessments aim to develop skills such as teamwork, problem-solving, communication, and project management, all essential for a career in aeronautical engineering.

Overall, practical assessments and fieldwork play a crucial role in bridging theoretical knowledge with practical application, preparing students for the challenges and demands of the aerospace industry.

These experiences enhance learning outcomes and equip graduates with the skills necessary to innovate and contribute effectively to the field of aeronautical engineering.

14. What types of projects or case studies are included in the Aircraft Design module assessments?

In the Aircraft Design module of an aeronautical engineering program, assessments typically involve comprehensive projects and case studies that challenge students to apply their knowledge and skills in designing and analyzing aircraft systems. Here are some common types of projects and case studies included in such assessments:

- 1. Conceptual Design Projects:** Students are tasked with conceptualizing and designing new aircraft configurations or modifications to existing designs. This includes selecting appropriate aerodynamic profiles, structural layouts, propulsion systems, and avionics configurations based on specified mission requirements.
- 2. Performance Analysis and Optimization:** Case studies may involve detailed performance analysis of aircraft designs. Students perform calculations and simulations to assess parameters such as range, endurance, payload capacity, and fuel efficiency. They may also optimize the design to meet performance targets under various operational conditions.
- 3. Structural Design and Analysis:** Projects focus on structural integrity and load analysis of aircraft components. Students design wings, fuselage sections, and tail structures, considering material properties, stress distribution, and safety margins. Finite Element Analysis (FEA) and other tools may be used to validate designs.
- 4. Systems Integration:** Case studies explore the integration of complex systems within an aircraft, such as flight control systems, electrical systems, hydraulic systems, and environmental control systems. Students analyze interactions between subsystems and ensure compatibility and reliability.
- 5. Flight Dynamics and Control:** Projects involve studying aircraft stability, control surfaces, and flight dynamics characteristics through simulations and analysis. Students design control algorithms, assess stability margins, and predict handling qualities based on aerodynamic data.
- 6. Environmental Impact and Sustainability:** Some assessments focus on evaluating the environmental impact of aircraft designs. Students analyze factors such as noise levels, emissions, and fuel consumption to propose eco-friendly design alternatives or improvements.
- 7. Case Studies of Historical or Modern Aircraft:** Students may analyze the design evolution of specific aircraft models, such as the Boeing 747 or Airbus A380, considering technological advancements, operational requirements, and market trends.
- 8. Feasibility Studies and Cost Analysis:** Projects may include feasibility studies for new aircraft programs or modifications. Students conduct cost-benefit analyses, considering manufacturing costs, operational expenses, and market competitiveness.

9. Presentation and Documentation: Assessment often includes preparing detailed reports, technical drawings, and presentations to communicate design concepts, analyses, and recommendations effectively to stakeholders.

These projects and case studies are designed to simulate real-world engineering challenges, fostering critical thinking, problem-solving skills, and teamwork among students. They prepare aspiring aeronautical engineers for the complexities and demands of designing safe, efficient, and innovative aircraft solutions.

15. Do students have the option to choose elective modules outside the Aeronautical Engineering department?

At De Montfort University (DMU), the Aeronautical Engineering program provides students with opportunities to choose elective modules outside the core department to broaden their knowledge and skill set. Elective options typically include modules from related engineering disciplines or other fields that complement the study of aeronautical engineering. This flexibility allows students to tailor their education according to their interests and career aspirations within the aerospace industry. Specific details on the exact elective modules available can be found in the university's course catalog or through consultation with academic advisors at DMU.

16. What resources are available for Aeronautical Engineering students, such as labs and research facilities?

At DMU, Aeronautical Engineering students have access to several resources and facilities to support their studies and research. Here are some key resources available:

1. Dedicated Aeronautical Engineering Laboratories: These spaces are equipped with specialized equipment and tools tailored for aerodynamic studies, including a purpose-built subsonic wind tunnel for experimental investigations on various shapes and aircraft models.

2. Flight Simulator (AIRFOX DISO): DMU offers an industry-standard flight simulator that allows students to gain hands-on experience in flight performance, stability, and control of aircraft models. This simulator is instrumental in validating the performance of different aircraft models.

- 3. Kimberlin Library:** This main library on campus provides extensive resources in both print and digital formats. Students can access computer stations, laptops, plasma screens, and assistive technologies. The library also offers a wide range of e-books, specialized databases, electronic journals, and films that can be accessed remotely.
- 4. Learning Zones:** DMU provides dedicated spaces for group or individual study and work. These zones facilitate collaborative learning and offer access to additional resources and technologies to support academic pursuits.
- 5. Digital Learning Tools:** Students have access to various learning technologies such as the Virtual Learning Environment (VLE), Collaborate Ultra for virtual classrooms, DMU Replay for accessing lecture recordings, MS Teams for communication and collaboration, and Turnitin for academic integrity.
- 6. Specialized Support:** The library staff and learning services offer additional support to students, including help with academic writing, research strategies, literature searching, reference management, and assistive technologies. There are also online workshops, tutorials, drop-ins, and weekly live chat sessions available for academic support.

These resources collectively provide Aeronautical Engineering students at DMU with a comprehensive environment to enhance their learning, research, and practical skills in the field.

17. How does DMU support students with learning disabilities in the Aeronautical Engineering program?

DMU provides robust support for students with learning disabilities, ensuring they have equitable access to education and resources within the Aeronautical Engineering program. Here are some key ways DMU supports these students:

- 1. Universal Design for Learning (UDL):** DMU adopts a UDL approach to teaching and learning, which aims to provide a variety of support, facilities, and technologies that cater to diverse learning needs, including those with disabilities and specific learning differences.
- 2. DMU Replay:** This technology allows all students, including those with disabilities, to access audio and/or visual recordings of lectures. It enables students to revise taught material at their own pace and in a format that suits their learning preferences.
- 3. Specialist Support Services:** The university offers specialized support services through the Disability Advice and Support team. This includes personalized assistance, advice, and

guidance for students with disabilities to ensure they can access all aspects of university life, including academic resources and accommodations.

4. Assistive Technologies: DMU provides access to assistive technologies, such as screen readers, note-taking software, and other tools that aid in academic study and research. These technologies are available to help students overcome barriers related to their disabilities.

5. Accessible Facilities: Facilities across campus, including libraries, learning zones, and classrooms, are designed to be accessible. This includes wheelchair access, adjustable desks, and other accommodations to support students with physical disabilities.

6. Flexible Learning Options: The university offers flexible learning options and accommodations for assessments, ensuring that students with disabilities can demonstrate their knowledge and skills in ways that accommodate their needs.

7. Personalized Support Plans: Students with disabilities can work with the Disability Advice and Support team to develop personalized support plans. These plans outline specific accommodations and adjustments needed to facilitate their academic success and overall well-being.

By implementing these supportive measures, DMU strives to create an inclusive learning environment where all students, including those with learning disabilities, can thrive academically and pursue their career aspirations in Aeronautical Engineering and beyond.

19. Are there specialized software and tools available for Aeronautical Engineering students?

Yes, DMU provides specialized software and tools tailored for Aeronautical Engineering students to support their academic studies and research. Some of the key software and tools available include:

1. CAD Software: Computer-Aided Design (CAD) software is essential for designing and analyzing aircraft structures, components, and systems. Students often use industry-standard CAD tools like CATIA, SolidWorks, or AutoCAD.

2. CFD Software: Computational Fluid Dynamics (CFD) software allows students to simulate and analyze fluid flows around aircraft, wings, and other aerodynamic shapes. Examples include ANSYS Fluent, OpenFOAM, and Star-CCM+.

- 3. Flight Simulation Software:** DMU utilizes industry-standard flight simulation software such as AIRFOX DISO for practical training in flight performance, stability, and control of aircraft models.
- 4. Mathematical and Analytical Tools:** Software like MATLAB, Mathematica, and Maple are used for mathematical modeling, analysis, and simulation of aeronautical systems, including structural mechanics and aerodynamics.
- 5. Data Analysis and Visualization Tools:** Tools such as Python (with libraries like NumPy, SciPy, and Matplotlib), R, and Tableau are used for data analysis, statistical modeling, and visualizing results from experiments and simulations.
- 6. Project Management Tools:** Software like Microsoft Project or Trello may be used for managing aerospace projects, including scheduling tasks, resource allocation, and tracking progress.
- 7. Simulation and Testing Tools:** Depending on specific projects and modules, students may have access to tools for conducting physical experiments, such as wind tunnels, strain gauges, and vibration analysis equipment.
- 8. Learning Management Systems (LMS):** DMU uses platforms like Blackboard or Moodle to deliver course materials, assessments, and online resources. These systems support blended learning environments and provide access to lecture notes, assignments, and communication with instructors.

These software and tools are crucial for enhancing learning experiences, conducting research, and preparing students for careers in Aeronautical Engineering by providing hands-on experience with industry-standard technologies.

20. Where can students find additional academic support services like tutoring or study groups in the Aeronautical Engineering department?

Students in the Aeronautical Engineering department at DMU can access additional academic support services through several avenues:

- 1. Learning Zones:** These are dedicated spaces across the campus where students can study individually or in groups. They are equipped with facilities like computer stations, laptops for borrowing, and access to online resources. Students can also book rooms with technology for group work and presentations.

- 2. Library Services:** The Kimberlin Library serves as a hub for academic resources, offering a wide range of print materials, electronic journals, e-books, and specialized databases. Library staff provide support with academic writing, research strategies, literature searching, and reference management. Online tools such as DMU Replay, Collaborate Ultra, and MS Teams facilitate virtual learning and communication with tutors.
- 3. Digital Student Skills Hub:** This platform offers resources for improving study skills, including mind mapping, note-taking techniques, and access to LinkedIn Learning for additional educational content.
- 4. Peer Support and Study Groups:** DMU encourages peer learning through informal study groups and structured study sessions organized by student societies or academic departments. These groups provide opportunities for collaboration, sharing knowledge, and discussing course material.
- 5. Personal Tutoring:** Each student is assigned a personal tutor who provides academic guidance, monitors progress, and offers support throughout the academic year. Personal tutors are available to discuss coursework, assignments, and any academic concerns.
- 6. Drop-in Sessions and Workshops:** Learning Services at DMU organize drop-in sessions, workshops, and tutorials on specific subjects or academic skills. These sessions are designed to address common challenges students face and provide targeted support in areas such as writing essays, exam preparation, and using academic software.

By utilizing these resources, Aeronautical Engineering students can enhance their learning experience, improve academic performance, and develop essential skills for their future careers in the aerospace industry.

International Students

- 1. What is the percentage of international students at DMU?**

Approximately 20% of the student population at DMU are international students.

- 2. From how many countries do DMU's international students come?**

DMU's international students come from over 130 different countries.

3. Does DMU offer scholarships for international students?

Yes, DMU offers a variety of scholarships for international students, including the International Scholarship and the Vice-Chancellor's Scholarship and country-specific scholarships.

4. What is the DMU Global program?

The DMU Global program is an international experience initiative that offers students the opportunity to participate in overseas trips, internships, and other global activities.

5. What support services are available for international students at DMU?

DMU offers a range of support services for international students, including visa advice, academic support, and cultural adjustment assistance, and access to health and wellbeing services.

6. What are the English language requirements for international students at DMU?

The English language requirements vary by course, but generally, a minimum IELTS score of 6.0 with no component below 5.5 is required.

7. Does DMU provide pre-sessional English courses?

Yes, DMU offers pre-sessional English courses for students who need to improve their language skills before starting their degree program.

8. What are the living accommodation options for international students at DMU?

International students at DMU can choose from university-managed halls of residence or private accommodation options in Leicester.

9. How does DMU assist international students with settling into life in the UK?

DMU provides an international welcome week, orientation programs, and ongoing support to help international students settle into life in the UK.

10. Are there specific clubs or societies for international students at DMU?

Yes, DMU has a variety of clubs and societies catering to international students, including cultural and nationality-based groups.

11. How does DMU help international students settle into life in the UK?

DMU offers an international welcome week, orientation programs, and ongoing support to help international students adjust.

12. Are there specific clubs or societies for international students at DMU?

Yes, DMU has various cultural and nationality-based clubs and societies for international students.

Research at DMU

11. What are DMU's primary research strengths?

DMU's primary research strengths include health and life sciences, art and design, engineering, and business and law.

12. How is DMU's research funded?

DMU's research is funded through a combination of government grants, industry partnerships, and internal funding.

13. Does DMU offer research opportunities for undergraduate students?

Yes, DMU offers research opportunities for undergraduate students through programs like the Undergraduate Research Experience Scheme (URES).

14. What is the Leicester Media School known for in terms of research?

The Leicester Media School is known for its research in media production, journalism, and digital media.

15. What notable research projects have been conducted by DMU's School of Pharmacy?

Notable research projects from the School of Pharmacy include studies on drug delivery systems, cancer therapies, and public health interventions.

16. How does DMU support PhD students?

DMU supports PhD students through scholarships, research training programs, and dedicated supervision.

17. What is the Institute of Energy and Sustainable Development at DMU?

The Institute of Energy and Sustainable Development focuses on research in sustainable energy systems, environmental technology, and climate change mitigation.

18. What collaborative research initiatives does DMU participate in?

DMU participates in collaborative research initiatives with other universities, industry partners, and international organizations.

19. How does DMU contribute to the local community through its research?

DMU contributes to the local community through research projects that address regional issues, public health, and urban development.

20. What facilities are available for researchers at DMU?

DMU provides state-of-the-art research facilities, including laboratories, research centers, and specialized equipment.

International Partnerships

21. Does DMU have partnerships with international universities?

Yes, DMU has partnerships with numerous international universities for student exchanges, joint research, and academic collaboration.

22. What is the purpose of DMU's partnership with Nanjing University of Science and Technology?

The partnership aims to foster academic collaboration, student exchange programs, and joint research projects.

23. How does DMU support international research collaboration?

DMU supports international research collaboration through funding opportunities, partnership agreements, and international research networks.

24. What is the significance of DMU's partnership with the United Nations Academic Impact initiative?

This partnership underscores DMU's commitment to global education and research aimed at addressing pressing global challenges.

25. Are there dual degree programs available through DMU's international partnerships?

Yes, DMU offers dual degree programs in collaboration with some of its international partner universities.

26. What is DMU's approach to international student recruitment?

DMU's approach includes participating in international education fairs, working with global recruitment agents, and offering online resources for prospective students.

27. Q: How does DMU support international faculty collaboration?

DMU supports international faculty collaboration through joint research projects, visiting scholar programs, and international conferences.

28. What international conferences does DMU host?

DMU hosts various international conferences, such as the International Conference on Sustainable Design and Manufacturing and the DMU Global Health Conference.

29. Does DMU offer study abroad programs for its students?

Yes, DMU offers a range of study abroad programs through its DMU Global initiative, providing students with opportunities to study in countries around the world.

30. How does DMU engage with international alumni?

DMU engages with international alumni through events, networking opportunities, and regional alumni chapters.

Research Impact

31. What is DMU's research impact in the field of health sciences?

DMU's research in health sciences has led to advancements in areas such as diabetes treatment, mental health interventions, and public health policy.

32. How does DMU's research contribute to sustainability?

DMU's research contributes to sustainability through projects focused on renewable energy, sustainable urban planning, and environmental conservation.

33. What are some examples of DMU's impactful research in the arts and humanities?

Examples include research on cultural heritage preservation, innovative performance practices, and studies on the social impact of the arts.

34. How does DMU measure the impact of its research?

DMU measures research impact through metrics such as citation counts, industry partnerships, and real- world applications of research findings.

35. What role do DMU researchers play in influencing public policy?

36. DMU researchers contribute to public policy by providing evidence-based recommendations, participating in policy advisory boards, and engaging in public discourse.

37. Can you provide an example of a DMU research project that has had a significant societal impact?

One example is the research on antimicrobial resistance conducted by DMU's Health and Life Sciences faculty, which has informed global health strategies.

38. How does DMU ensure the ethical conduct of its research?

DMU ensures ethical research conduct through strict adherence to ethical guidelines, review boards, and ongoing ethics training for researchers.

39. What is DMU's approach to interdisciplinary research?

DMU encourages interdisciplinary research by fostering collaboration across different faculties and departments, promoting integrated research projects.

40. How has DMU's research influenced industry practices?

DMU's research has influenced industry practices in areas such as digital innovation, manufacturing processes, and business management strategies.

41. Q: What awards or recognition has DMU received for its research?

DMU has received numerous awards and recognition, including funding from prestigious organizations and accolades for its innovative research projects.

International Collaborations

41. What is the focus of DMU's research collaboration with Indian universities?

The focus includes areas such as technology, business management, and sustainable development.

42. How does DMU engage with the European research community?

DMU engages through participation in EU-funded projects, collaborations with European universities, and involvement in European research networks.

43. What research opportunities are available for DMU students in Asia?

DMU students have opportunities for research internships, collaborative projects, and exchange programs with Asian universities.

44. How does DMU support international research mobility?

DMU supports research mobility through funding for travel, exchange programs, and partnerships with international research institutions.

45. What is the impact of DMU's research in Africa?

DMU's research impact in Africa includes projects on public health, sustainable development, and educational advancements.

46. Can you name a specific international research project led by DMU?

One example is the project on renewable energy solutions in collaboration with universities in Africa and Europe.

47. How does DMU facilitate international research networking?

DMU facilitates networking through conferences, workshops, and online platforms that connect researchers globally.

48. What are the benefits of DMU's international research partnerships for students?

Benefits include access to global research opportunities, cross-cultural learning experiences, and enhanced career prospects.

49. How does DMU's research address global challenges?

DMU's research addresses global challenges by focusing on sustainable development, health innovations, and social equity.

50. What is DMU's strategy for expanding its international research collaborations?
DMU's strategy includes identifying strategic partners, increasing funding for international projects, and promoting global research initiatives.

Research Facilities and Resources

51. What specialized research facilities does DMU offer?

DMU offers specialized facilities such as the Leicester Institute for Pharmaceutical Innovation, the Cyber Technology Institute, and the Institute of Creative Technologies.

52. How does DMU's library support research activities?

DMU's library provides extensive resources, including access to academic journals, research databases, and expert librarian support.

53. What digital resources are available for DMU researchers?

Digital resources include online databases, research software, and virtual collaboration tools.

54. How does DMU ensure access to cutting-edge research technology?

DMU ensures access through investment in state-of-the-art equipment, research grants, and partnerships with technology providers.

55. What role do research centers play at DMU?

Research centers at DMU focus on specific areas of expertise, providing a hub for research activities, collaboration, and innovation.

56. Q: How are DMU's research labs equipped to support scientific research?

DMU's research labs are equipped with advanced technology, specialized equipment, and support staff to facilitate scientific research.

57. What funding opportunities are available for DMU researchers?

Funding opportunities include internal research grants, external funding from government bodies, and industry partnerships.

58. How does DMU's research office support grant applications?

The research office provides guidance on grant writing, funding opportunities, and application processes.

59. What training is available for DMU researchers?

Training includes workshops on research methodologies, grant writing, ethical research practices, and data analysis.

60. How does DMU support innovation and commercialization of research?

DMU supports innovation through programs like the Innovation Centre, providing resources for patent applications, business development, and commercialization.

Research Programs and Initiatives

61. What is the focus of DMU's PhD programs?

DMU's PhD programs focus on original research across various disciplines, fostering innovation and academic excellence.

62. How does DMU's Research Excellence Framework (REF) rating reflect its research quality?

DMU's REF rating demonstrates high-quality research outputs, significant impact, and a robust research environment.

63. Q: What interdisciplinary research initiatives are available at DMU? A: Initiatives include cross- faculty research projects, interdisciplinary research centers, and collaborative funding schemes.

64. What opportunities are there for DMU students to engage in research projects?

Opportunities include undergraduate research programs, internships, and participation in faculty-led research projects.

65. How does DMU promote research dissemination and publication?

DMU promotes dissemination through support for publishing in academic journals, presenting at conferences, and open access initiatives.

66. What is the focus of DMU's research in digital innovation?

The focus includes areas like cyber security, digital media, and the application of technology in creative industries.

67. How does DMU support community-based research?

DMU supports community-based research through partnerships with local organizations, participatory research methods, and projects addressing local issues.

68. What role do research assistants play at DMU?

Research assistants support faculty in conducting research, data collection, analysis, and dissemination of findings.

69. How does DMU integrate research into its teaching?

DMU integrates research into teaching by incorporating current research findings into curricula, offering research-led courses, and involving students in research projects.

70. What research opportunities are available for postgraduate students at DMU?
Postgraduate students can engage in research through master's theses, PhD projects, and involvement in faculty-led research initiatives.

Research Impact and Community Engagement

71. How does DMU's research address local community needs?

DMU's research addresses local needs through projects on public health, social welfare, and urban development.

72. What is DMU's approach to public engagement with research?

DMU's approach includes public lectures, community events, and collaborative projects with local stakeholders.

73. How has DMU's research influenced education practices?

DMU's research has influenced education practices through studies on teaching methodologies, curriculum development, and educational technology.

74. What are some examples of DMU's research in social sciences?

Examples include research on social policy, criminology, and cultural studies.

75. How does DMU's research contribute to policy development?

DMU's research contributes to policy development by providing evidence-based insights, engaging with policymakers, and participating in advisory panels.

76. What role does DMU play in national research initiatives?

DMU plays a role in national initiatives by participating in government-funded projects, contributing to national research agendas, and collaborating with other institutions.

77. How does DMU ensure the societal relevance of its research?

DMU ensures relevance by focusing on real-world problems, engaging with stakeholders, and applying research findings to societal challenges.

78. What impact has DMU's research had on healthcare practices?

DMU's research has impacted healthcare practices through innovations in medical treatments, health policy recommendations, and public health interventions.

79. How does DMU promote the visibility of its research?

DMU promotes visibility through media outreach, academic publications, and participation in international research forums.

80. What strategies does DMU use to enhance research impact?

Strategies include fostering industry partnerships, engaging with policymakers, and promoting interdisciplinary research.

Global Research Networks

81. What global research networks is DMU part of?

DMU is part of networks such as the Global Health Network, the International Sustainable Development Research Society, and the European University Association.

82. How does DMU leverage its global research networks?

DMU leverages these networks for collaborative projects, knowledge exchange, and access to global research funding.

83. What is the role of DMU's Global Research Institute?

The Global Research Institute focuses on addressing global challenges through interdisciplinary research and international collaboration.

84. How does DMU support early-career researchers in developing international collaborations?

DMU supports early-career researchers through mentorship programs, funding opportunities, and access to global research networks.

85. What are some key areas of research collaboration between DMU and North American universities?

Key areas include business and management, health sciences, and engineering.

86. How does DMU engage with research institutions in South America?

DMU engages through collaborative research projects, student exchange programs, and academic partnerships.

87. What impact has DMU's research had on international education?

DMU's research has impacted international education through studies on global learning practices, cross-cultural education, and educational policy.

88. How does DMU promote cross-cultural research collaboration?

DMU promotes cross-cultural collaboration by facilitating international research teams, offering cultural competence training, and supporting joint publications.

**89. What are some examples of DMU's research in environmental sustainability?
Examples include research on renewable energy systems, climate change adaptation, and sustainable urban development.**

90. How does DMU's research address global health issues?

DMU's research addresses global health issues through projects on infectious diseases, health equity, and health technology innovation.

Research Excellence and Recognition

91. What recognition has DMU received for its research excellence?

DMU has received recognition from organizations such as the Research Excellence Framework (REF), various research councils, and international academic bodies.

92. How does DMU ensure high standards in its research outputs?

DMU ensures high standards through rigorous peer review processes, adherence to ethical guidelines, and continuous quality improvement initiatives.

93. What awards have DMU researchers won for their work?

DMU researchers have won awards such as the Queen's Anniversary Prize, Horizon 2020 grants, and various industry-specific accolades.

94. How does DMU support the professional development of its researchers?

DMU supports professional development through training workshops, career development programs, and opportunities for research leadership roles.

95. What is the impact of DMU's research on industry innovation?

DMU's research impacts industry innovation through collaborative projects, technology transfer, and the development of new products and services.

96. How does DMU promote interdisciplinary research excellence?

DMU promotes interdisciplinary excellence by encouraging collaboration across departments, funding interdisciplinary projects, and hosting interdisciplinary research events.

97. What are some examples of DMU's innovative research projects?

Examples include projects on smart cities, digital healthcare solutions, and sustainable

ITMS Service Desk

The ITMS Service Desk offers comprehensive IT support to 2,700 staff and over 30,000 students around the clock. Here are the four main ways to get in touch:

1. Online Self-Service Portal - myITSupport

- **Access:** Available for current staff and students.
- **Function:** Log calls or faults and track their progress.
- **Response Times:** Requests are handled Monday to Friday, 08.00-17.00 (BST/GMT).

2. Email

- **Contact:** itmsservicedesk@dmu.ac.uk
- **Response Times:** Emails are answered Monday to Friday, 08.00-17.00 (BST/GMT).

3. Telephone

- **Numbers:**
 - International: +44 (0)116 250 6050
 - Internal: Ext 6050
- **Availability:** Staffed by in-house Service Desk during office hours and by a third-party provider outside of standard working hours.

4. In-Person Support

- **Location:** Ground floor of the Kimberlin Library.
- **Hours:**

- Monday & Friday: 08.45 – 17.00
- Tuesday – Thursday: 08.45 – 17.15
- *Excluding bank holidays.*

For Students Studying at an Overseas Location

- **Contact:** Email itmsservicedesk@dmu.ac.uk to request a call back.
- **Availability:** Provide a suitable UK time (09.00-17.00 GMT/BST) Monday to Friday.

Information Required When Contacting ITMS

Please have the following information ready:

- **Student or Staff ID:** "P" number from your ID card.
- **Full Name**
- **Contact Telephone Number**
- **Faculty, Department, or Overseas Campus**
- **Problem Details:** Include error messages and screenshots if emailing.

Brief History of DMU

Early Beginnings

- **Foundation:** DMU traces its origins to the Leicester School of Art, established in 1870. This institution expanded to become the Leicester Colleges of Art and Technology.
- **1966:** It was renamed the City of Leicester Polytechnic.
- **1992:** Under the Further and Higher Education Act, it gained university status and was renamed De Montfort University, after Simon de Montfort, a key figure in the establishment of the first parliament in 1265.

Development and Expansion

- **Campuses:** Initially, DMU had multiple campuses across the Midlands. In the early 2000s, the university consolidated its campuses to the Leicester city center.
- **Faculties and Schools:** DMU has a wide range of faculties, including Arts, Design, Humanities, Business and Law, Health and Life Sciences, and Computing, Engineering and Media.

Achievements and Recognition

- **Academic Excellence:** DMU is known for its strong emphasis on research, innovation, and industry partnerships. It has received accolades for its teaching quality and student satisfaction.

- **Community Engagement:** The university is actively involved in the local community and has several initiatives aimed at promoting social responsibility and sustainability.

Recent Developments

- **Campus Improvements:** In recent years, DMU has invested significantly in modernizing its campus facilities, including the construction of the Hugh Aston Building, the Queen Elizabeth II Diamond Jubilee Leisure Centre, and the Vijay Patel Building.
- **Global Outreach:** DMU has established international partnerships and offers various programs for overseas students, enhancing its global presence.

DMU continues to evolve, maintaining its commitment to providing high-quality education and fostering an inclusive and innovative learning environment.

Key Administrative Heads at DMU

Chancellor

- **Chancellor:** Vacant (The chancellor is a ceremonial figurehead, often a distinguished individual.)

Vice-Chancellor

- **Vice-Chancellor:** Professor Katie Normington
 - **Role:** The Vice-Chancellor is the chief executive officer of the university, responsible for its overall administration, academic leadership, and strategic direction.

Pro Vice-Chancellors and Deputy Vice-Chancellors

- **Deputy Vice-Chancellor:** Professor Andy Collop
 - **Role:** Oversees academic operations and supports the Vice-Chancellor in strategic planning and implementation.
- **Pro Vice-Chancellor, Research and Enterprise:** Professor Simon Bradbury
 - **Role:** Leads the university's research strategy, innovation, and enterprise activities.
- **Pro Vice-Chancellor, Academic:** Professor Jackie Labbe
 - **Role:** Focuses on academic policies, quality assurance, and curriculum development.
- **Pro Vice-Chancellor, International:** James Gardner
 - **Role:** Responsible for international partnerships, student recruitment, and global engagement.

Chief Operating Officer

- **Chief Operating Officer:** Steve Fisher
 - **Role:** Manages the university's administrative and support services, ensuring operational efficiency and effectiveness.

Registrar and Secretary

- **Registrar and Secretary:** Michael Mitchell
 - **Role:** Oversees governance, legal affairs, and academic registry services, ensuring compliance with regulatory requirements.

Deans of Faculties

- **Dean, Faculty of Arts, Design, and Humanities:** Professor Dana Arnold
- **Dean, Faculty of Business and Law:** Dr. Heather McLaughlin
- **Dean, Faculty of Health and Life Sciences:** Professor Ivan Browne
- **Dean, Faculty of Computing, Engineering, and Media:** Professor Matt Horton

These leaders are integral to the governance and administration of DMU, steering the university towards its strategic goals and ensuring the delivery of high-quality education and research.

University Leadership Board Membership at De Montfort University

- **Professor Katie Normington**
- **Role:** Vice-Chancellor
 - **Nikki Pierce**
- **Role:** Registrar (Academic) and Secretary to the Board of Governors
 - **Debbie Muddimer**
- **Role:** Executive Director of Finance and Procurement
 - **Tracey Jessup**
- **Role:** Chief Transformation Officer
 - **Professor Susan Orr**
- **Role:** Pro Vice-Chancellor Education and Equalities
 - **Professor Mike Kagioglou**
- **Role:** Pro Vice-Chancellor Research and Business Innovation
 - **Dr. Simon Oldroyd**

- **Role:** Pro Vice-Chancellor Sustainability and Dean of Health and Life Sciences
 - **Mr. Simon Bradbury**
- **Role:** Pro Vice-Chancellor International
 - **Jill Cowley**
- **Role:** Pro Vice-Chancellor Skills and Training and Dean of Arts, Design and Humanities
 - **Professor Heather McLaughlin**
- **Role:** Pro Vice-Chancellor Academic Staff Development, Dean of Business and Law
 - **Professor Shushma Patel**
- **Role:** Pro Vice-Chancellor Student Experience and Dean of Computing, Engineering and Media
 - **Melanie Fowler**
- **Role:** Executive Director of Marketing and Communications

2. School of Accounting & Finance

- **Email:** admin.afe@dmu.ac.uk

3. Law School

- **Email:** adminlaw@dmu.ac.uk

Address

- **Location:** Hugh Aston Building
- **University Address:**
 - De Montfort University
 - The Newarke, Leicester LE2 7BY
- **Hours:** Monday to Friday, 09:00 – 16:30

Additional Information

If you encounter any issues during the year, do not hesitate to reach out to the Student Advice Centre for prompt guidance on the necessary steps to take.

Who We Are

Our Mission

“Empowering students through guidance and support, our mission is to foster academic success, personal development, and well-being by providing expert advice, resources, and a welcoming environment at the Student Advice Centre.”

DMU Wellbeing Support

Our Wellbeing Team provides confidential support separate from your work, social, and family life. This service is available for addressing academic pressures, mental health and well-being concerns, and practical issues causing stress or worry. Appointments can be booked at any time throughout the year.

Find out more: Wellbeing

HealthyDMU

HealthyDMU is a university-wide approach to student wellbeing, designed to help you achieve your full potential. The program includes tools and activities focused on developing skills that support you in your studies and placements.

- **Masterclasses:** The Wellbeing Team offers a range of Healthy DMU Masterclasses that cover topics such as personal productivity, emotional awareness, resilience, assertive and confident communication, performing under pressure, and mindfulness.

Wellbeing and SPA (Single Point of Access)

DMU is proud of its diverse community and provides tailored support for those with mental health conditions, medical needs, or disabilities. UK home students might also access Disabled Students Allowance (DSA) for specialist 1:1 mental health and mentor support.

- **Contact:** wellbeing@dmu.ac.uk
- **SPA Appointments:** A 45-minute appointment to discuss your situation, receive advice, and get a referral to relevant support staff or external services. An action plan will be provided at the end of the appointment. Book via MyGateway.
- **Inform the University:** If you have a disability or mental health condition, please complete and submit the Student Support Consent form.

The **HealthyDMU Hub** offers information, hints, and tips to support your health and wellbeing. You can book Masterclass sessions, find tips for difficult times, learn about DSU societies, and register with a local GP.

DMU Disability Support

DMU is committed to providing exceptional support to help prospective and current students reach their full potential. Support and guidance are available for students with various impairments.

- **Appointments:** Book an appointment through MyGateway to discuss support requirements with a team member.

For more information, visit HealthyDMU and DMU Disability Support.

Disability Advice and Support at DMU

De Montfort University (DMU) is dedicated to providing outstanding support to help prospective and current students achieve their full potential. Here's an overview of the services and support available:

Types of Support Available

- **Visual or hearing impairment**
- **Autism, including Asperger's**
- **Physical impairments or mobility difficulties**
- **Long-term or progressive medical conditions** (e.g., diabetes, sickle cell anemia, epilepsy, cancer, HIV, arthritis, chronic fatigue syndrome)
- **Specific learning differences** (e.g., dyslexia, dyspraxia, dyscalculia)

Services Offered

- **Assistance with applying for Disabled Students' Allowances (DSAs)**
- **Referral for an Educational Psychologist assessment**
- **Referral for Autism Spectrum Disorder assessment**
- **Identification of individual reasonable adjustments**
- **Arrangements for study needs assessments**
- **Liaison with academic and other university departments**
- **Exam support**

DMU-CAN Closure

- **Assessments of Needs:** Visit gov.uk for nearby centers.
- **Existing Assessments:** Contact DSA_Team@slc.co.uk for further discussions.

Contact Information

- **Email:** disability@dmu.ac.uk
- **Appointments:** Book through MyGateway.

Assessments for Specific Learning Differences (SpLDs)

- **Screenings:** Available for dyslexia, dyspraxia, dyscalculia, Autism, and ADHD.
- **Booking:** Via MyGateway for small group sessions or individual appointments.

Support for ADHD

- **Screening Appointments:** Book through MyGateway.
- **Clinical Assessments:** Consider NHS referrals or private assessments.
- **Social Group:** Tuesdays at 12pm (term time) in the Breathing Space, Portland Building.
- **Contact for Existing Diagnoses:** Email sensory@dmu.ac.uk with your assessment report.

Support for Autism

- **Exploring a Diagnosis:** Email autism@dmu.ac.uk.
- **Final Year Students:** Will not be offered assessments but will receive study support.

Specific Learning Differences (SpLDs)

- **Screenings and Assessments:** Book through MyGateway.
- **Formal Diagnosis:** Email your assessment report to spld@dmu.ac.uk.

Delta Numbers

- Issued for medical and mental health conditions requiring emergency assistance.
- Contact: medcon@dmu.ac.uk or wellbeing@dmu.ac.uk.

Non-Medical Help (NMH)

- **Services:** Support assistants, mobility support, sighted guides, practical assistants, library support, note-taking, study assistants, and exam support.
- **Rates and Information:** Available on request. Contact nmh.support@dmu.ac.uk.

Contact Us

- **Student Gateway, Gateway House**
- **Phone:** +44 (0) 116 257 7595
- **Email:** disability@dmu.ac.uk

Faculty Engagement Officers (FEOs)

- **Arts, Design and Humanities:** Donna Neal & Hayley Coles, ADHengagement@dmu.ac.uk
- **Business and Law:** Sarah Stirk & Jo White, BAEngagement@dmu.ac.uk
- **Computing, Engineering and Media:** Christine Wise, CEMengagement@dmu.ac.uk
- **Health and Life Sciences:** Debbie Nixon, HLSengagement@dmu.ac.uk

Important Results Information for July 2024

Official Results Release Dates

- **4th July:** Undergraduate & Postgraduate (Non-block Teaching)
- **18th July:** Postgraduate (Block Teaching)
- **25th July:** Undergraduate (Block Teaching)

How to Access Your Results

- **Access:** Use the 'My Results' tile on your MyDMU dashboard.
- **Guide:** Refer to the My Results and Progression Quick Start Guide v1.4 for detailed instructions.

Re-submission Deadlines:

- **Undergraduate Students:** The deadline for reassessments and deferrals is 16th August 2024 by 12:00pm.
- **Non-Block Teaching Postgraduate Students:** The deadline for reassessments and deferrals is 6th September 2024 by 12:00pm.
- **Block Teaching Postgraduate Students:** The deadline for reassessments and deferrals is 20th September 2024 by 12:00pm.

Tips & Advice:

- Visit [Results Day Support](#) for guidance and support during the upcoming weeks, regardless of your academic outcomes.
- If you have any questions about your results, please reach out to your Student Advice Centres at dmu.ac.uk. For issues accessing the site, contact the ITMS Service Desk at dmu.ac.uk.

Important Note: These results are currently unratified and are indicative only. They may be subject to change following the main assessment boards in July.

1. Can I get my predicted mark?

- We can't provide predicted grades. However, you can obtain a module list to apply for postgraduate studies or other organizations. For undergraduates, the HEAR (Higher Education Achievement Report) transcript from previous years can be used. Login to [Digitary Core](#) to view your HEAR transcript. For module lists, please contact us via the contacts page on our website.

2. Can I get a signed and stamped letter with my predicted mark for the university or an organization?

- Unfortunately, we cannot provide this type of letter. For a transcript, refer to the Transcripts section in the FAQ menu.

3. Can I get a signed and stamped letter with my GPA?

- We cannot provide a standalone letter for your GPA. You can view your overall mark (GPA) on the HEAR transcript under "overall classification." If you need confirmation, we can verify it via email to the university or organization. Please refer to the Transcripts section for more information.

4. I can't see marks on the Learning Zone. What do I do?

- Ensure your work was submitted successfully and check for a receipt in your university email. If issues persist:
 - **Phone:** Refresh, log out/in, or try a computer.
 - **Computer:** Clear cookies, try a different browser. If the problem continues, contact your module leader. Allow 3-5 working days for a response.

5. When do I receive my official results?

- Official results are released after moderation, typically in September, November, February/March, and July. Check [My Marks](#) for updates on release dates.

6. When do I receive my provisional marks?

- Provisional marks are usually available around 15 working days after the submission deadline. Check the Learning Zone or contact your lecturer if you do not see them.

7. How do I see my marks?

- Access your provisional marks on the Learning Zone. For official results, log in to MyDMU. If you experience issues, follow troubleshooting steps or contact support.

8. What happens with my assignment after I submit it? How long do I have to wait for my mark?

- After submission, your assignment is marked, and provisional results are available within about 15 working days. Final marks are confirmed by the assessment board and published on MyDMU. Allow up to 3 weeks for provisional marks and several weeks for final results.

9. I passed but I want to improve my mark. What can I do?

- You cannot retake assignments for a higher mark. However, if you believe there was an error in your mark, you can submit an appeal through the academic support office within 15 working days of receiving your official results. Visit [Appeals \(dmu.ac.uk\)](https://dmu.ac.uk/appeals) for more details.

10. I can't see my results on MyDMU. What can I do?

- If you cannot see your results, try these steps:
 - **Phone:** Log out and in, or reinstall the app.
 - **Laptop/PC:** Clear cookies, use a different browser. If issues persist, contact support via the “Contact” page on our website.

11. I am waiting for my results and need a certificate or transcript to apply for further studies at the university. What can I do?

- Before results are officially released, you can request:
 - A module list showing your completed modules.
 - A course completion letter (contact the immigration and compliance team).
 - Use the HEAR transcript for past years if you are an undergraduate.
 - You can request an official transcript once results are released. Contact the immigration and compliance team for course completion letters.

Contact for Course Completion Letters:

- **Phone:** 0116 207 8780
- **Email:** immigrationcompliance@dmu.ac.uk

For further details, visit the Transcript section in the FAQ menu or contact support directly.

Induction for New Students:

- The induction process for new students is designed to ease the transition into your educational environment. It includes various activities, resources, and support services to help you become familiar with the institution, its culture, and the academic and social opportunities available.

How to Read Your Results:

- Understanding your academic results is essential. This section guides you through interpreting your results, what they mean, and the steps to take based on your performance.

Viewing Your Results and Progression

To view your module and component marks and check your progression to the next year of study, use the **My Results** tile in MyDMU. Here's how to navigate this process:

- **Accessing My Results:**
 - Sign in to MyDMU.
 - Go to the **My Results** tile to view your module and component marks.
 - Check for personalized advice related to your module results.
- **Security Measures:**
 - You will be asked to sign in again for additional security.
 - Ensure you close your browser when you're done and avoid sharing devices to protect your information.
- **Troubleshooting:**
 - **If you encounter issues with the tile:**
 - Contact your Faculty Student Advice Centre.
 - **For technical issues:**
 - Call the ITMS Service Desk at 0116 250 6050.
 - Email: itmsservicedesk@dmu.ac.uk
- **Additional Resources:**
 - Quick start guides, FAQs, and further information are available at [DMU MyDMU Changes](#).

Academic Regulations:

- Academic regulations provide the framework for your educational journey, ensuring fairness and integrity. They cover policies and procedures for progressing through your program and achieving your award. Regulations are applied to assessments and processed through an assessment board before results are released.

Current Academic Regulations:

- **Academic Regulations 2024/25**
- **Academic Regulations Digest 2024/25**
- **Final Year Integrated Masters Students Regulations 2024/25**
- **Undergraduate Level 4 and 5 Students and New Postgraduate Students Regulations 2023/24**
- **Digest of Changes to Level 4 and 5/New Postgraduate Students Regulations 2023/24**
- **Undergraduate Level 6 and 7 Students and Continuing Postgraduate Students Regulations 2023/24**
- **Digest of Changes to Level 6 and 7/Continuing Postgraduate Students Regulations 2023/24**
- **Regulations Guidance for Students on Sandwich Placement 2023/24**
- **Regulations Guidance for Students Taking a Break from Normal Study Patterns 2023/24**

University Ordinances:

- Information about the academic credit framework and how the university's qualifications fit within it can be found in the [Sector-recognized Standards Document](#).

Programme-Specific Regulations:

- Some programs have additional requirements known as programme-specific regulations, often set by Professional, Statutory, and Regulatory Bodies (PSRBs). These regulations apply to specific faculties and programs.

Contact Information for Programme-Specific Regulations:

- **Art, Design, and Humanities:**
 - Levels 4 and 5 and New PGT Regulations 2023-24
 - Level 6 and Continuing PGT Regulations 2023-24
 - Contact: Claire Orwin (CNO@dmu.ac.uk) or Caroline Smith (caroline.smith@dmu.ac.uk)
- **Business and Law:**
 - Levels 4 and 5 and New PGT Regulations 2023-24
 - Level 6 and Continuing PGT Regulations 2023-24
 - Contact: Chris Goldsmith (cgoldsmith@dmu.ac.uk) or Sarah Easton (sarah.easton@dmu.ac.uk)
- **Computing, Engineering, and Media:**
 - Levels 4 and 5 and New PGT Regulations 2023-24

- Level 6 and Continuing PGT Regulations 2023-24
- Contact: Zoe Allman (zallman@dmu.ac.uk) or Chris Fidler (cf@dmu.ac.uk)
- **Health and Life Sciences:**
 - Levels 4 and 5 and New PGT Regulations 2023-24
 - Level 6 and Continuing PGT Regulations 2023-24
 - Contact: Nicola Brooks (nbrooks01@dmu.ac.uk) or Emma Reith-Hall (emma.reith-hall@dmu.ac.uk)
- **Level 3/Year Zero Regulations:**
 - De Montfort University International College Level 3 Academic Regulations 2023/24
 - Contact Educational Partnerships (ep@dmu.ac.uk)

Recognition of Prior Learning (RPL):

- RPL allows recognition of prior learning to exempt students from studying certain modules.
 - **Guidance and Application Form:** Available on the [Guidance to the Recognition of Prior Learning](#) page.
 - **Submit Application:** Send to admissions@dmu.ac.uk

Midlands Credit Compass:

- For transferring between Midlands Credit Compass universities, apply as outlined on their web page. For applications to De Montfort University, email admissions@dmu.ac.uk with "Midlands Credit Compass" in the subject line.

DMU Students Seeking Transfer:

- If you do not achieve your intended award at DMU, you will receive a record of achievement. Use the RPL process to attempt to gain an award or apply to another institution for recognition of prior learning.

Changing Your Module

Whether you can change your module depends on a few factors. Here's a breakdown of the process:

Postgraduate Students

- **Changing Final Project:** If you want to change your final project, contact your Programme Administration Team before completing any forms. The change must be agreed upon before proceeding.

Block Teaching Students

- **Deadline for Changes:** The deadline to request a module change is the last day of WEEK 2 for each block. For example, if Block 4 started on April 22, 2024, the deadline would be May 3, 2024.
- **Procedure:**
 1. Complete the Change of Module form.
 2. Note that requests are not reviewed until the start of the appropriate block.
 3. Module change requests are not guaranteed to be accepted.

Non-Block Teaching Students

- **Deadline:** The deadline to request a change of module has passed, and requests are no longer being accepted.

For Block Teaching students, you can submit your request now, but it will be reviewed at the start of the appropriate block. If you need further assistance, please contact your Programme Administration Team or the relevant faculty office.

Personal Tutoring at DMU

Personal tutoring is a key component of your academic experience at DMU. Here's an overview of how it works:

What is Personal Tutoring?

- **Role:** Your Personal Tutor guides you through your studies, providing oversight of your overall progress.
- **Support:** They assist with academic advice, personal development, and employability skills. They can also help with navigating university processes and offer tailored references for future opportunities.

The Personal Tutoring Process

1. **Assignment:** Upon enrolling, you will be assigned a Personal Tutor.
2. **Early Engagement:** Establish a supportive relationship early to maximize benefits.
3. **Regular Meetings:** Meet regularly to discuss your progress and seek advice.
4. **Specialist Services:** Your tutor can connect you with specialist services and provide career guidance.
5. **Ongoing Contact:** Maintain contact throughout your studies for continuous support.

Why is Personal Tutoring Important?

- **Success:** Personal tutoring contributes to student retention, progression, and achievement.
- **Community:** It fosters a sense of belonging and helps guide your learning journey.

Finding Your Personal Tutor

- **Details:** Your Personal Tutor's name and contact details will be emailed to you during Welcome Week.
- **myDMU App:** You can find their information on the myDMU app under 'Student Overview' > 'My Personal Details'.
- **Contact:** If you can't find your tutor's details, contact askbalstudentadvice@dmu.ac.uk.

Meeting Your Personal Tutor

- **Method:** Meetings can be in-person, online, by email, or phone. Your tutor will specify their preferred method and availability.
- **Scheduling:** It's your responsibility to arrange meetings, not just wait for them to contact you.

When to Meet Your Personal Tutor

- **Initial Meeting:** Meet them during Welcome Week or Re-Induction.
- **Regular Meetings:** Aim for at least one meeting per block or term.
- **Proactive Communication:** Address any issues affecting your progress or wellbeing promptly.

How to Get the Most from Personal Tutoring

- **Respond Promptly:** Attend meetings regularly and inform your tutor if you can't make it.
- **Preparation:** Be prepared for meetings and complete any action points.
- **Build Relationship:** Develop a friendly, professional relationship and communicate openly about any issues.

What Your Personal Tutor Can Do

- **Academic Reflection:** Help you reflect on your academic progress and develop study skills.
- **Career Guidance:** Discuss career ambitions and offer references or referrals.
- **Support Services:** Refer you to specialist support services as needed.

What Your Personal Tutor Cannot Do

- **Administrative Issues:** Cannot resolve administrative problems but can direct you to the appropriate resources.
- **Counselling:** Cannot provide specialist counselling but can refer you to relevant support services.
- **Subject-Specific Guidance:** Cannot replace subject-specific staff but can connect you with them.

Your Personal Tutor is a valuable resource not just for resolving issues but also for ongoing development and celebrating your achievements.

Personal Tutoring at DMU: Overview and Key Points

At DMU, all undergraduate and postgraduate students have a designated Personal Tutor to support them throughout their studies. Here's how the personal tutoring system works:

Aim of Personal Tutoring

1. **Support:** Provide a named individual for students to go to for support.
2. **Progression:** Help students with their academic progression and identify any issues.
3. **Guidance:** Offer general advice and direct students to additional resources as needed.

Key Principles of Personal Tutoring

1. **Designated Tutor:** Every student has a Personal Tutor assigned for the duration of their study.
2. **Engagement:** Students should meet with their tutor at least twice per term in Year 1 and once per term in subsequent years.
3. **Partner Institutions:** Partner institutions may have their own approved personal tutoring schemes.
4. **Inter-Faculty Coordination:** Ensure effective personal tutoring systems across faculties.
5. **Induction:** Introduce new students to their Personal Tutor during Welcome Week.
6. **Welcome Back:** Continuing students should have a 'welcome back' meeting in the first three weeks of their return.
7. **Development Planning:** Personal Tutors will help with personal development planning.
8. **Monitoring:** Faculties are responsible for overseeing the personal tutoring system.

The Faculty's Responsibilities

1. **Allocation:** Ensure all students are assigned a Personal Tutor before their programme starts.
2. **Replacement:** Quickly assign a new tutor if the current one is unavailable or unsuitable.
3. **Equitable Distribution:** Ensure even distribution of tutees among staff.
4. **Data Provision:** Provide Personal Tutors with necessary data to support students.
5. **Engagement:** Work with the University Senior Tutor to maintain effective personal tutoring.

The Personal Tutor's Role

1. **Proactivity:** Engage proactively with tutees and arrange meetings.
2. **Induction and Welcome Back:** Meet with new students during induction and with returning students early in the term.
3. **Monitoring:** Track student attendance and engagement.
4. **Development Planning:** Provide regular opportunities for personal development planning.
5. **Specialist Services:** Be familiar with and refer students to specialist services as needed.
6. **Record Keeping:** Maintain accurate records using university systems.
7. **Training:** Complete mandatory training and seek additional development opportunities.
8. **Issue Reporting:** Notify the programme leader of any issues affecting the programme, while maintaining confidentiality.

Students' Responsibilities

1. **Engagement:** Actively engage with Personal Tutors and attend meetings.
2. **Development Planning:** Participate in Personal Development Planning and review progress.
3. **Support:** Seek additional support from module teams or specialist services if needed.
4. **Attendance:** Treat meetings with Personal Tutors as a priority and attend as agreed.
5. **Disclosure:** Share relevant issues with Personal Tutors that could impact academic or personal progress.
6. **Understanding Regulations:** Read and understand the regulations and policies related to their programme of study.

Maintaining regular communication with your Personal Tutor, whether in-person or virtually, ensures that your queries—whether academic or personal—are addressed effectively.

Remember, your Personal Tutor is a valuable resource not only for resolving issues but also for supporting your overall development and celebrating your achievements.

Developing Your Personal Tutor Relationship at DMU

Building a strong relationship with your Personal Tutor is key to your success and development throughout your studies. Here's how you can effectively engage with them:

How to Arrange Meetings

- **Proactive Engagement:** Take the initiative to contact your Personal Tutor. Don't wait for them to reach out first.
- **Preferred Method:** Your Personal Tutor will inform you of their preferred method for arranging meetings, such as via MS Bookings, Calendly, email, sign-up sheets, or drop-in sessions.
- **Communication:** Use your DMU University email for all communications. Ensure you contact them within normal working hours (Monday to Friday, 09:00 – 17:00, excluding university holidays).
- **Scheduling:** Be aware that academic staff have teaching, research, and faculty commitments. Schedule meetings in advance and respect their Advice and Feedback hours.

Purpose of Your Meetings

- **Academic Progress:** Discuss your academic progress, achievements, interests, and future directions.
- **Concerns:** Raise any concerns or difficulties you are experiencing. If you're struggling or feel unmotivated, your Personal Tutor can help you find solutions or additional support.
- **Broader Advice:** Use these meetings to get advice on areas beyond academics, such as personal development and career planning.

Suggested Timeline & Touchpoints

- **Welcome Week/Re-Induction:** Meet your Personal Tutor during these initial periods.
- **Regular Meetings:** Aim to meet with your Personal Tutor at least once during each block or term. The frequency and format (in-person, online, individual, or group) should be agreed upon with your tutor.

Touchpoints by Level:

- **Level 4 (and 7):** Transition to university, settling in, making friends, academic support, disability support, assessment feedback, module options, exam preparation, career planning, DMU Global opportunities.
- **Level 5:** Transition to Level 5, progress review, assessment feedback, module options/dissertation, career planning, placements or exchanges, development opportunities.
- **Level 6 (and 7):** Transition to Level 6/7, dissertation/project progress, exam preparation, results/degree classifications, career planning, further studies, CV and LinkedIn, preparing for life after university.

Useful Document: Personal Tutor Meeting – Preparation Worksheet

Additional Tips

- **Regular Contact:** Maintain regular contact and keep your tutor informed about your progress.
- **Active Participation:** Be proactive in discussing your academic and personal development.
- **Seek Help Early:** Don't hesitate to address any issues or concerns as soon as they arise.

Remember, your Personal Tutor is there to support your overall progress, help develop your personal skills, enhance employability, and connect you with other expert support as needed.

Personal Support Resources at DMU

Substance Support Clinic

- **No appointment necessary.** Get advice about drugs and alcohol.
- **When:** Wednesdays, 1:30 pm - 5:00 pm
- **Where:** De Montfort Student Union
- **More info:** [Drug and Alcohol Support](#)

In Crisis NOW?

- **Visit:** [Are you in crisis now?](#) for a list of support agencies and contacts.

Mental Health and Wellbeing Team

- **Single Point of Access (SPA) Appointments:**
 - **Duration:** 45 minutes
 - **Purpose:** Discuss concerns or worries about your wellbeing with a staff member. An action plan will be devised, including next steps.
 - **Booking:** Via MyGateway

De Montfort Students' Union (DSU) Crisis Cafe

- **When:** Tuesdays, 10:00 am - 3:00 pm
- **What:** Free mental health support for anyone aged over 18. Available for a chat or one-to-one emotional support from trained professionals.
- **Contact:**
 - **Call:** 07816 350 215
 - **Email:** mhm.leicestercrisiscafes@nhs.net
 - **Drop-in:** Campus Centre Building, Mill Lane LE2 7DR

HealthyDMU - Enhancing Your Wellbeing

Academic Support Resources

STUDIOSITY

- **Service:** 24/7 online support for written academic skills, including language, grammar, structure, basic referencing, and simple maths questions.
- **Features:** Connect Live for immediate questions or submit writing for feedback within 24 hours.
- **Access:** [Studiosity](#)

Library Open Programme Workshops

- **Purpose:** Provide inspiration and help with various aspects of academic work through short, 1-hour workshops.
- **Topics Include:**
 - Improving your critical writing skills
 - Planning and writing your report
 - How to cite and reference using the Harvard system
 - Using evidence in your writing
 - Managing work at Postgraduate level
 - Improving focus and attention
 - Writing when you don't want to write
 - Mindfulness for concentration and wellbeing
- **More Information:** [Open Programme Workshops - LibCal](#)

Library Student Resources

- **Purpose:** Offer quick access guides for developing academic work.
- **Popular Resources:**
 - Basic Essay Structure - Template
 - Basic Report Structure - Template
 - DMU Harvard Referencing Guide
 - Drafting, Editing, and Proofreading
 - Effective Presentations
 - Finding and Managing Information
 - Essay Writing
 - Time Management
- **Access:** [Student Resources - CLaSS - LibGuides](#)

Library Subject Guides

- **Purpose:** Provide subject-specific content and resources available through the library.
- **Access:** [Subject Guides](#)

Online Academic Drop-In Support

- **Purpose:** Offer support for academic writing, referencing, finding information, maths & statistics, and digital skills.
- **Access:** [Online Support](#)

BaseCamp

- **Purpose:** Online DMU resource for building confidence and accessing support in various areas such as teaching & learning, assessment, feedback, careers, and professional development.
- **Features:** Sections with activities to help understand skills needed for success, reflect on strengths and weaknesses, and recognize available support.
- **Access:** Available within LearningZone

Centre for English Language Learning (CELL)

- **Purpose:** Provide free, British Council accredited academic English and study skills support for international students.
- **Features:** Weekly online classes, self-study materials, and bookable one-to-one sessions.
- **Sign Up:** Email englishlanguage@dmu.ac.uk
- **More Information:** [Centre for English Language Learning](#)

International Students

Diversity & Cultural Richness

International students enrich the campus environment with their diverse cultural backgrounds, traditions, beliefs, and values. This diversity fosters a vibrant exchange of ideas and perspectives, enhancing the overall learning experience for everyone.

Challenges and Resilience

While international students face unique challenges, such as adapting to a new culture, language barriers, and unfamiliar academic systems, they often show great resilience and determination. Their ability to navigate these challenges highlights their adaptability and eagerness to learn.

BAL International Student Lecturers

Located on the first floor of the Hugh Aston building in rooms HU1.42 & HU1.43, this space is designed to support your transition to university. It provides a supportive environment for learning and cross-cultural interaction.

Services Offered:

- **Dedicated Faculty-Based Academic Support:** Focuses on developing your academic skills to help you achieve your full potential.
- **Personal Tutoring:** Academic tutors and course representatives offer personalized support and guidance.
- **Workshops and Events:** Resources and activities tailored specifically for international students to help with their studies.

Meet the Team:

- **Sumeya Loonat**
Senior International Student Lecturer
Email: sloonat@dmu.ac.uk
Phone: 0116 257 8484
- **Di Zhang**
Senior International Student Lecturer
Email: di.zhang@dmu.ac.uk
Phone: 0116 257 8553
- **Aasiya Aboo Alarakhia**
International Student Tutor
Email: aasiya.abooalarakhia@dmu.ac.uk
Phone: 0116 257 8484

International Students Welcome Week

Dates: Tuesday 30 January to Friday 02 February 2024

International Welcome Week offers a fantastic opportunity for new international students to settle in before starting their courses. During this week, you can receive vital information and support to help you adapt to life in the UK and meet fellow students.

Key Activities Include:

- **In-Person Information Sessions:**
 - Topics such as healthcare, opening a bank account, study skills, and working in the UK.
- **Campus and City Tours:**
 - Get to know the campus and explore the city of Leicester.
- **Social Events:**
 - Engage in activities like ten pin bowling and other events designed to help you connect with new students.
- **Optional Day Trip to Oxford:**
 - On Friday 02 February, book a day trip to Oxford.

Where to Go for Support:

- **Careers Support:**
 - Available at the DMU Careers Hub, located on the ground floor of the Hugh Aston building.
 - Learn more about career support, working during your studies, working after graduation, and the mentoring scheme.
- **English Language Support:**
 - Provided by the Centre for English Language Learning (CELL), which offers academic English support to all international students.
- **i-Buddies Scheme:**

- Designed to help you meet new people and settle in by pairing you with other students from both the UK and other countries.
- **BAL International Student Reps:**
 - They offer guidance and support throughout your university experience.
- **Visa Advice:**
 - For visa and immigration queries, consult the specialist Immigration and Visa Advisor at The Student Gateway.

Reference Requests:

- **Preparation:**
 - Maintain regular contact with your personal tutor and keep them informed about your academic progress. Arrange a meeting to discuss reference requirements if you haven't done so recently.
- **Permission:**
 - Always seek permission before using someone as a referee.
- **Notice:**
 - Give your personal tutor at least two weeks' notice before the reference deadline.
- **Inform:**
 - Notify your tutor in advance that you'll be requesting a reference.
- **Provide Information:**
 - Share your CV, LinkedIn profile, job description, and any specific criteria for the reference.
- **Be Clear and Polite:**
 - Clearly explain why you're requesting the reference and express appreciation for their support.
- **Follow Up:**
 - Check in with your tutor before the deadline to ensure they haven't forgotten and thank them for their assistance.
- **Backup Plan:**
 - Have an alternative reference provider in case your tutor is unavailable.

Being proactive and organized can help you ensure a smooth application process and a positive experience with your references.

To find your Personal Tutor's name and email address:

1. Open the myDMU app.
2. Go to **My Locker > My Info**, or select the '**Student Overview**' Tile.
3. In the '**Student Overview**' section, select '**My Personal Details**'.
4. Your Personal Tutor's name is listed under the '**Department**' header.
5. Select their name to view their email address.

If this information is blank or if you have any questions, contact **askbalstudentadvice@dmu.ac.uk**.

Getting Started at DMU

Your DMU Pre-Induction

What It Is: The DMU pre-induction is an online programme designed to help new students prepare for university life. It includes various units covering:

- Your faculty and programme
- Teaching and learning environment
- Academic and support services
- Tips for life as a DMU student

Purpose: The pre-induction aims to give you a head start and help you settle in quickly. It has been developed with input from current students to make your transition smoother. You will receive details on how to access this programme via email shortly before your course starts. Plan to spend a few hours completing it, but you can log in and out as needed.

What Is Induction?

Definition: Induction refers to a range of activities organized by the university, your faculty, your programme, and De Montfort Students' Union (DSU). These activities are designed to:

- Introduce you to the university's physical spaces (buildings, services)
- Help you connect with peers, tutors, and staff
- Immerse you in the university culture and help you maximize your time at DMU

Format: Induction activities will be a mix of online and in-person events. You'll be able to engage with various activities from the first weekend of your arrival, and many will be accessible throughout your first term or year.

Purpose: The induction aims to ensure you are well-acquainted with the university environment and ready to start your exciting DMU journey.

What Is Re-Induction?

Definition: Re-induction is for returning students, whether you're in your second or final year. It includes activities to:

- Help you transition to the next level of study
- Introduce new ways of studying, especially if you're engaging with blended learning

Format: Similar to the induction for new students, re-induction activities will include updates and activities that are relevant to your continued academic journey. Check Blackboard for important messages and announcements regarding re-induction.

Purpose: Re-induction ensures that you stay informed and supported as you progress through your studies and adapt to new academic challenges and opportunities.

How Will You Learn at DMU?

Inclusive Learning Practices: At DMU, we support diverse learning needs through inclusive practices like Universal Design for Learning and the Decolonising DMU initiative. These projects aim to tackle racial discrimination and ensure equality in education.

Learning Methods: Your learning experience will involve a mix of face-to-face and virtual platforms. You may use tools such as:

- **Blackboard Collaborate**
- **Microsoft Teams**
- **In-person classes**

Types of Delivery:

1. Synchronous Delivery:

- **Definition:** Live sessions scheduled on your timetable where you participate in real-time.
- **Examples:**
 - Streaming video platforms
 - Live chats (individual or course-wide)
 - Live engagement on discussion forums
 - Web conferencing tools
 - Supervision meetings
 - Student participation in group work

2. Asynchronous Delivery:

- **Definition:** Standalone, pre-recorded content that you can access at any time, allowing for flexible learning.

- **Examples:**

- Pre-recorded teaching sessions in PowerPoint with or without voiceover
- Pre-recorded teaching sessions in DMU Replay
- Podcasts, videos, and radio
- Blogs
- Broadcast media
- Links to journal articles or online data sets
- Interactive knowledge checks
- Recorded practical demonstrations
- Forum or discussion boards
- Student-developed or co-created materials

By providing a range of delivery methods, DMU aims to cater to different learning styles and needs, ensuring that every student can engage with the content in a way that suits them best.

Types of Sessions at DMU

1. Online Lecture

- **Description:** Formal teaching sessions designed to provide information online. They include interactive educational content to engage students.
- **Typical Format:** Asynchronous
- **Features:** Video lectures, interactive elements

2. Online Seminar

- **Description:** Smaller group meetings on platforms like Collaborate or Microsoft Teams, allowing synchronous learning with peers and academic staff.
- **Typical Format:** Synchronous
- **Features:** Timetabled group discussions, real-time interaction

3. Online Tutorial

- **Description:** Individual or small group meetings with a lecturer for learning support or to clarify challenging concepts. This could include support for dissertation students.
- **Typical Format:** Synchronous
- **Features:** Direct engagement, support through Microsoft Teams

4. Online Workshop

- **Description:** Timetabled synchronous sessions focusing on intensive discussion and activity on specific subjects or projects. May involve practical or theoretical concepts.
- **Typical Format:** Synchronous
- **Features:** Interactive sessions, experiential learning

5. Workshop Sessions

- **Description:** Remote access to IT labs or other resources for practical sessions. Includes clear guidance on session protocols.
- **Typical Format:** Timetabled
- **Features:** Access to labs, structured guidance

6. Online Lab

- **Description:** Interactive sessions for experimental learning, typically arranged through specialist IT solutions. May be recorded for asynchronous review.
- **Typical Format:** Synchronous
- **Features:** Experimental platforms, timetabled sessions

7. Online Discussion

- **Description:** Safe spaces for exchanging ideas or clarifying understanding with peers or lecturers. Available synchronously or asynchronously through discussion forums.
- **Typical Format:** Synchronous or Asynchronous
- **Features:** Forums, idea development

8. Online Demonstration

- **Description:** Pre-recorded videos showing practical skills that you may later apply in practical sessions.
- **Typical Format:** Asynchronous
- **Features:** Practical skill demonstrations

9. Online Simulation

- **Description:** Sessions providing simulations to reinforce key concepts, allowing exploration in a real-world context. Supported by open source content.
- **Typical Format:** Synchronous or Asynchronous
- **Features:** Simulations, real-world applications

10. Online Case Studies

- **Description:** Cases developed to apply knowledge to real or imagined situations. Encourages critical learning and research skills.
- **Typical Format:** Asynchronous
- **Features:** Case analysis, group or individual responses

11. Online Problem-Based Learning

- **Description:** Utilizes discussion boards, chat rooms, and wikis for problem-based learning. Can be led by lecturers or peer-supported.
- **Typical Format:** Synchronous or Asynchronous
- **Features:** Problem-solving discussions, collaborative learning

12. Online Guided Learning

- **Description:** Independent learning sessions supported by resources and tools for investigation, review, and reflection. Not timetabled.
- **Typical Format:** Asynchronous
- **Features:** Independent study, self-guided exploration

Blackboard at DMU

Blackboard is a web-based virtual learning environment designed to support your learning experience at DMU. It provides access to various online resources and tools from any computer with internet access.

Key Features of Blackboard:

1. **Community Site**
 - **Purpose:** Provides information about your faculty.
 - **Features:** Updates, announcements, and general faculty-related information.
2. **Programme Site**
 - **Purpose:** Contains information about your course.
 - **Features:** Course materials, announcements, and a platform for interaction with other students in your course.
3. **Module Sites**
 - **Purpose:** Contains information about the individual modules you are studying.
 - **Features:** Detailed module content, assignments, and interaction with other students studying that module.

Accessing Blackboard:

- **How to Log In:** Visit the Blackboard login page and enter your DMU credentials.
- **Where to Find:** You can access Blackboard through the DMU website or directly at the Blackboard portal.

Benefits:

- **Flexibility:** Access course materials and participate in discussions anytime, from anywhere.
- **Integration:** Central hub for all course-related activities, including assignments and communication with peers and faculty.

Make sure to regularly check Blackboard for updates and new materials related to your studies.

Tips for Learning at DMU

To make the most of your academic experience at DMU, remember to **be prepared, be proactive, and interact**. Here are some tips to help you get started:

Be Prepared

1. **Learn the Platforms:**
 - **Microsoft Teams & Blackboard:** Familiarize yourself with these online platforms for class activities. Check out the Student Learning Technologies Hub for tutorials and support.
 - **Digital Skills Support:** Access resources through the Library's Student Digital Skills Hub for help with digital tools and software.
2. **Read Handbooks:**
 - **Programme & Module Handbooks:** Understand the structure and key dates. Access these on Blackboard and mark important dates in your calendar.
3. **Digital Capabilities Certificate:**
 - **Certification:** Complete the digital capabilities certificate available on your faculty Blackboard shell. This will be noted in your Higher Education Achievement Report and provide a DMU completion certificate.
4. **Library Resources:**
 - **Subject Guides & Support:** Utilize online resources and support from the Library website, including bookable tutorials and workshops. Access the Library website for more information.
5. **LinkedIn Learning:**
 - **Skill Development:** Access over 15,000 video tutorials on LinkedIn Learning through DMU. Use it to develop additional skills and link achievements to your LinkedIn profile.
6. **Understand Learning Modes:**
 - **Campus vs. Online:** Be aware of how your modules are delivered. Look out for communications from your programme leads and use the provided glossary to understand different learning approaches.
7. **Develop a Routine:**
 - **Time Management:** Create a regular study schedule. Setting aside specific hours each week can help you manage your time effectively and keep you on track.

By following these tips, you'll be well-prepared to start your academic journey at DMU.

Be Proactive

Proactive individuals often feel more prepared and relaxed, as they take extra steps to anticipate and address potential situations. Here are some tips to help you be proactive:

Tips

1. **Reflect:**
 - **Self-Assessment:** Use the self-assessment tool in this handbook to identify your strengths, limitations, and areas for improvement. For instance, if you need to enhance your time management skills, check out the relevant courses on LinkedIn Learning. Plan your schedule effectively to be present for synchronous sessions.
2. **Enhance Study Skills:**

- **LinkedIn Learning:** Access a variety of courses to improve your study skills by logging in with your student details.
 - **Library and Learning Services:** Take advantage of the resources and support available through the Library and Learning Services.
3. **Ask Questions:**
 - **Engage with Lecturers:** Don't hesitate to ask questions if you have queries. Your lecturers, personal tutor, and course reps are there to help. If you don't understand something in class, whether online or on campus, ask the lecturer or facilitator. If there's no time, send an email after the class.
 4. **Regularly Check Blackboard:**
 - **Module Sites:** Make it a habit to log into Blackboard each week. Consistently check your module sites for announcements and review programme materials. This also provides an opportunity to participate in forum discussions and engage with your peers and instructors.

Interact

Engaging with others is crucial for both mental and physical health. Interaction can have significant benefits and a positive impact on your learning experience. Here are some tips to help you interact effectively:

Tips

1. **Connect:**
 - **Student Community:** Reach out to others through interactive quizzes, videos, and online forums. Connecting with fellow students can enhance your studies, help you make new friends, and avoid loneliness. Use the group room on Blackboard, which is always open for student communication.
2. **De Montfort Students' Union (DSU):**
 - **Opportunities:** The DSU offers various ways to interact with other students through groups, societies, activities, campaigns, and leadership roles. Joining DSU student societies, including self-study groups, can provide both social and academic benefits.
3. **Course Representatives:**
 - **Vital Link:** Course reps ensure your academic interests are represented in meetings. They listen to your views and ideas and relay them to the university. You can interact with course reps through group chats or contact them via their university email, listed on the DSU website.
4. **Staff Surgery Hours:**
 - **Dedicated Time:** Academic staff allocate specific times for students to discuss module or programme-related issues. Book a slot during these times to speak with them.
5. **Personal Tutor:**
 - **Support and Guidance:** Your personal tutor will be with you throughout your time at DMU. Build a relationship with them from the start to receive support and guidance in achieving your academic and personal development goals.
6. **Mentoring:**

- **Schemes:** DMU offers several mentoring schemes designed to support your wellbeing, sense of belonging, and academic excellence. Learn more about these schemes by visiting Mentoring for All.
- 7. **Communication:**
 - **Emails:** Prioritize emails from your module leader by marking them as favorites to avoid missing key information. When emailing staff, use your DMU email address and communicate in a professional manner.
- 8. **Closing the Feedback Loop:**
 - **Focus on Feedback:** After receiving feedback on your work or assignments, concentrate on the points made and what needs improvement. This reflection will help you enhance your performance in future projects.

Seek Support

At DMU, we aim to create an environment that prioritizes your health and wellbeing to help you lead a healthy, happy, and productive life. This includes providing resources to support your development and studies, ensuring you succeed and achieve your potential. Here are some ways to seek support:

Tips

1. **Funding and Finances:**
 - **Student Finance Team:** They can help with questions about applying for funding or managing your finances. To book an online appointment or for more information, you can find the contact details [here](#).
2. **Wellbeing:**
 - **Healthy DMU:** This initiative supports your health and wellbeing with an online hub offering quick access to booking appointments, activities, and tips about staying well. Visit the Healthy DMU Hub for more information and resources.
3. **Disability/Mental Health Disclosure and Support:**
 - **Informing Us:** Disclose any existing disabilities, medical, or mental health conditions so we can make you aware of the support you need and are entitled to. Disabled Students' Allowances (DSA) are available to UK students meeting specific criteria to cover extra costs related to disabilities or medical conditions impacting studies.
4. **Contacting Wellbeing and Mental Health Services:**
 - **Single Point of Access Appointment (SPA):** Book a SPA via MyGateway to discuss your situation with support staff. SPAs are 45-minute appointments assessing your needs, resulting in an action plan.
 - **Booking Appointments:** These can be booked through MyGateway or by emailing disability@dmu.ac.uk.
 - **Disability Advice and Support Team:** Based in the Student Gateway, they arrange support for students with disabilities. You can also follow @DMUwellbeing on Twitter for tips and information on mental health and wellbeing.

Cyberbullying

We are committed to ensuring all students are treated with respect online and face-to-face. Recognize and report any discriminatory behaviors to your personal tutor or faculty advice centre.

What is Cyberbullying?

- Spreading malicious and abusive rumors or gossiping
- Sending threatening or intimidating emails or texts
- Mobbing (a group targeting an individual)
- Repeated harassment
- Intimidation and blackmail
- Online stalking and continual harassment
- Posting embarrassing or humiliating images or videos without consent
- Sharing private details online without consent
- Theft, fraud, or deception over the internet

What to Do if You Experience or Witness Cyberbullying:

- Do not respond to offensive communications
- Save, copy, and print the evidence
- Report the incident
- Alert your course team
- Seek advice from DSU

Mandala Project

The Mandala Project supports students who are victims or survivors of sexual and domestic violence and harassment. They provide options and support through welfare support, referrals to external partners, and formal reports to the university or police.

Student Self-Assessment

This self-assessment tool will help you reflect on your current learning practices and identify areas for improvement to better engage with your programme. Complete this form and bring it to your first meeting with your personal tutor, along with the self-assessment from your online pre-induction programme.

Self-Assessment Template

Area of Reflection	In Classroom-Based Environment	How Will This Be Different Online?
How do I engage with learning?	Listening to the teacher at the front, solo study in class, and working in a group in a seminar.	I will have more distractions, so I will need discipline. Less interaction with other students, so I will need to interact more in forum discussions and online lectures.
How do I manage my time and avoid distractions?	Listen to the lecturer's instructions, put my phone away.	I will need to make a conscious effort to put my phone away and engage with online live lectures.
How do I interact with the lecturer?	I put my hand up to ask questions and seek help.	I can ask questions in seminars and tutorials, send an email, or post my question on the discussion board.
How do I interact with other students?	In group work or sitting together with friends.	Arrange online meetings with my group, interact with other students on chats, forums, and discussions.

Examples for Each Area

1. How do I engage with learning?

- **In Classroom-Based Environment:**
 - Listening to the teacher at the front.
 - Solo study in class.
 - Working in a group in a seminar.
- **How Will This Be Different Online?:**
 - I will have more distractions, so I will need discipline.
 - Less interaction with other students, so I will need to engage more in forum discussions and online lectures.

2. How do I manage my time and avoid distractions?

- **In Classroom-Based Environment:**
 - Listen to the lecturer's instructions.
 - Put my phone away.
- **How Will This Be Different Online?:**
 - I will need to make a conscious effort to put my phone away.
 - Interact with online live lectures.

3. How do I interact with the lecturer?

- **In Classroom-Based Environment:**
 - I put my hand up to ask questions and seek help.
- **How Will This Be Different Online?:**
 - I can ask questions in seminars and tutorials.
 - Send an email.
 - Post my question on the discussion board.

4. How do I interact with other students?

- **In Classroom-Based Environment:**
 - In group work or sitting together with friends.
- **How Will This Be Different Online?:**
 - Arrange online meetings with my group.
 - Interact with other students on chats, forums, and discussions.

By reflecting on these areas, you can better prepare yourself for the transition to online learning and ensure you stay engaged, manage your time effectively, and maintain interactions with lecturers and fellow students.

Developing Your Learning with Peer Support

Introduction

Peer-to-peer support is essential for creating supportive environments and collaborative learning activities that enhance both wellbeing and academic success. This approach involves students helping each other through academic, social, and emotional support, often through mentoring programs and other informal interactions.

Mentoring at DMU

At DMU, mentoring plays a significant role in student development. It addresses various student needs, including wellbeing, belonging, and academic excellence. Here are the established mentoring schemes available to you:

1. **Dare to Be:**
 - **Objective:** Enable students to excel academically and succeed at university.
 - **Mentors:** DMU staff, graduates, or honorands.
 - **Benefits:** Gain different perspectives on opportunities available to achieve long-term goals and life aspirations.
2. **Peer Mentoring:**
 - **Objective:** Support learning and improve academic achievement.
 - **Method:** Students work together, both formally and informally.
3. **Employability Mentoring:**
 - **Objective:** Improve student employability.
 - **Mentors:** Industry professionals.
 - **Benefits:** Learn about career opportunities, demands, and cultures. Gain insight into potential career paths.
4. **i-Buddies:**
 - **Objective:** Support newly arrived international students.
 - **Mentors:** Current DMU students.
 - **Benefits:** Help international students adapt to new environments, cultures, and lifestyles.
5. **MyUniPal:**
 - **Objective:** Welcome and support new students.
 - **Mentors:** Volunteer DMU students.

- **Benefits:** Assist new students in settling in, organizing activities around key transition dates.

For more information and to participate in these schemes, visit [Mentoring for All](#).

Creating Peer-to-Peer Support Systems

In addition to the mentoring programs, students can create their own peer support opportunities:

- **After Class Discussions:** Remain in Blackboard's available rooms to discuss session content with peers.
- **Online Peer Support Groups:** Create groups using social media (ensure compliance with DMU's social media policy).
- **Clubs and Societies:** Get involved with DSU's various clubs and societies.

DMU provides a range of support mechanisms to help you succeed and feel supported during your studies. Engaging in peer support can enhance your learning experience and overall wellbeing. Whether through formal mentoring programs or creating your own support groups, the opportunities for peer-to-peer support are plentiful and beneficial.
